Consider hosting an onsite flu shot clinic or worksite wellness event.

Help keep your employees healthy and productive this flu season

Encourage your employees to get a flu shot.

Healthy and productive employees
Each flu season, nearly 111 million workdays are lost due to the flu. That equals approximately $7 billion per year in sick days and lost productivity.¹ The Centers for Disease Control and Prevention (CDC) recommends a yearly flu vaccine for everyone 6 months of age and older as the first and most important step in protecting against this serious disease.² Remind your employees that now is the time to consider getting their seasonal flu shot.

Easy access to flu shots
UnitedHealthcare contracts with a variety of national pharmacy chains and retail Convenience Care Clinics to provide members with easy access to flu shots. Plus, members get the highest level of benefit coverage (100% for most fully insured plans) for flu shots obtained from contracted network providers including:

- Network doctors or clinics
- Select retail pharmacies
- Network Convenience Care Clinics
- Contracted flu shot providers

UnitedHealthcare Contracted Flu Shot Providers
Members should review their benefit plan to determine coverage for flu immunizations.
UnitedHealthcare members may present their health plan ID cards to receive flu shots on a walk-in basis from these national flu shot providers.
