Independent Auditors' Report

Board of Regents
Southeast Missouri State University
Cape Girardeau, Missouri

Report On The Financial Statements

We have audited the accompanying financial statements of the business-type activities and discretely presented component unit of Southeast Missouri State University, (the University), a component unit of the State of Missouri, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the University's basic financial statements as listed in the table of contents.

Management's Responsibility For The Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of Southeast Missouri University Foundation, a discretely presented component unit of the University, as described in Note 2. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Southeast Missouri University Foundation, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the discretely presented component unit of Southeast Missouri State University as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4 through 13, the Schedule of Selected Pension Information on page 60 and the Schedule of Funding Progress for Postemployment Healthcare Plan on page 61 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required By *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 10, 2017 on our consideration of the University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This discussion and analysis of Southeast Missouri State University's (the University) basic financial statements provides a comparative overview of the University's financial performance during the year ended June 30, 2017. The Management's Discussion and Analysis is designed to focus on current activities and resulting changes, and should be read in conjunction with the University's basic financial statements and footnotes.

Using this Report

This report consists of a series of financial statements, prepared in accordance with the Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis - for State and Local Governments*, and GASB Statement No. 35, *Basic Financial Statements and Management's Discussion and Analysis - for Public Colleges and Universities*. These basic financial statements focus on the financial condition of the University, the results of operations, and cash flows of the University as a whole.

The Statement of Net Position includes the assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position of the University as of the end of the fiscal year. The Statement of Net Position is a point of time financial statement. It is prepared under the accrual basis of accounting, whereby assets are recognized when the service is provided and liabilities are recognized when others provide the service, regardless of when cash is exchanged. The University's net position (the difference between assets/deferred outflows of resources and liabilities/deferred inflows of resources) is one indicator of the University's financial health. Over time, increases or decreases in net position is one indicator of the improvement or erosion of the University's financial health when considered with non-financial facts such as enrollment levels and the conditions of facilities.

The Statement of Revenues, Expenses, and Changes in Net Position presents the revenues earned and expenses incurred during the year. Activities are reported as operating, nonoperating or other. All things being equal, a public University's dependency on state appropriations and gifts will result in operating deficits. That is because the financial reporting model prescribed by GASB No. 34 classifies state appropriations and gifts as nonoperating revenues. The utilization of long-lived assets, referred to as Capital Assets, is reflected in the basic financial statements as depreciation, which amortizes the cost of an asset over its expected useful life.

The Statement of Cash Flows presents the University's flows of cash. The primary purpose of the Statement of Cash Flows is to provide information about the University's cash receipts and payments summarized by operating, capital and related financing, noncapital financing and investing activities.

Total Net Position	<u>\$ 260,176,321</u>	<u>\$ 266,132,182</u>

Current assets consist primarily of unrestricted and restricted cash and cash equivalents, unrestricted and restricted short-term investments, accounts receivable, accrued interest receivable and inventory. Current assets totaled \$36.82 million at June 30, 2017 and \$29.89 million at June 30, 2016. The increase in current assets of approximately \$6.93 million from June 30, 2016 is primarily an increase in short term investments. The increase in short term investments reflects an investment strategy of investing in shorter term investments since interest rates are low and are projected to increase.

SOUTHEAST MISSOURI STATE UNIVERSITY

Management's Discussion And Analysis (*Continued*)

The majority of noncurrent assets are capital assets which are recorded net of accumulated depreciation. Please refer to Note 2 in the footnotes to the basic financial statements for more information regarding the University's policy for depreciating capital assets. In addition to capital assets, long-term investments comprised \$44.27 million of noncurrent assets at June 30, 2017. Long-term investments comprised \$62.18 million of noncurrent assets at June 30, 2016.

Implementation of GASB No 65, *Items Previously Recognized as Assets and Liabilities* requires reporting of deferred inflows and outflows of resources. Deferred outflows were \$7.25 million at June 30, 2017 and \$6.13 million at June 30, 2016 from refunding of bond issues.

The University implemented GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, as amended by GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. These statements established standards for measuring and recognizing liabilities, deferred outflows and inflows of resources, and expense associated with defined benefit pension plans. Deferred outflows were \$40.96 million at June 30, 2017 and \$15.43 million at June 30, 2016 for deferred amounts related to pension plan and pension plan contributions. Deferred inflows were \$1.02 million at June 30, 2017 and \$1.55 million at June 30, 2016 due to deferred amounts related to the pension plan.

Current liabilities consist primarily of accounts payable, accrued compensation and unearned income. Current liabilities also include the current portion of bonds and notes payable. Current liabilities totaled \$35.89 million at June 30, 2017 and \$32.81 million at June 30, 2016. The increase in current liabilities was approximately \$3.08 million from June 30, 2016.

Noncurrent liabilities which totaled \$299.37 million at June 30, 2017 and \$268.51 million at June 30, 2016, primarily consist of long term debt and net pension liability. Noncurrent liabilities related to the net pension liability increased \$35.60 million from June 30, 2016 for its portion of the MOSERS cost-sharing, multiple employer pension plan.

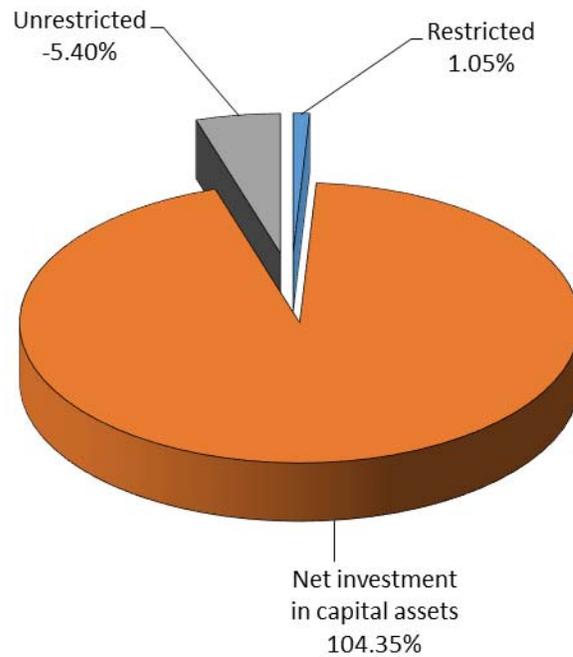

Net position represents the residual interest in the University's assets after liabilities are deducted.

Management's Discussion And Analysis (*Continued*)

Net position invested in capital assets represent the University's capital assets net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction or improvement of those assets. Net investment in capital assets increased approximately \$9.31 million from \$260.15 million at June 30, 2016 to \$269.46 million at June 30, 2017.

Restricted net position includes the University's permanent endowment, managed by the Southeast Missouri University Foundation, which totaled \$2.2 million at June 30, 2017 and \$2.3 million at June 30, 2016. Although unrestricted net position is not subject to externally imposed stipulations, all of unrestricted net position has been internally designated as of June 30, 2017.

Following is a breakdown of designated unrestricted net position as of June 30:

	<u>2017</u>	<u>2016</u>
Unrestricted-Designated Net Position		
Investment in inventories	\$ 2,530,621	\$ 2,758,604
Future operations (including capital projects)	35,316,126	40,937,255

Total	<u>\$ 39,918,777</u>	<u>\$ 45,864,229</u>

The total unrestricted-undesignated net position of the University of \$(53.96) million at June 30, 2017 includes balances accumulated from the operations of the auxiliary enterprises, such as the residence hall system and textbook rental, which totaled \$6.38 million, from loan programs which totaled \$.61 million, and from general operations which totaled \$(60.95) million. The total unrestricted-undesignated net position of the University of \$(45.15) million at June 30, 2016 included balances accumulated from the operations of the auxiliary enterprises such as the residence hall system and textbook rental, which totaled \$6.85 million, from loan programs which totaled \$.60 million and from general operations which totaled \$(52.60) million. The negative unrestricted net position for June 30, 2017 and 2016 respectively results from the implementation of GASB Statements No. 68 and 71 and the recording of a \$114.02 and \$78.42 million pension liability and related deferred inflows and outflows as discussed previously.

Management's Discussion And Analysis (*Continued*)

Total revenues for fiscal year 2017 were \$182.25 million, which consisted of operating revenues of \$111.44 million, non-operating revenues of \$64.14 million and other revenues of \$6.67 million. Total revenues for fiscal year 2016 were \$176.60 million, which consisted of operating revenues of \$109.69 million, non-operating revenues of \$66.53 million and other revenues of \$.38 million. The most significant sources of revenue for the University are student tuition and fees, state appropriations, grants and contracts, and auxiliary services.

Following is a graphic illustration of total revenue by source for the year ended June 30, 2017:

Student tuition and fees net of scholarship allowance decreased by \$12.21 million and auxiliary services net of scholarship allowance increased by \$12.33 million from fiscal year 2016. These changes were primarily the result of a change in the allocation methodology of the scholarship allowance.

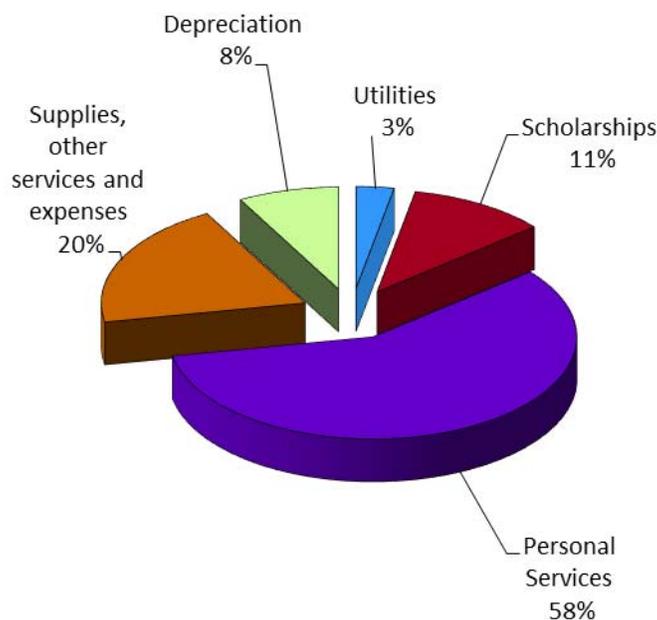

Student tuition and fees surpassed state appropriations as the largest source of revenue for the University in fiscal year 2007. State appropriations have declined as a percent of total revenue from 37% in fiscal year 2002 to 25% in fiscal year 2017. The University state appropriation for fiscal year 2017 was reduced by budget withholdings from \$48.08 to \$44.55 in January 2017. The University's state appropriation for fiscal year 2018, net of the 3% governor's reserve withholding, is \$43.53 million, a 9% decrease over the fiscal year 2017 level before budget withholdings. The fiscal year 2018 state appropriation decreased by \$4.31 million, net of the 3% governor's reserve from the fiscal year 2017 level.

Management's Discussion And Analysis *(Continued)*

Operating expenses of the University totaled \$179.78 million for the fiscal year ended June 30, 2017. Personal service costs, including the costs related to faculty, staff and student labor, accounted for 58% of the total operating expenses at June 30, 2017. Operating expenses of the University totaled \$166.98 million for the fiscal year ended June 30, 2016. Personal service costs, including the costs related to faculty, staff and student labor, accounted for 56% of the total operating expenses at June 30, 2016.

Following is a graphic illustration of operating expenses by source for the year ended June 30, 2017:

Bonds and Notes Payable

The University had outstanding bonds of approximately \$186.15 million and \$189.98 million at June 30, 2017 and 2016, respectively. During fiscal year 2017, the University issued Series 2016C bonds which were for the purpose of partially refunding the Series 2011B bonds. During fiscal year 2016, the University issued 2016A and 2016B bonds which were for the purpose of refunding the Series 2011 bond issue and for the construction of Greek student housing. The University made all regularly scheduled debt service payments. Please refer to the bonds payable footnote (Note 8) in the notes to the basic financial statements for additional disclosures.

SOUTHEAST MISSOURI STATE UNIVERSITY

Management's Discussion And Analysis *(Continued)*

The University had outstanding notes payable of approximately \$318 thousand, a decrease of approximately \$38 thousand from June 30, 2016. No new notes were issued in fiscal year 2017 or 2016. Please refer to the notes payable footnotes (Note 9) in the notes to the basic financial statements for additional disclosures.

Capital Assets

At June 30, 2017 and 2016, the University's investment in capital assets was as follows:

	<u>2017</u>	<u>2016</u>
Land	\$ 4,217,138	\$ 4,217,138
Buildings and improvements	500,539,430	479,373,047

	<u>\$ 458,519,203</u>	<u>\$ 447,502,831</u>

At June 30, 2017, the University had initiated plans and incurred certain contractual commitments related to the construction of various facilities. The costs to complete these projects are estimated at \$10.58 million at June 30, 2017 and are to be funded from bond proceeds, state appropriations, federal grants, or other University and local funds. These projects included approximately \$6.66 million for academic renovations to Grauel, Crisp, and Brandt Buildings and \$3.92 million for other campus renovations.

At June 30, 2016, the University had initiated plans and incurred certain contractual commitments related to the construction of various facilities. The costs to complete these projects are estimated at \$28.95 million at June 30, 2016 and are to be funded from bond proceeds, state appropriations, federal grants, or other University and local funds. These projects included approximately \$5.78 million for Greek Housing Student Housing, \$2.31 million for Towers North renovations, \$9.82 million for academic renovations to Grauel, Crisp and Brandt Buildings, \$2.45 million for the Center for Speech and Hearing and \$8.59 for other campus renovations.

Management's Discussion And Analysis (*Continued*)

Economic Outlook

The Board of Regents approved a \$116.5 million operating budget net of designated revenue for fiscal year 2018. This included an estimated 8.5% reduction in state appropriations, which was based on the Governor's proposed budget and state revenue projections at the time. Subsequent to board approval of the FY18 budget, the Governor signed HB3 funding bill, which included a 6.58% base reduction in state appropriations for higher education. At the same time, the Governor implemented one time withholdings that brought the total appropriation reduction to 9%.

The University is committed to increasing the first time, full time retention rate to 80% and the six-year graduation rate to 60%. Both of these measures are strong indicators of sustained enrollment and tuition and fee revenue. The University's retention efforts are succeeding as the first time, full time retention rate reached 75.1% for fall 2017, the first time it has exceeded 75%.

The University has consistently taken a proactive approach to cost containment and revenue enhancement. The University's budget process mitigates risks from state support reductions or enrollment fluctuations by modeling three years of anticipated budget needs. The institution is currently identifying budget reductions that will meet known and anticipated budget need for FY2018 through FY2020.

SOUTHEAST MISSOURI STATE UNIVERSITY

NOTES TO FINANCIAL STATEMENTS

June 30, 2017

1. Organization

The University was established in 1873 as the Southeast Missouri Normal School. Since then the school has been named the Southeast Missouri State Teachers' College and Southeast Missouri State College. In 1972, the Missouri State legislature adopted the school's current name of Southeast Missouri State University (the University). The University is a multi-purpose regional institution of higher education, which derives its authority from the people of Missouri through the state legislature. The University is considered a component unit of the State of Missouri.

The University is fully accredited by the North Central Association of Colleges and Schools and the National Council for the Accreditation of Teacher Education. The University also holds several program specific accreditations and is a member of several associations including the National Collegiate Athletic Association (NCAA). The University achieves its educational goals by offering instructional programs and other learning experiences at the certificate, associate, baccalaureate, masters and specialist levels.

2. Basis Of Accounting And Presentation And Summary Of Significant Accounting Policies

Basis Of Accounting And Presentation:

The University prepares its financial statements as a business-type activity in conformity with applicable pronouncements of the Governmental Accounting Standard Board (GASB).

The basic financial statements of the University have been prepared using the economic resource measurement focus and the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America for public colleges and universities and is presented in accordance with the reporting model as prescribed in GASB Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*, and GASB Statement No. 35, *Basic Financial Statements - Management's Discussion and Analysis for Public Colleges and Universities*.

SOUTHEAST MISSOURI STATE UNIVERSITY

Notes To Financial Statements (*Continued*)

Revenues, expenses, gains, losses, assets, liabilities and deferred inflows and outflows from exchange and exchange-like transactions are recognized when the exchange transaction takes place, while those from government-mandated nonexchange transactions (principally federal and state grants and state appropriations) are recognized when all applicable eligibility requirements are met. Internal activity and balances are eliminated in preparation of the financial statements unless they relate to services provided and used internally. The University first applies restricted net position when an expense or outlay is incurred for purposes for which both restricted and unrestricted net position are available.

Reporting Entity:

GASB Statement No. 14, *The Financial Reporting Entity*, as amended by GASB Statement No. 61, provides guidance as to the financial reporting of component units (legally separate organizations for which the University is financially accountable). The University has adopted GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*. This statement amends GASB Statement No. 14 to provide additional guidance for determining whether certain organizations, for which the University is not financially accountable, should be reported as component units based on the nature and significance of their relationship with the University. The Missouri Innovation Corporation and the Missouri Innovation Corporation II, Inc. are not included in the University's financial statements because they do not meet the criteria set forth for component units under GASB Statement No. 61 or GASB Statement No. 39. However, both are considered related entities.

The Southeast Missouri University Foundation (the Foundation) is a legally separate tax-exempt entity which meets the criteria set forth for component units under GASB Statement No. 39. The Foundation provides financial support for the objectives, purposes, and programs of the University. Although the University does not control the timing, purpose, or amount of receipts from the Foundation, the resources (and income thereon) which the Foundation holds and invests are restricted to the activities of the University. Because these resources held by the Foundation can only be used by, or for the benefit of, the University, the Foundation is considered a component unit of the University and is discretely presented in the University's financial statements.

SOUTHEAST MISSOURI STATE UNIVERSITY

Notes To Financial Statements (*Continued*)

The Foundation is a private nonprofit organization that reports under generally accepted accounting principles set forth by the Financial Accounting Standards Board (FASB) standards. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. No modifications have been made to the Foundation's financial information in the University's financial report for these differences. The Foundation's significant notes are summarized in Note 16.

During the year ended June 30, 2017, the Foundation distributed \$4,606,874 to the University for both restricted and unrestricted purposes.

Complete financial statements for the Foundation can be obtained by sending a written request to: Southeast Missouri University Foundation, Wehking Alumni Center, One University Plaza, Cape Girardeau, Missouri, 63701.

Summary Of Significant Accounting Policies:

Cash And Cash Equivalents - The University considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. Cash and cash equivalents are combined on the statement of cash flows and represent cash and repurchase agreements.

Investments - The University accounts for its investments at fair value. Certificates of deposit are accounted for at amortized cost which approximates fair value. Changes in unrealized gain (loss) in the carrying value of the investments are reported as a component of investment income in the statement of revenues, expenses and changes in net position.

Fair Value Measurements - The University categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs use to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

SOUTHEAST MISSOURI STATE UNIVERSITY

Notes To Financial Statements (*Continued*)

Due From Component Unit-Foundation- The University bills the Foundation monthly for the use of University services. The final billing for the fiscal year is not paid by the Foundation and received by the University until the following fiscal year, therefore creating a receivable for the University. Additionally, the University participates in the Foundation's investment pool. The investment pool is required to maintain investments in government securities with a combined market value which is at least 110% of the University's share of the pooled investments. As the University does not have title to these investments, their share of the investment pool is recorded as a Due from Component Unit - Foundation.

Inventories - Inventories consist of office, store, farm and physical plant supplies and are recorded at cost using the first-in, first-out method. Text books available for rental are recorded at the lower of cost (using the first-in, first-out method) or market (net realizable value).

Capital Assets - Physical properties are recorded at cost or, when donated, at acquisition value at date of gift. All financially significant building and infrastructure additions and improvements are capitalized if the life of the building is extended. Additionally, all purchases of equipment, furnishings and other personal property with a useful life greater than one year and costing \$1,000 or greater are capitalized.

Depreciation on equipment is computed using the straight line method with depreciation beginning in the month after acquisition and none in the year of disposal. Depreciation is computed on all other assets using the straight-line method, with a full-year expense in the year after acquisition and partial depreciation through the month of disposition. Expenditures for construction in progress are capitalized with depreciation beginning when the project is completed. Capital assets are depreciated over the estimated useful lives as follows:

Capital Assets	Years
Buildings and site improvements	10 to 50
Infrastructure	10 to 50
Leasehold improvements	15
Library books	30
Machinery and tools	5 to 20
Office equipment and furnishings	5 to 20
Scientific equipment and other	5 to 50
Computer hardware and software	4 to 5
Vehicles	4 to 6

SOUTHEAST MISSOURI STATE UNIVERSITY

Notes To Financial Statements (*Continued*)

When capital assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts.

Pensions- For purposes of measuring the net pension liability, deferred outflows of resources, deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Missouri State Employees' Retirement System (MOSERS) and additions to and deductions from MOSERS' fiduciary net position have been determined on the same basis as they are reported by MOSERS. For this purpose, benefit payments (including refunds on employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

Compensated Absences - University employees earn vacation benefits based, in part, on length of service. Vacation pay is fully vested when earned. Upon separation from service, employees are paid accumulated vacation pay based upon the nature of separation (death, retirement or termination). Certain limitations have been placed on the hours of vacation that employees may accumulate and carry over for payment at termination, retirement or death. Unused hours exceeding these limitations are forfeited.

Net Position

Resources are required to be classified for accounting and reporting purposes into the following three net position categories:

- **Net Investment in Capital Assets:** Capital assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction or improvement of those assets.
- **Restricted:**

Nonexpendable - Net position subject to externally imposed stipulations that the University maintain them permanently. Such assets include the University's permanent endowment funds.

Expendable - Net position whose use by the University is subject to externally imposed stipulations that can be fulfilled by actions of the University pursuant to those stipulations or that expire by the passage of time.

SOUTHEAST MISSOURI STATE UNIVERSITY

Notes To Financial Statements (*Continued*)

- **Unrestricted:** Net position that is not subject to externally imposed stipulations. Unrestricted net position may be designated for specific purposes by action of management or the Board of Regents or may otherwise be limited by contractual agreements with outside parties. Substantially all unrestricted net position is designated for academic and research programs and initiatives, and capital programs, excluding the pension obligation.

Operating And Nonoperating Revenues - The University's policy for defining operating activities as reported on the Statement of Revenues, Expenses, and Changes in Net Position are those that generally result from exchange transactions such as payments received for providing services and payments made for services or goods received. Operating revenues include student tuition and fees net of scholarship allowances and auxiliary activities. Nearly all of the University's expenses are from exchange transactions. Certain significant revenue streams relied upon for operations are recorded as nonoperating revenues, as defined by GASB Statement No. 34. Nonoperating revenues include revenues from activities that have the characteristics of nonexchange transactions such as gifts and contributions and other revenue sources that are defined as nonoperating revenues by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Government Entities That Use Proprietary Fund Accounting* and GASB Statement No. 34, such as state appropriations and investment income and certain federal, state and nongovernmental grants and contracts.

Unearned Income - Unearned income consists of the University's dining services vendor's investment in facilities that will be amortized over the life of the contract, and summer school tuition not earned during the current year.

Tuition, Discounts And Allowances - Student tuition and fee revenues and certain other revenues from students, are reported net of scholarship discounts and allowances in the Statement of Revenues, Expenses, and Changes in Net Position. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the University and the amount that is paid by the students or third parties on behalf of the students. Certain grants, including federal, state or nongovernmental programs, are recorded as either operating or nonoperating revenue, while Pell grants are recorded as nonoperating revenue in the University's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the University has recorded a discount and allowance.

SOUTHEAST MISSOURI STATE UNIVERSITY

Notes To Financial Statements (*Continued*)

Deferred Outflows And Inflows Of Resources - In addition to assets, the statement of net position includes a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period or periods and so will not be recognized as an outflow of resources until then. At June 30, 2017, the University's deferred outflows of resources consist of deferred amounts on refunding of bonds payable, which results from the difference between the reacquisition price of refunded debt and its carrying value. This amount is deferred and amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter.

Deferred outflows also include contributions to MOSERS retirement plan which will be recognized in the fiscal year 2018. Finally, deferred outflows also include the University's proportionate share of collective deferred outflows of resources for the University's MOSERS retirement plan. These outflows will be amortized according to the amortization schedule provided by the MOSERS retirement plan..

In addition to liabilities, the statement of net position may report a separate section for deferred inflows of resources. Deferred inflows of resources consist of the acquisition of net position that is applicable to a future reporting period or periods and so will not be recognized as inflow of resources until then. As of June 30, 2017, the University's deferred inflows consist of the University's proportionate share of the collective deferred inflows of resources for the MOSERS retirement plan.

Amortization - The deferred amount on refunding is amortized as interest on capital related debt using the bonds outstanding method. Deferred outflows related to the current fiscal year pension contributions will be fully amortized to pension expense in the following year. Deferred inflows and outflows related to the proportionate share of the collective deferred amounts will be netted together and amortized to pension expense according to the amortization schedule provided by the MOSERS retirement plan.

Auxiliary Activities - Auxiliary activities mainly represent revenues generated from University housing and food service, textbook rentals and various other departmental activities that provide services to the students, faculty, staff and general public.

Income Taxes - The University is classified as a political subdivision of the State of Missouri under Internal Revenue Code Section 115(a) and is therefore exempt from federal income taxes. Certain activities of the University may be subject to taxation as unrelated business income.

Use Of Estimates - The preparation of the basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect amounts reported in the basic financial statements and the accompanying notes. Actual results could differ from those estimates.

3. Deposits And Investments

Deposits:

Custodial Credit Risk. This represents the risk that in the event of a bank failure, a government's deposits may not be returned to it. The University's deposit policy for custodial credit risk requires compliance with the provisions of state law.

State law requires collateralization of all deposits with federal depository insurance; bonds and other obligations of the U.S. Treasury, U.S. Agencies or instrumentalities of the state of Missouri; bonds of any city, county, school district or special road district of the state of Missouri; bonds of any state; or a surety bond having an aggregate value at least equal to the amount of the deposits. The University maintains a depository contract and pledge agreement with its safekeeping bank that complies with the Financial Institutions, Reform, Recovery, and Enforcement Act of 1989 (FIRREA).

At June 30, 2017, the University had no deposits exposed to custodial credit risk.

Foreign Currency Risk. This represents the risk related to adverse effects on the fair value of a deposit from changes in exchange rates. At June 30, 2017, the University had no exposure to foreign currency risk as the University had no deposits held by international banks.

Investments:

The University may invest in United States Treasury Securities, United States Agency Securities, repurchase agreements, collateralized public deposits (certificates of deposits) and banker's acceptances.

SOUTHEAST MISSOURI STATE UNIVERSITY

Notes To Financial Statements (Continued)

At June 30, 2017, the University had the following investments and maturities:

Investment Type	Credit Rating	Fair Value	Investment Maturities (In Years)	
			< 1 Year	1-5 Years
U.S. Treasury Obligations	*	\$ 749,565	\$ 749,565	\$ —
U.S. Agency Obligations	*	59,503,964	15,982,077	43,521,887
Total		\$ 60,253,529	\$ 16,731,642	\$ 43,521,887

*U.S. Treasury and Agency obligations are rated Aaa by Moody's Investor Services and AAA by Standard and Poor's Corporation.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. As a means of ensuring the safety of principal invested, the University's investment policy is to diversify investments so as to minimize the potential loss on individual securities. The maturities are structured to meet cash flow needs of the University, thereby avoiding the need to sell securities in the open market prior to maturity. Callable securities are restricted to securities callable at par only.

Credit Risk. Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. It is the University's policy to limit its investment in banker's acceptance to domestic commercial banks possessing the highest rating issued by Moody's Investor Services or Standard & Poor's Corporation. Commercial paper is limited to domestic corporations that have received the highest rating issued by Moody's Investor Services or Standard & Poor's Corporation, and corporations having total assets in excess of five hundred million dollars. The University had no funds invested in commercial paper or banker's acceptances at June 30, 2017.

Custodial Credit Risk. Custodial credit risk is the risk that, in the event of the failure of the counterparty, the University will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. Collateralization equal to at least 100% of the market value (including accrued interest) is required for repurchase agreements. In accordance with the investment policy, the University addresses custodial credit risk by diversifying its investment portfolio and maintaining a standard of quality for its investments. The University had no investments exposed to custodial credit risk at June 30, 2017.

SOUTHEAST MISSOURI STATE UNIVERSITY

Notes To Financial Statements (*Continued*)

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of a government investment in a single issuer. According to the University's investment policy, investments shall be diversified to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer, or specific class of securities. The types of investments that can be held in the University's portfolio include U.S. Treasury and Agency securities, repurchase agreements, collateralized public deposits, commercial paper and banker's acceptances. No more than 5% of the total market value of the portfolio may be invested in banker's acceptances issued by any one commercial bank and no more than 5% of the total market value of the portfolio may be invested in commercial paper of any one issuer.

The University's investments in U.S. Agency Obligations consist of Freddie Mac, Fannie Mae, Federal Farm Credit Bank, and Federal Home Loan Bank securities. Each of these agencies represents more than 5% of the University's total investments.

Foreign Currency Risk. This risk relates to adverse effects on the fair value of an investment from changes in exchange rates. At June 30, 2017, the University had no exposure to foreign currency risk as there were no foreign investments in the University's portfolio.

Summary Of Fair Values:

The fair value of deposits and investments are as follows:

The University categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The University has the following recurring fair value measurements as of June 30, 2017:

- U. S. Treasury Securities of \$749,565 valued using a matrix pricing model (Level 2 inputs).
- Government Agency Obligations of \$59,503,964 valued using a matrix pricing model (Level 2 inputs).

Notes To Financial Statements (*Continued*)

During 2016, the advance refunding of the Series 2011B bonds resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$1,767,433. This difference, reported in the accompanying basic financial statements as a deferred outflow of resources, are being charged to operations through 2042 using the bonds outstanding method.

The Series 2016C bonds shall pay interest semiannually on April 1 and October 1. At the option of the University, the Series 2016C bonds maturing April 1, 2025 and thereafter may be called to redemption and payment prior to maturity on or after April 1, 2024 in lots of \$5000 at a redemption price of 100% of the principal amount together with accrued interest thereon to the date of maturity. The Series 2016C bonds maturing April 1, 2037, April 1, 2039 and April 1, 2042 are subject to mandatory redemption and payment prior to maturity at the principal amount thereof plus accrued interest thereon to the date of redemption, without premium, in accordance with the following schedule:

Series 2016C Bonds Maturing April 1, 2037

During 2016, the refunding of the Series 2011 bonds resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$609,621. This difference, reported in the accompanying basic financial statements as a deferred outflow of resources, is being charged to operations through 2032 using the bonds outstanding method.

The Series 2016A and 2016B bonds shall pay interest semiannually on April 1 and October 1. At the option of the University, the Series 2016A bonds maturing April 1, 2026 and thereafter may be called to redemption prior to maturity on or after April 1, 2025 in lots of \$5,000 at a redemption price of 100% of the principal amount together with accrued interest thereon to the date of maturity. The series 2016B bonds maturing April 1, 2027 and thereafter, at the option of the University may be called to redemption prior to maturity on or after April 1, 2026 in lots of \$5,000 at a redemption price of 100% of the principal amount together with accrued interest thereon to the date of maturity. The Series 2016B bonds maturing April 1, 2031, April 1, 2036 and April 1, 2045 are subject to mandatory redemption prior to maturity at the principal amount thereof plus accrued interest thereon to the date of redemption, without premium, in accordance with the following schedule:

Series 2016B Bonds Maturing April 1, 2031

On February 28, 2013, the Board of Regents issued \$82,555,000 of System Facilities Revenue Bonds Series 2013A and \$2,050,000 of Taxable System Facilities Revenue Bonds Series 2013B for the purpose of constructing and furnishing a facility for student housing and related education and performance activities in the River Campus area of the University campus; and for the purpose of advanced refunding \$7,805,000 System Facilities Revenue bonds Series 2006A and \$51,615,000 System Facilities Revenue Bonds Series 2008. The advanced refunding decreased the University's total debt service payments by \$9,712,950 and results in an economic gain (difference between the present value of the old and new debt service payments) of \$3,188,038.

During 2013, the advance refunding of the Series 2006A and Series 2008 bonds resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$380,948 and \$7,162,605, respectively. These differences, reported in the accompanying basic financial statements as a deferred outflow of resources, are being charged to operations through 2021 using the bonds outstanding method.

The Series 2013A and 2013B bonds shall pay interest semiannually on April 1 and October 1. At the option of the University, the Series 2013A bonds maturing April 1, 2021 and thereafter shall be subject to redemption on or after April 1, 2020 at a redemption price of 100% of the principal amount together with accrued interest thereon to the date of maturity. The Series 2013A bonds, collateralized by a pledge of the gross income and revenues derived from the ownership or operation of the System Facilities bear interest at rates varying from 2.60% to 5.00% and mature serially through fiscal year 2043. The Series 2013B bonds also collateralized by a pledge of the gross income and revenues derived from the ownership or operation of the System Facilities bear interest at 1.90% and mature in 2018. Extraordinary Option Redemption at 100% for the Series 2013A and 2013B bonds may take place upon the occurrence of certain special conditions or events.

On December 22, 2011, the Board of Regents issued \$28,980,000 of System Facilities Revenue Bonds Series 2011B for the purpose of constructing, furnishing and equipping a five-story, 262 bed residence hall with 180 parking spaces, constructing a chiller and boiler plant and funding capitalized interest on the Series 2011B bonds. The Series 2011B bonds shall pay interest semiannually on April 1 and October 1. At the option of the University, the Series 2011 bonds maturing April 1, 2018 and thereafter shall be subject to redemption on or after April 1, 2017 as follows:

<u>Redemption Dates</u>	<u>Redemption Prices</u>
April 1, 2017 - March 31, 2018	102%
April 1, 2018 - March 31, 2019	101%
April 1, 2019 - April 1, 2042	100%

Extraordinary Option Redemption at 100% may occur upon the occurrence of certain special conditions or events. The Series 2011B bonds bear interest at rates varying from 2.10 % to 2.80% and mature serially through fiscal year 2021.

On August 10, 2016, the University issued \$25,025,000 Series 2016C System Facilities Revenue Bonds to partially fund the Series 2011B bonds. The University will pay principal and interest through 2021 on the Series 2011B bonds. During fiscal year 2017, the University refunded the Series 2011B bonds maturing April 1, 2022-April 1, 2042. The refunded Series 2011B bonds were placed in escrow and were removed from the University's financial statements.

On December 8, 2010, the Board of Regents approved a resolution to issue bonds providing construction proceeds for campus facility renovations and repair projects including renovations to Academic Hall, renovations and an addition to Magill Hall and the University science laboratories, and deferred maintenance projects over the next five years, and conversion of the campus power plant to natural gas installation. On December 16, 2010, the Health and Educational Facilities Authority of the State of Missouri issued \$4,760,000 Educational Facilities Revenue Bond Series 2010A and \$54,495,000 Taxable Educational Facilities Revenue Bonds Series 2010B (Build America Bonds). The Series 2010A bonds were paid in full at final maturity on October 1, 2014. The Series 2010B bonds shall pay interest semiannually on April 1 and October 1. The University participates in the Build America Bonds program relative to the Series 2010B bonds. Build America Bonds were created under section 1531 of Title 1 of Division B of the American Recovery and Reinvestment Act, and provide a federal subsidy of 35% of the interest paid on the bonds to the issuer. Due to sequestration, subsidy payments were reduced by 8.7% in September 2013, by 7.2% in March 2014, 7.3% in March 2015, and 6.8% in March 2016, and 6.9% in March 2017. The University anticipates a 6.9% reduction in the September 2017 subsidy payment. The order does not affect payments for future years, although the University has been informed that there could be additional sequester orders for future fiscal years through and including fiscal year 2021.

At the option of the University, the Series 2010B bonds maturing October 1, 2021 and thereafter shall be subject to redemption on or after October 1, 2020 at a redemption price of 100% of the principal amount. The Series 2010B bonds bear interest at rates varying from 4.125% to 6.875% and mature serially through fiscal year 2041. The true interest cost after the federal subsidy averages 4.316%.

The System Facilities is composed of the Housing System, the Student Union Facility (University Center), Textbook Services, the Student Recreation Center, the Outdoor Recreation Fields, and the Parking and Transit system. Revenue derived from the operation of these facilities is pledged for the retirement of the outstanding 2011B, 2013A, 2013B, 2016A, 2016B, and 2016C Series Bonds. Under the provisions of these bond resolutions, the University covenants to establish rates for the use and services of the System Facilities sufficient to fund operations, maintain reserves, and provide revenues to pay principal and interest on the bonds. Refer to Note 15 for a summary of System Facilities pledged revenue for fiscal year 2017.

Interest expense on bonded debt was \$7,552,703 for 2017 net of capitalized interest of \$341,019.

10. Retirement Plan - Missouri State Employees' Retirement System

General Information about the Pension Plan

Plan description. Benefit eligible employees of the University are provided with pensions through MOSERS - a cost-sharing multiple-employer defined benefit pension plan. Chapter 104.320 of the Revised Statutes of Missouri grants the authority to establish a defined benefit plan for eligible state and other related agency employees. MOSERS issues an annual Comprehensive Annual Financial Report (CAFR), a publicly available financial report that can be obtained at www.mosers.org.

Benefits provided. MOSERS provides retirement, disability, and life insurance benefits to eligible employees. The base retirement benefits are calculated by multiplying the employee's final average pay by a specific factor multiplied by the years of credited service. The factor is based on the specific plan in which the employee participates, which is based on the employee's hire date. Information on the three plans administered by MOSERS (MSEP, MSEP 2000, and MSEP2011 retirement plans) and how eligibility and the benefit amount is determined for each plan may be found in the Notes to the Financial Statements of MOSERS' CAFR starting on page 28.

SOUTHEAST MISSOURI STATE UNIVERSITY

Notes To Financial Statements (*Continued*)

Contributions. Per Chapter 104.436 of the Revised Statutes of Missouri, contribution requirements of the active employees and the participating employers are established and may be amended by the MOSERS Board. Employees in the MSEP2011 Plan are required to contribute 4% of their annual pay. The University's required contribution rate for the year ended June 30, 2017, was 16.97% of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The contribution rate for the MOSERS plan year ended June 30, 2016 was 16.97%, which is the year of measurement for the net pension liability. Contributions to the pension plan from the University were \$8,208,979 for the year ended June 30, 2017.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the University reported a liability of \$114,021,149 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

The University's proportion of the net pension liability was based on the University's actual share of contributions to the pension plan relative to the actual contributions of all participating employers for MOSERS plan year ended June 30, 2016. At June 30, 2016, the University's proportion was 2.4563%, an increase from its proportion measured using 2.4420% as of the June 30, 2015 measurement date.

There were no changes in benefit terms during the MOSERS plan year ended June 30, 2016, that affected the measurement of total pension liability.

SOUTHEAST MISSOURI STATE UNIVERSITY

Notes To Financial Statements (Continued)

For the year ended June 30, 2017, the University recognized pension expense of \$17,728,619. At June 30, 2017, the University reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows Of Resources	Deferred Inflows Of Resources
Differences between expected and actual experience	\$ 1,174,302	\$ 333,138
Changes of assumptions	11,871,816	685,347
Net difference between projected and actual earnings on pension plan investments	18,629,902	—
Changes in proportion and differences between University contributions and proportionate share of contributions	1,078,063	—
University contributions subsequent to the measurement date of June 30, 2016	8,208,979	—
	\$ 40,963,062	\$ 1,018,485

Deferred outflows of resources of \$8,208,979 resulting from University contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in the University's fiscal year following MOSERS' fiscal year as follows:

Amortization Schedule

Plan Year Ending June 30:	Amount
2018	\$ 8,421,828
2019	8,368,665
2020	11,686,966
2021	3,258,139
	\$ 31,735,598

SOUTHEAST MISSOURI STATE UNIVERSITY

Notes To Financial Statements (*Continued*)

Actuarial assumptions. The total pension liability in the June 30, 2016 actuarial valuation, which is also the date of measurement for financial reporting purposes, was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5%, approximate
Salary increases	3.25% - 8.75% annually including inflation
Wage inflation	3% annually
Investment rate of return	7.65% per year, compounded annually, net after investment expenses and including inflation

Mortality rates were based on the RP-2014 Healthy Annuitant mortality table, projected to 2026 with Scale MP-2015 and scaled by 120%. The pre-retirement mortality table is the RP-2014 Employee mortality table, projected to 2026 with Scale MP-2015 and scaled by 95% for males and 90% for females.

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2010 to June 30, 2015. As a result of this actuarial experience study, the MOSERS Board made various demographic and economic assumption changes to more closely reflect actual experience. The most significant changes included lowering the assumed annual investment rate of return from 8 percent to 7.65 percent and the adoption of the above mortality tables. The changes in assumption recorded as deferred inflows and outflows of resources were due to these changes from the actuarial experience study.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates rates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in MOSERS target asset allocation as of June 30, 2016 are summarized in the following table:

SOUTHEAST MISSOURI STATE UNIVERSITY

Notes To Financial Statements (Continued)

<u>Asset Class</u>	<u>Policy Allocation</u>	<u>Long-Term Expected Real Rate Of Return*</u>	<u>Weighted Average Long-Term Expected Real Rate of Return</u>
Beta Balanced	80.0%	5.7%	4.6%
Illiquids **	20.0%	7.3%	1.5%
	<u>100.0%</u>		<u>6.1%</u>

* Represent best estimates of geometric rates of return for each major asset class included.

** Illiquid portfolio upper limit of 27.5% of capital, no new commitments past 23%

Discount rate. The discount rate used to measure the total pension liability was 7.65%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions from employers will be made at required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the University's proportionate share of the net pension liability to changes in the discount rate. The following presents the University's proportionate share of the net pension liability calculated using the discount rate of 7.65%, as well as what the University's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.65%) or 1-percentage-point higher (8.65%) than the current rate:

	<u>1% Decrease (6.65%)</u>	<u>Current Discount Rate (7.65%)</u>	<u>1% Increase (8.65%)</u>
	University's proportionate share of the net pension liability	\$ 150,138,638	\$ 114,021,149

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued MOSERS financial report.

Payables to the Pension Plan

The University had payables of \$852,060 to MOSERS because legally required contributions to the plan for June 2017 were not paid until July 2017.

11. Retirement Plan - College And University Retirement Plan

Beginning July 1, 2002, in accordance with Section 104.1200 through 104.1215 of the Revised Statutes of Missouri, employees hired who meet the criteria of an “education employee” participate in the College and University Retirement Plan (CURP). It is a noncontributory 401(a) defined contribution plan for education employees at regional colleges/universities in Missouri. The MOSERS has been given the responsibility by law to implement and oversee the administration of the plan. The TIAA-CREF group of companies is the third-party administrator for the CURP and manages the investment options under the plan. Contributions made by the University are self-directed by participants into their selected individual accounts. By law, the CURP contribution rate is equal to 1% less than the normal cost contribution rate of the Missouri State Employees’ Plan 2000 (MSEP 2000). After participating in CURP for at least six years, a faculty member may elect to become a member of MOSERS.

The University is required to contribute to CURP at an actuarially determined rate; the rate was 5.67% and 5.89% of annual covered payroll for 2017 and 2016, respectively. The University’s contributions to CURP for the years ended June 30, 2017, 2016 and 2015 were \$925,089, \$928,044 and \$896,102, respectively, which equaled the required contributions for those years.

12. Postemployment Healthcare Plan

Plan Description. The University provides a one-time opportunity for retirees to continue medical insurance coverage. Retirees after October 22, 2010 who elect to continue medical insurance are required to pay monthly premiums determined by plan type elected and Medicare eligibility. Pre-65 retirees who retired prior to October 22, 2010 who elect to continue medical insurance are required to pay monthly premiums on the basis of an implicit rate subsidy calculation. Monthly premiums for pre-October 22, 2010 participating retirees under 65 years of age are subsidized by the University at the rate of 1% for every year of active service to the University. Pre-October 22, 2010 retiree’s adjusted monthly premium cost will not go below 80% of the premium amount. Financial statements for the plan are not available.

SOUTHEAST MISSOURI STATE UNIVERSITY

Notes To Financial Statements (Continued)

Funding Policy. The University pays for their portion of the medical insurance premiums on a pay-as-you-go basis. No trust fund has been created for the payment of the University's portion of the medical insurance premiums; therefore as of June 30, 2017 the University's obligations are unfunded. For more information see the Schedule of Funding Progress in the Required Supplementary Information section.

Annual Other Post Employment Benefit (OPEB) Cost and Net OPEB Obligation. The University's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years.

The following table shows the components of the University's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the University's net OPEB obligation to the plan:

Annual required contribution	\$	532,760
Interest on OPEB obligation		70,787
Adjustment to annual required contribution		(105,874)
Annual OPEB cost		<u>497,673</u>
Contributions made		<u>377,241</u>
Increase in OPEB obligation		120,432
Net OPEB obligation - beginning of year		<u>1,887,660</u>
Net OPEB obligation - end of year	\$	<u><u>2,008,092</u></u>

The University's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2017 and the previous two years are as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage Of Annual OPEB Cost Contributed	Net OPEB Obligation
6/30/17	\$ 497,673	64.3%	\$ 2,008,092
6/30/16	492,928	64.3%	1,887,660
6/30/15	576,044	74.3%	1,711,555

Funded Status and Funding Progress. As of July 1, 2015, the most recent actuarial valuation date, the plan had no assets since the University does not fund the plan. The unfunded actuarial accrued liability (UAAL) for benefits was \$4.59 million. The covered payroll (annual payroll of active employees covered by the plan) was \$55.0 million, and the ratio of the UAAL to the covered payroll was 8.3%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2015, actuarial valuation, the entry age normal actuarial method was used. The actuarial assumptions included a 3.75% discount rate, an annual healthcare cost trend rate of 8% initially, reduced by decrements to an ultimate rate of 5% after six years, and a 3% annual increase in salaries. 40% of participants are assumed to continue under the same coverage they are currently electing for their lifetime. It is also assumed that all retirees will continue coverage for their lifetime. The UAAL is being amortized as a level dollar amount over a 30-year open period. The amortization period at July 1, 2015 was 30 years and is restarted with each valuation.

13. Contingencies And Risk Management

The University is subject to various legal proceedings and claims which arise in the ordinary course of its operations. In the opinion of the University management, the amount of ultimate liability with respect to these actions will not materially affect the overall financial position of the University.

Under the terms of federal grants, periodic audits are required and certain costs may be questioned as not being appropriate expenditures under the terms of the grants. Such audits could lead to reimbursements to the grantor agencies. It is the opinion of management that such reimbursements, if any, will not have a material effect on the University's financial position.

University employees are covered under Worker's Compensation by the State of Missouri. Claims are submitted to the State and paid by the State on behalf of the University. Total claims paid for the University employees for fiscal year 2016-2017 were \$390,326.

The majority of University employees are also covered by unemployment insurance administered by the State of Missouri Division of Employment Security.

The University is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters and employee health and accident benefits. The University purchases commercial insurance and also receives coverage through the State of Missouri for these risks of loss. Settled claims have not exceeded this commercial coverage in any of the three preceding years.

The University has purchased property on occasion that requires monitoring for environmental issues that could result in liability. As of June 30, 2017, the University is not aware of any material environmental liability.

14. Net Position

Restricted - Net position is restricted when constraints placed are either externally imposed, or are imposed by law or legislation. The composition of restricted net position at June 30, 2017 was:

Nonexpendable	
Scholarships	\$ 2,158,105
Expendable	
Debt service	1,697,654
Grants and other	905,078
	<u>2,602,732</u>
Total Restricted	<u>\$ 4,760,837</u>

Unrestricted - Unrestricted net position is not subject to externally imposed stipulations; however, it may be subject to internal designations. For example, unrestricted net position may be designated for specific purposes by action of the Board of Regents or may otherwise be limited by contractual agreements with outside parties. Substantially all unrestricted net position is internally designated for academic programs and initiatives, investment in inventories and capital programs. Designated unrestricted net position was \$39,918,778 at June 30, 2017. Undesignated unrestricted net position, including those of auxiliary operations, was \$(53,961,403) at June 30, 2017.

Undesignated unrestricted net position at June 30, 2017 consists of the following:

Net pension liability at June 30, 2017, offset by pension-related deferred inflows and outflows	\$ (74,076,572)
All other operations of the University, including auxiliary operations	<u>20,115,169</u>
Total undesignated unrestricted net position	<u>\$ (53,961,403)</u>

University operations undesignated unrestricted net position consists of \$610,615 US Government Loan Programs, \$6,379,461 Auxiliary Undesignated and Unrestricted Undesignated of \$13,125,093.

15. Operating Leases

The University has entered into several operating leases for equipment. These leases will expire on various dates through fiscal year 2021. Future minimum lease payments at June 30, 2017 were:

<u>Year</u>	<u>Amount</u>
2018	\$ 180,871
2019	113,255
2020	33,357
2021	322
	<u>\$ 327,805</u>

16. Segment Information

A segment is an identifiable activity reported within a stand-alone entity for which one or more revenue bonds are outstanding. A segment has a specific identifiable revenue stream pledged in support of revenue bonds and has related expenses, gains and losses, assets and liabilities that are required by an external party to be accounted for separately. The University has one segment that meets the reporting requirements of GASB Statement No. 37, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments: Omnibus - an amendment of GASB Statements No. 21 and No. 34*. As of June 30, 2017, the University's outstanding bond debt includes System Facilities Revenue Bonds. The System Facilities is composed of the Housing System, the Student Union facility, the Student Recreation Center, the Parking and Transit System, Textbook Services, and the Outdoor Recreation Fields. Revenue derived from the operation of these facilities is pledged for the retirement of the outstanding Series 2011B, Series 2013A & 2013B, Series 2016A, Series 2016B & Series 2016C bonds and payment of interest thereon semi-annually on April 1 and October 1.

On March 14, 2013, the Foundation sold 247.43 acres to the City of Cape Girardeau (the City). The City signed a 12-year, noninterest bearing promissory note for the amount of \$5,520,000 to the Foundation. The City shall pay 12 annual installments of \$460,000. Imputed interest amount was calculated using the long-term applicable federal rate for the month of March 2013, which was 2.66%. In April 2017, an additional \$920,000 was added to the note as a result of a joint capital project between the City and the University. The City signed a new promissory note with the Foundation to fund the City's share of the capital improvements and the Foundation will reimburse the University as funds are collected from the City.

On December 9, 2013, the Foundation sold the property located at 401 and 505 Washington Avenue to APG Limited, LLC. APG Limited signed a 10-year promissory note with an interest rate of 2.25% for the amount of \$647,000 to the Foundation. APG Limited shall pay 119 payments of \$3,350 and a final balloon payment of \$362,378.

On May 17, 2005, the Foundation purchased a 254.67 acre farm which is being used as the University Demonstration Farm. To finance the purchase, the Foundation entered into a promissory note with First Missouri State Bank in the amount of \$1,462,500. On May 17, 2015, a second change in terms agreement was signed. There will be 60 regular payments of \$8,920 with a maturity date of May 18, 2020. In August 2016, the note was paid off early in full using proceeds from the sale of property.

On February 1, 2008, the Foundation purchased three adjacent properties on South Lorimier Street in Cape Girardeau, Missouri. To finance the purchase, the Foundation entered into a promissory note with Montgomery Bank in the amount of \$340,500. After a three-month extension dated May 1, 2013, which reduced the interest from 5.85% to 3.95%, a five-year promissory note was executed on August 1, 2013. Current payments on the note are regular payments of \$6,069 and one irregular last payment estimated at \$236,434. The interest rate of the promissory note is 3.95% with a maturity date of August 1, 2018.

On October 8, 2008, the Foundation purchased property at 4193 Bainbridge Road, County Road 306 in Jackson, Missouri. To finance the purchase, the Foundation entered into a five-year fixed rate promissory note with Bank of Missouri in the amount of \$220,000. On November 1, 2013, the loan was refinanced with a maturity date of November 1, 2028. In July 2016, the note was paid off early in full using proceeds from the sale of property.

On December 30, 2008, the Foundation purchased property at 334 Morgan Oak and additional lots nearby in Cape Girardeau, Missouri. To finance the purchase, the Foundation entered into a promissory note with Montgomery Bank in the amount of \$600,000. On March 19, 2014, a change in terms agreement was signed, which changed the collateral held on this loan. Current payments on the note are regular payments of \$3,794 and one lump sum last payment estimated at \$385,086 due on August 31, 2018, and an interest rate of 3.95%.

On December 28, 2012, the Foundation purchased property located at 315 South Lorimier in Cape Girardeau, Missouri. To finance the purchase, the Foundation entered into a promissory note with First Missouri State Bank in the amount of \$289,220 with a maturity date of December 28, 2017. Current payments on the note are regular payments of \$2,136 and one lump sum last payment estimated at \$206,659. The interest rate of the promissory note is 3.92%.
