The Master of Science in Technology Management program incorporates appropriate theories and practices used in real-world applications for addressing the needs of modern industries.

The program consists of a core section of 6 courses, two research based courses, and 3-4 option specific elective courses. Students can choose among the following options:

- Cybersecurity
- Facilities management
- Industrial education
- Industrial training and development
- Manufacturing systems
- Telecommunications systems
- Workplace environment and health safety
- Technical communication
- Customized

**Technology management students will...**

- Understand management and its direct role in industry.
- Participate in experiential learning opportunities within industries
- Engage in research-related activities to solve real-world application problems
- Learn production planning, applications of scientific techniques for quality control, and assurance and management of production processes.
- Enhance their leadership positions in industry and related enterprises.
- Serve as effective leaders, supervisors, and managers in technical enterprises.
- Become managers in a technology based environment.

**Career Planning**

The Technology Management Program is designed to:

- Develop advanced competencies needed by technical managers, supervisors, and related positions in world-class industries and related enterprises.
- Prepare students to serve as effective leaders, supervisors, and managers in technical enterprises.
- Broaden the career potential of individuals through the ability to implement systems, increase productivity, and improve product quality.
- Develop a broad perspective needed for those employed in, or aspiring to positions of responsibility in industry.

**Internship and Employment Opportunities of Recent Graduates**

- Lean director
- Project QA/QC manager
- Safety supervisor
- Facility managers
- Technical managers
- Engineering managers
- Production supervisors

**Experiential Learning Opportunities for Students**

- Proctor & Gamble
- TG Missouri
- Tyco Health Care
- Missouri Department of Transportation
- Southeast Missouri State University
- Facilities Management
- Technology Resource Center
- Missouri Research Corporation

**Admission Requirements**

1. For consideration, applicants must hold a bachelor’s degree from an accredited college or university in industrial/engineering technology, engineering, industrial/technical education, or related fields with course work or a significant background in engineering economics quality control and process management. An applicant with another degree and a portfolio that can verify a record of successful industrial experience as a technical manager can be admitted after completing the required prerequisite courses.

2. Consideration for regular admission is based on an undergraduate grade point average of at least 3.25 on a 4.0 scale. Students who do not meet the regular admission requirements may be conditionally admitted and allowed to complete only nine graduate semester hours. Upon completion of the nine hours at Southeast, the student must have a grade point average of 3.33 on a 4.0 scale to be considered for full admission to the program. For more information, visit [semo.edu/polytech/academics/ms.html](http://semo.edu/polytech/academics/ms.html).
Master of Science (M.S.)

This is a guide based on the 2017-2018 Graduate Bulletin and is subject to change. The time it takes to earn a degree will vary based on factors such as dual enrollment, remediation, and summer enrollment. Students meet with an academic advisor each semester and use DegreeWorks to monitor their progress.

**CURRICULUM CHECKLIST**

33 Hours Required

**CORE REQUIREMENTS:**
- FM504 Facilities Management (3)
- IM600 Managing Technology Innovation (3)
- IM602 Advanced Quality Concepts (3)
- IM603 Technology Supervision in a Diverse Workplace (3)
- IM605 Innovation for a Lean Enterprise (3)
- IM606 Knowledge Management (3)
- IM691 Understanding Graduate Research (3)

**CHOOSE ONE TRACK:**

**Thesis Track:**
- IM694 Thesis (3)
- GR699 Master’s Oral Exam (0)
- 9 hours from one option

**Applied Project Track:**
- IM693 Applied Research Project (3)
- GR698 Master’s Final Comp Exam (0)
- 9 hours from one option

**Class Track:**
- IM692 Modeling and Simulation (3)
- GR698 Master’s Final Comp Exam (0)
- 12 hours from one option

**CHOOSE 9-12 HOURS FROM ONE OPTION (depending on which track is chosen):**

**3D ANIMATION & GAMING**
- GM525 Virtuality in Gaming (3)
- GM580 Motion Capture Technology (3)
- GM585 Computer Special Effects (3)
- GM680 Stereoscopic Imaging (3)

**CYBERSECURITY**
- CY501 Introduction to Cybersecurity (3)
- CY510 Information Security and Assurance (3)
- CY520 Information Security in Systems Administration (3)
- CY610 Web Application Security (3)
- CY620 Computer Forensics (3)

**FACILITIES MANAGEMENT**
- CM510 Building Information Modeling (3)
- ET570 Energy Management (3)
- EV654 Risk Assessment Applications (3)
- FM554 Facilities Operation and Supervision (3)
- IM506 Projects in Industrial & Engineering Technology (3)

**INDUSTRIAL EDUCATION/TRAINING & DEVELOPMENT**
- IE590 Assessment for Career & Technical Education (3)
- IE592 Selection & Organization of Subject Matter (3)
- IE593 Principles & Practices of Industrial Technical Teaching (3)
- IE595 Teaching Adults in Career & Technical Education (3)
- IE596 Philosophy in Career & Technical Education (3)
- IE597 Coordination of Cooperative Education (3)
- IM520 Technical Training & Development (3)
- IM521 Technical Change & HR Development (3)
- IM522 Technical Leadership in Training & Development (3)
- IM523 Training & Development of Technical Teams (3)

**MANUFACTURING SYSTEMS**
- ET568 Industrial Controls (3)
- ET570 Energy Management (3)
- IM555 Sustainable and Green Manufacturing (3)
- IM617 Manufacturing Resource Analysis (3)
- MN512 Advanced Manufacturing Systems (3)

**TELECOMMUNICATIONS SYSTEMS**
- TN562 Networking I (3)
- TN563 LAN Switching (3)
- TN564 Telecommunications & Networking II (3)
- TN565 Network Management (3)
- TN566 IP Telephony (3)
- TN625 Wireless Communications & Mobile Data Networks (3)
- TN635 Network Security (3)

**WORKPLACE ENVIRONMENT & HEALTH SAFETY**
- EV551 Hazardous Material Assessment (3)
- EV563 Occupational Health (3)
- EV564 Risk Assessment Applications (3)
- EV565 Industrial Hygiene (3)
- EV660 Introduction to Toxicology (3)
- EV661 Business Strategies for Corporate Environmental Management (3)
- EV666 HAZWOPER (3)

**CUSTOMIZED**

Developed with consent of advisor to meet individual career needs of the student, which may include independent study and/or problems in industrial and engineering technology courses

1. **Recommended sequence of required course work:**
   - First semester: 3 core courses
   - Second semester: 3 core courses
   - Third semester: IM691 and 2 elective courses
   - Fourth semester:
     - Degree path 1: Thesis and 1 elective
     - Degree path 2: IM693 and 1 elective
     - Degree path 3: IM692 and 2 electives

**NOTE:** If elective courses chosen require prerequisites, it may be necessary to take these in the first year of classes.

**About Our Online Programs**

At Southeast, if a program is designated as an online degree that means you can complete your degree from anywhere, without ever having to come to one of our campuses. As a student in an online class, your faculty will be the same faculty who teach in our campus classrooms. Advising for online programs and other support services are all completed online by staff who specialize in serving distance students. Not all elective courses in this technology management program are offered online and not all core courses are offered online every semester. Students are encouraged to work with an advisor for scheduling of online courses.

2. **Why should I study Technology Management at Southeast?**

The Master of Science in technology management program at Southeast was designed with the help from industries we serve in the southeast Missouri regions, including St. Louis. It serves technical managers, production supervisors, engineers, technicians, and related professionals who wish to study full time or part time to prepare for or enhance their leadership positions in industry and related enterprises. Upon completing the program, graduates serve as effective leaders, supervisors, and managers in technical enterprises.
