

The societal need for highly trained and educated public health professionals continues to grow rapidly. According to the US Bureau of Labor Statistics (BLS), nearly one-third of the projected increase in US jobs is projected to come from the healthcare and social assistance sectors.

Public health professionals protect, improve and promote the health of individuals, communities and populations. They play a significant role in responding to infectious disease epidemics and emergency situations relating to natural disasters. The work of a public health professional can range from addressing the health needs of people in a very specific locality to focusing on the spread of disease across the globe. The work of public health professionals spans many disciplines.

The curriculum for the B.S. in Public Health consists of a core of approximately 83 credit hours, 15 credit hours in a selected option, and 22 additional credit hours of general education and elective credits. The core draws on courses taught by twelve different departments. The option area is intended to allow students to gain an in-depth understanding of a specific area of professional practice. All students complete internships and/or research participation. This interdisciplinary curriculum provides multiple opportunities for graduates in the growing public health field.

Public Health students will...

- Understand the concepts of population health, and the basic processes and interventions that identify and address major health related needs and issues for populations.
- Be able to identify opportunities for promoting and protecting health across the human life span by acquiring an understanding of the science of human health and disease.
- Develop an understanding of the socioeconomic, behavioral, biological, environmental and other factors that impact human health and health disparities.
- Be able to use and analyze public health data and evidenced based approaches in public health practice.
- Be well prepared to directly enter career positions in the public health field or to successfully pursue post-baccalaureate education programs.

Becoming Career Ready...

/ Faculty-mentored research and guidance will help you develop the professional skills needed for success in a competitive job market and/or advanced study in graduate and professional programs.

/ The Public Health: Health Policy & Management option program prepares graduates for multiple opportunities in the growing public health management field. Example job titles include public policy manager, community activist, hospital manager, and public policy analyst.

/ 100% of Southeast programs offer real-world experience. Public Health: Health Policy & Management option students learn by completing a required internship and/or research participation through government agencies, lobbyist organizations, and not-for-profit groups.

/ The path to a successful career starts with you! You can maximize your career development by working closely with Career Services and Southeast faculty – they are here to help you connect your passions, interests and skills to jobs and opportunities in the field. Career Services provides professional career counseling and coaching, resume critiques, practice interviews, job search strategies, career events, networking opportunities and more.

- U.S. Food and Drug Administration
- U.S. Department of Agriculture
- Health Plans
- Washington University School of Public Health
- St. Louis University School of Public Health
- University of Missouri – Columbia

Admission Requirements

A college preparatory sequence that includes three years of science (including biology, chemistry and physics) and mathematics through advanced algebra is encouraged.

Transfer and Dual Credit Students

If you have dual credit or transfer credit, please visit our transfer course equivalencies guide at semo.edu/transfercredit.

Public Health: Health Policy & Management Option**Bachelor of Science (BS)**

This is a guide based on the 2021-2022 Undergraduate Bulletin and is subject to change. The time it takes to earn a degree will vary based on several factors such as dual enrollment, remediation, and summer enrollment. Students will meet with an academic advisor each semester and use Degree Works to monitor their individual progress.

CURRICULUM CHECKLIST

"Critical Courses" are *italicized and bolded*. Data shows that students who have completed this course in the first two years and have earned the noted grade are most likely to complete this program of study.

Public Health: Health Policy & Management Option-94-96 credit hours

- ___ BI163 Evolution and Ecology (4)
- ___ **BI173 Cell and Organismal Biology (4)**
- ___ BI310/BS240/BS242 Microbiology (3-4)
- ___ BI443/EV443 Epidemiology (3)
- ___ BI454/EV454 Risk Assessment Applications (3)
- ___ BI471/EV481/HA471/PS384 Internship (1)
- ___ BS113 Anatomy and Physiology I (4)
- ___ BS114 Anatomy and Physiology II (4)
- ___ **CH184 General Chemistry I Lab (1)**
- ___ **CH185 General Chemistry I (3)**
- ___ CH234/CH341 Organic and Biological Chemistry (3-4)
- ___ EC215 Microeconomics (3)
- ___ EV 401 Environmental Science Seminar (1)
- ___ HL320 Community Health (3)
- ___ IS175 Information Systems (3)
- ___ **MA116 Precalculus A (3)**
- ___ MA223/MA155 Probability and Statistics (3)
- ___ PS103 US Political Systems (3)
- ___ PY220 Psychological Development Across the Lifespan (3)
- ___ PY555 Health Psychology (3)
- ___ SC105 Fundamentals of Oral Communication (3)
- ___ SC301 Foundations of Health Communications (3)
- ___ SO101 Introduction to Sociology (3)
- ___ IU309 Professional Writing for Science and Technology (3)
- ___ UI352 Medical Ethics (3)
