Do you participate in the Federal Work-Study Program (FWS)?:	Yes	
Is institutional employment, other than FWS, available?	Yes ▼	

# Review Data Set Form E: Financial Aid

Merit aid for the purposes of the following questions is defined as grants or scholarships awarded based on academic achievements (GPA, academic interests, standardized test scores, field of study). Aid granted for athletic or artistic reasons should not be counted. The full sum of merit aid should be counted, even if it some or all of the award was used to meet demonstrated need.

Do not include partial test scores (e.g. mathematics scores but not critical reading for a category of students) or combine other standardized test results (such as TOEFL) in this item. Do not convert SAT scores to ACT scores and vice versa. Do convert Old SAT scores (2016) to New SAT scores using the College Board's concordance tools and tables.

How much merit aid did your school award last year in total to its degree-seeking ugrads?	\$ 10,942,119	
What percentage of the merit aid your school awards is contingent upon standardized test scores (in part or	100	%
wholly)?

 $\overline{\phantom{a}}$ 

The Princeton Review is pleased to continue its partnership with the Association for the Advancement of Sustainability in Higher Education (AASHE) to streamline the reporting process for institutions that choose to participate in various higher education sustainability assessments. The intent of this initiative is to reduce and streamline the amount of time campus staff spend tracking sustainability data and completing related surveys. The Princeton Review will accept data submitted via the STARS Reporting Tool or data submitted directly through our own Review Data Set Form F: Student Life below.

\*\*Note that data submitted below will not be shared with any other organization and will be used exclusively by The Princeton Review.

The STARS Reporting Tool is available to users now and located here:

https://stars.aashe.org/pages/register/register-stars.html

The form below is a copy of the STARS 1.2 form. You can refer to the manual here for guidance on timelines and definitions.

### 2017-18 DATA IS DUE TO THE PRINCETON REVIEW VIA EITHER TOOL BY MARCH 2ND, 2018

### **CURRICULUM**

ER-9: Sustainability Learning Outcomes

Criteria

Institution's students graduate from programs that include sustainability as a required

learning outcome or include multiple sustainability learning outcomes.

For this credit, learning outcomes at the course level count if the course is required to earn the degree. This credit includes graduate as well as undergraduate programs. For this credit, "programs" include majors, minors, concentrations, certificates, and other academic designations. Programs that include co-curricular aspects may count as long as there is an academic component of the program.

The number of graduates covered by the sustainability learning outcomes

2340

A list of degree programs that have sustainability learning outcomes

BS Environmental Science
BS Technology Management option in Sustainable Energy Systems Management
MS Environmental Science
MBA option in Environmental Management

The website URL where the inventory is posted or a copy of the inventory may be provided instead of this list if the inventory includes the relevant information.

The website URL where the publicly available sustainability course inventory that includes a list of degree programs that have specified sustainability learning outcomes is available

A list or sample of the sustainability learning outcomes associated with the degree programs

### ER-10: Undergraduate Program in Sustainability

#### Criteria

Institution offers at least one sustainability-focused undergraduate major, degree program, or equivalent.

The degree program does not have to include sustainability in its name to count for this credit. Environmental Studies programs, for example, count as long as the program covers the social, economic, and environmental dimensions of sustainability. A program that focuses exclusively on environmental or social issues, however, would not be sufficient to earn this credit.

Concentrations within a major (e.g. a concentration on sustainable business within the business major) do not count for this credit.

The name of the sustainability-focused, undergraduate degree program (1st program)	Environmental Science
The website URL for the program (1st program)	http://www4.semo.edu/envirosci
The name of the sustainability-focused, undergraduate	Technology Managment - Sustatianble - Energy
degree program (2nd program)

### **BUILDINGS**

OP-1: Building Operations and Maintenance

Criteria

Institution owns and operates buildings that are:

1) Certified under the LEED® for Existing Buildings: Operations & Maintenance (O&M) Green Building Rating System,

and/or

2) Operated and maintained in accordance with sustainable operations and maintenance guidelines and policies that cover the following:

Impacts on the surrounding site
Energy consumption
Usage of environmentally preferable materials
Indoor environmental quality
Water consumption

Please use Gross Floor Area.

### **Gross Floor Area**

Consistent with the American Society of Heating, Refrigerating and Air- Conditioning Engineers (ASHRAE) and the U.S. Green Building Council (USGBC), we define gross floor area as: "Sum of the floor areas of the spaces within the building, including basements, mezzanine and intermediate-floored tiers, and penthouses with headroom height of 7.5 ft (2.2 meters) or greater. It is measured from the exterior faces of exterior walls or from the centerline of walls separating buildings, or (for LEED CI certifying spaces) from the centerline of walls separating spaces. Excludes non-enclosed (or non-enclosable) roofed-over areas such as exterior covered walkways, porches, terraces or steps, roof overhangs, and similar features. Excludes air shafts, pipe trenches, and chimneys.

Building space that is maintained in accordance with sustainable building operations and maintenance guidelines or policies but is NOT certified under LEED for	87532	Square Feet

### **OP-3: Indoor Air Quality**

#### Criteria

Institution has adopted an indoor air quality management policy, plan, and/or practices that include regular auditing or monitoring and a mechanism for occupants to register complaints. Policies and plans adopted by entities of which the institution is part (e.g. state government or the university system) may count for this credit as long as the policies apply to and are followed by the institution.

Occupied building space covered by an indoor air quality plan, policy, and/or practices that include regular auditing or	2189206	Square Feet
monitoring and a mechanism for occupants to register complaints		
Total occupied building space	2189206	Square Feet

### OP-4: Greenhouse Gas Emissions Inventory

indoor air quality initiatives is available

#### Criteria

#### Part 1

Institution has conducted a GHG emissions inventory covering its Scope 1 and Scope 2 emissions. The GHG emissions inventory is publicly available, either through the American College & University Presidents' Climate Commitment reporting site, the institution's website, or another public website.

#### Part 2

Institution has conducted a GHG emissions inventory covering Scope 3 emissions. The GHG emissions inventory is publicly available, either through the American College & University Presidents' Climate Commitment reporting site, the institution's website, or another public website.

The website URL where the GHG emissions inventory is posted	not yet available
Does the inventory include all Scope 1 and 2 emissions?	No
cope 1 Emissions	

### Sc

Scope 1 emissions are direct GHG emissions occurring from sources that are owned or controlled by the institution. Scope 1 emission sources include:

- Combustion of fuels to produce electricity, steam, heat, or power using equipment in a fixed location such as boilers, burners, heaters, furnaces, incinerators
- Combustion fuels by institution-owned cars, tractors, buses, and other transportation devices

### Scope 2 Emissions

Scope 2 emissions are indirect GHG emissions that are a consequence of activities that take place within the organizational boundaries of the institution, but that occur at sources owned or controlled by another entity. Scope 2 emission sources include:

- Purchased electricity
- Purchased heating
- Purchased cooling
- Purchased steam

Does the inventory include emissions from air travel?	Yes	<b>-</b> ]
Does the inventory include emissions from commuting?	Yes	<b>~</b> ]
Does the inventory include embodied emissions from food purchases?	No _	<b>-</b> ]
Does the inventory include embodied emissions from other purchased products?	No	<b>~</b> ]
Does the inventory include emissions from solid waste disposal?	No _	<b>~</b> ]
Does the inventory include another Scope 3 emissions	Yes	<b>~</b> ]

Scope 3 emissions are all indirect emissions not covered in Scope 2. Scope 3 emission sources include:

- Air travel
- Commuting
- Extraction, production, and transportation of purchased materials and fuels, including food
- **Outsourced activities**
- Solid waste disposal

Does the inventory include a second Scope 3 emissions source not covered above?	Yes	-
Does the inventory include a third Scope 3 emissions source not covered above?	Yes	-
Does the inventory include a fourth Scope 3 emissions source not covered above?	Select	-1
source not covered above?		

#### **ENERGY**

### OP-8: Clean and Renewable Energy

#### Criteria

Institution supports the development and use of clean and renewable energy sources using any one or combination of the following options.

Option 1: Generating electricity from clean and renewable energy sources on campus and retaining or retiring the rights to the environmental attributes of such electricity. (In other words, if the institution has sold Renewable Energy Credits for the clean and renewable energy it generated, it may not claim such energy here). The on-site renewable energy generating devices may be owned and/or maintained by another party as long as the institution has contractual rights to the associated environmental attributes.

Option 2: Using renewable sources for non-electric, on-site energy generation, such as biomass for heating.

Option 3: Catalyzing the development of off-site clean and renewable energy sources (e.g. an off-campus wind farm that was designed and built to supply electricity to the institution) and retaining the environmental attributes of that energy.

Option 4: Purchasing the environmental attributes of electricity in the form of Renewable Energy Certificates (RECs) or other similar renewable energy products that are either Green-e Energy certified or meet Green-e Energy's technical requirements and are verified as such by a third party, or purchasing renewable electricity through the institution's electric utility through a certified green power purchasing option.

Option 5: Using cogeneration technologies to generate electricity more efficiently. Note: generating electricity using cogeneration technology and a renewable fuel, such as biomass, is considered Option 1 and should not be counted twice.

Since this credit is intended to recognize institutions that are generating new sources of clean and renewable energy, neither the electric grid mix for the region in which the institution is located nor the grid mix reported by the electric utility that serves the institution count for this credit.

Technologies that reduce the amount of energy used but do not generate renewable energy do not count for this credit. For example, daylighting, passive solar design, and ground-

source heat pumps are not counted in this credit. The benefits of such strategies are captured by OP Credit 5: Greenhouse Gas Emissions Reductions and OP Credit 7: Building Energy Consumption.  Transportation fuels, which are covered by OP Credit 14: Campus Fleet, are not included in this credit.		
1 kWh = 0.003412 MMBtu		
1 MWh = 3.412 MMBtu		
1 therm = 0.1 MMBtu		
1 kBtu = 0.001 MMBtu		
1 ton-hour = 0.012 MMBtu		
1 MJ = 0.000948 MMBTU		
Option 1: Total clean and renewable electricity generated on site during the performance year and for which the institution retains or has retired the associated environmental attributes	MMBtu	
Option 2: Non-electric renewable energy generated	MMBtu	
Option 3: Total clean and renewable electricity generated by off-site projects that the institution catalyzed and for which the institution retains or has retired the associated environmental attributes	MMBtu	
Option 4: Total RECs and other similar renewable energy products that the institution purchased during the performance year that are Green-e certified or meet the Green-e standard's technical requirements and are third party verified	MMBtu	
Option 5: Total electricity generated with cogeneration technology using non-renewable fuel sources	MMBtu	
Total energy consumed during the performance year	MMBtu	
A brief description of on-site renewable electricity generating devices	N/A	

A brief description of on-site renewable non-electric energy devices	N/A

transportation		
The website URL where information about alternative transportation is available		

## OP-16: Employee Commute Modal Split

#### Criteria

Institution's employees (faculty, staff, and administrators) commute to and from campus using more sustainable options such as walking, bicycling, vanpooling or carpooling, taking public transportation, riding motorcycles or scooters, riding a campus shuttle, or a combination of these options. Employees who live on campus should be included in the calculation based on how they get to and from their workplace.

The percentage (0-100) of institution's employees that use more sustainable commuting options	20	%
The percentage (0-100) of institution's employees who		
commute with only the driver in the vehicle (excluding	75	%
motorcycles and scooters) as their primary method of transportation		
The percentage (0-100) of institution's employees who	10	%
walk, bicycle, or use other non-motorized means as their primary method of transportation. Please note that this may include on-campus residents		
The percentage (0-100) of institution's employees who	10	%
vanpool or carpool as their primary method of transportation	10	/0

A brief description of the program		
The website URL where information about the program, policy, or practice is available		
WASTE		

#### **OP-18: Waste Diversion**

#### Criteria

Institution diverts materials from the landfill or incinerator by recycling, composting, reusing, donating, or re-selling.

This credit does not include construction, demolition, electronic, hazardous, special (e.g. coal ash), universal and non-regulated chemical waste, which are covered in OP Credit 19: Construction and Demolition Waste Diversion, OP Credit 20: Electronic Waste Recycling Program, and OP Credit 21: Hazardous Materials Management.

Materials recycled, composted, reused, donated, re-sold, or otherwise diverted	126.91	Tons
Materials disposed in a solid waste landfill or incinerator		
	1586.1	Tons
A brief description of programs, policies, infrastructure investments, outreach efforts, and/or other factors that contributed to the diversion rate		

### DINING SERVICES

### OP-6: Food and Beverage Purchasing

#### Criteria

This credit includes food and beverage purchases for on-campus dining services operated by the institution or the institution's primary on-site contractor. Institution purchases food and beverages that meet at least one of the following criteria:

Grown and processed within 250 miles of the institution

Third-party certified (USDA Certified Organic, Marine Stewardship Council Blue Ecolabel, Food Alliance, Fair Trade, Certified Humane Raised and Handled)

Food and beverage purchases that meet multiple criteria listed above should not be double-counted.

This credit includes food and beverage purchases for on-campus dining operations and catering services operated by the institution or the institution's primary dining services contractor (e.g. Aramark, Bon Appétit Management Company, Chartwells, Sodexo). On-site franchises, convenience stores, vending machines, or concessions are excluded from this credit unless they are operated by the institution or the institution's primary on-site contractor.

Percentage of food expenditures that meet one or more of the criteria for this credit (0 - 100)

15

9

A brief description of the sustainable food and beverage purchasing program

The Seattle's Best Coffee at the University Center is fair trade certified. All seafood purchasing meets the

requirements for the Monterrey Bay Aquarium Seafood watch, all shelled eggs purchased is rGBH free, all poultry purchased free of antibiotics. During peak

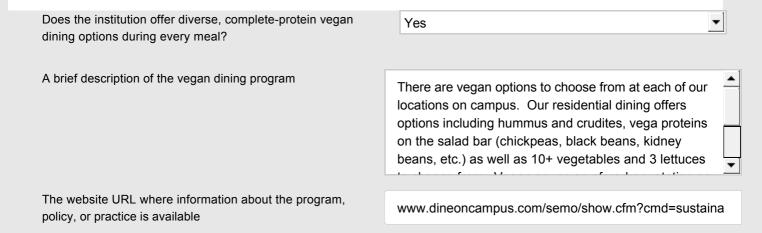

The Website URL where information about the institution's sustainable food and beverage purchasing efforts is available.

http://www.dineoncampus.com/semo/show.cfm?cmd=su

### OP-T2-4: Vegan Dining

#### Criteria

Institution offers diverse, complete-protein vegan dining options during every meal. This credit includes on-campus dining services operated by the institution or the institution's primary dining services contractor. (On-site franchises, convenience stores, vending machines, and concessions are excluded from this credit.)

### COORDINATION AND PLANNING

### PAE-1: Sustainability Coordination

#### Criteria

Institution has a sustainability committee, office, and/or coordinator that are tasked by the administration or board of trustees to advise on and implement policies and programs related to sustainability on campus.

The committee, office, and/or coordinator focus on sustainability broadly (i.e. not just one sustainability issue, such as climate change) and cover the entire institution. A committee, office, or coordinator that focuses on just one department or school within the institution does not count for this credit.

Does the institution have a sustainability committee?	Yes	•
The charter or mission statement of the committee or a brief description of the committee's purview and activities	To develop plans to reduce carbon emissions.	

Members of the committee, including affiliations	Jamie Birkman, Clerical and Tech. Staff Indi Braden, Agriculture Jim Champine, Biology Phil Crawford, Chemistry Cynthia Choo, Chemistry
The website URL where information about the sustainability committee is available	none
Does the institution have a sustainability office?	No 🔻
A brief description of the sustainability office	
The number of people employed in the sustainability office	
The website URL where information about the sustainability office is available	N/A
Does the institution have a sustainability coordinator?	No 💌
Sustainability coordinator's name	N/A
Sustainability coordinator's position title	N/A
A brief description of the sustainability coordinator's position	N/A
The website URL where information about the sustainability coordinator is available	N/A

### PAE-5: Climate Action Plan

#### Criteria

Institution has a formal plan to mitigate its greenhouse gas emissions. The plan includes a measurable, numerical goal or goals and a corresponding date or dates by which the institution aims to achieve its goal(s). The plan has been adopted by the institution's administration.

A formal sustainability plan (i.e. a plan that has been adopted by the administration) counts for this credit if it includes climate change goals, strategies, and corresponding timeframes. Such a plan may also count toward PAE Credit 4: Sustainability Plan.

Does the institution have a plan to mitigate its greenhouse gas emissions that meets the criteria for this credit?	No •
A brief summary of the climate plan's long-term goals	N/A
A brief summary of the climate plan's short-term goals	N/A
Year the climate plan was formally adopted or approved	
An indication of whether institution has made a commitment to reduce GHG emissions a specific amount by a target year	No
List which emissions (scope 1, 2, and/or 3) are included in its GHG emissions commitment	N/A
The reduction level (percentage) institution has committed to	N/A
The baseline year the institution used in its GHG emissions commitment	N/A
(MM/DD/YYYY)	
The baseline emissions level institution used in its GHG emissions commitment	N/A
The target year the institution specified in its GHG emissions commitment (MM/DD/YYYY)	N/A
The website URL where information about the climate plan is available	N/A

### **INVESTMENT**

# PAE-16: Committee on Investor Responsibility

### Criteria

Institution has a formally established and active CIR or similar body that makes recommendations to the Board of Trustees on socially and environmentally responsible investment opportunities across asset classes, including proxy voting. The body has multistakeholder representation, which means its membership includes faculty, staff, and students and may include alumni, trustees, and/or other parties.

Institutions for which investments are handled by the university system and/or a separate foundation of the institution should report on the investment policies and activities of those entities.

A general committee that oversees the institution's investments does not count for this credit unless social and environmental responsibility is an explicit part of its mission and/or agenda.

Does the institution have a committee on investor responsibility or similar body that meets the criteria for this credit?  The charter or mission statement of the CIR or other body, which reflects social and environmental concerns, or a brief description of how the CIR is tasked to address social and environmental concerns  Members of the CIR, including affiliations  Recent examples (within the past 3 years) of CIR actions  The website URL where information about the committee is available  Princeton Review's Supplemental Data Fields The below data fields are not contained within the CSDC. These fields are for editorial and not rating purposes.  Is your school an ACUPCC signatory?  Please list your school's top three undertakings that represent your environmental commitment.

To celebrate Men

# Review Data Set Form G: Campus Safety

information provided should be for the latest 12	onth period for which data is available		
1. What percentage of your student housing sleeping rooms are protected by an automatic fire sprinkler system with a fire sprinkler head located in the individual sleeping rooms? NOTE: A student housing sleeping room is defined as the actual room in which the occupants live and sleep.	85		
Student housing can include typical residence halls, graduate student housing, married student housing or any housing that is under the control or affiliated with the school, such as private, third-party residence halls built under contract with the school. This does not include Greek housing.			
2. What percentage of your student housing sleeping rooms are equipped with a smoke detector that is connected to a supervised fire alarm system? NOTE: When the smoke alarm/detector is activated it must transmit a signal to a supervised location, initiating an immediate response by a staff member to investigate. This alarm does not necessarily activate the building fire alarm system.	76		
How many malicious fire alarms occur in student     bousing per year?	6		
housing per year?  NOTE: A malicious fire alarm would be defined as one where a building's fire alarm system is activated even though it is known that there is no emergency condition. For example, someone blows smoke into a smoke detector or a manual pull station is activated.			
4. How many unwanted fire alarms occur in student	26		
housing per year?  NOTE: An unwanted fire alarm would be defined as one where a building's fire alarm system is activated by non-emergency conditions, yet the fire alarm system responds appropriately to stimuli that it interprets as a fire condition. For example, a smoke alarm that is located too close to a shower and is activated by steam, or is adjacent to a cooking area.			
5. What percentage of student housing building fire alarm systems, if activated, result in a signal being transmitted to a monitored location, and security investigates before notifying the fire department?	0 %		
6. What percentage of student housing building fire alarm systems, if activated, result in a signal being transmitted immediately to the fire department so they can begin responding?	100 %		
7. How many students are trained in fire safety in campus provided housing each semester?	3000		
8. What percentage of RAs and housing directors receive fire safety training?  NOTE: For purposes of this question, housing staff will include only personnel such as resident assistants and/or	100		

	9. How many contact hours of fire safety training is provided to students not living in student housing (i.e., off-campus,	0
	including Greek)?  NOTE: This will not include fire safety training provided to specialties such as laboratory assistants. This must be actual training with contact time and not include simply handing out brochures, fire safety articles in the student newspaper, etc. An example of contact hours would include fire extinguisher training that is provided to 30 students in one hour which would equal 30 contact hours.	
	10. How many regularly scheduled, supervised exit drills are held per year in student housing?	18
	11. How many fires did your school experience last year in student housing?	0
	NOTE: A fire must result in damage to the structure or contents.	
	12. What is the dollar loss related to fire that has occurred on your campus in residential housing?	0
	NOTE: Dollar loss is direct property damage to the structure and contents and does not include costs such as alternative housing, staff response, etc	
	13. How many students have been injured by fires in student housing?	0
	14. How many students have been killed by fires in student housing?	0
N	i. Does your school ban any of the following items or activities in DTE: The "cooking" option excludes cooking done with school-askitchens.	n student housing sleeping rooms? approved/supplied appliances or in school-approved areas, such
V	candles	
V	halogen lamps	
V	smoking	
V	cooking	
V	live christmas trees	
	ceiling tapestries	
V	Other (please specify)	
	If you selected Other please specify:	cookers; toaster ovens; sandwich makers; grills
	16. Does your school require fire-resistance ratings on furniture (including, but not limited to, beds, mattresses, desks, and chairs) in student housing sleeping rooms?	Yes
	17. Does your school require that furnishings brought in by the students have fire-resistance ratings?	No

18. How often are fire safety rules-compliance inspections conducted in your school's student housing?

NOTE: This refers to regularly scheduled, in-room inspections conducted by an inspector or trained individual who is knowledgeable about fire safety issues. It does not refer to a security officer making regular rounds. ALL of the rooms must be inspected during these inspections and checked for hazards.

4 times a year
