

Engineering Physics: Mechanical Applications Option

Bachelor of Science (BS)

Mechanical Applications Option

Engineering is the profession in which basic knowledge from the mathematical and natural sciences is applied to develop new ways to utilize the materials and forces of nature for the benefit of society. Physics is perhaps the most fundamental of the sciences. It involves the study of the nature of basic things such as motion, forces, energy, matter, heat, sound, light, and the atom.

Engineering physics is an interdisciplinary degree program combining the study of physics and engineering into one curriculum. Students acquire a deep knowledge of physical and mathematical principles and learn to apply this knowledge to meet the needs of society. The interdisciplinary nature of this program produces graduates who can work in many diversified fields and who can easily adapt their skills to the needs of employers.

The engineering physics program is an engineering program that is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>. This accreditation allows our seniors to take the Fundamentals of Engineering (FE) Exam, which is the first step to becoming a Registered Professional Engineer (PE) in Missouri and across the United States.

Engineering physics students will...

- Have the ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability.
- Have the ability to use the techniques, skills and modern tools necessary for physics and engineering careers.
- Have the broad education necessary to understand the impact of physics and engineering solutions in a global, economic, environmental and societal context.

Becoming Career Ready...

/ Faculty-mentored research and guidance will help you develop the professional skills needed for success in a competitive job market and/or advanced study in graduate and professional programs.

/ Mechanical Applications graduates work in almost all sectors of the engineering industry. You can find jobs in aerospace, automotive, chemical, construction, electronics, or metal industries, and more. Examples of job titles include mechanical engineer, industrial engineer, automotive engineer and technical sales engineer.

/ 100% of Southeast programs offer real-world experience. Mechanical Applications students earn this experience through using modern tools used throughout the curriculum that are necessary for physics and engineering careers. Students may also do an internship to gain more experience in the field.

/ The path to a successful career starts with you! You can maximize your career development by working closely with Career Services and Southeast faculty – they are here to help you connect your passions, interests and skills to jobs and opportunities in the field. Career Services provides professional career counseling and coaching, resume critiques, practice interviews, job search strategies, career events, networking opportunities and more.

Internship and Employment Opportunities of Recent Graduates:

- Century Link Technology Solutions
- National Information Solutions Cooperative
- TG Missouri
- Schaefer's Electrical Enclosures
- Southeast Missouri State University
- Southeast Hospital
- BIS Industrial Services
- Honeywell F M & T
- Lighting Science Group Corporation
- Wright Patterson Air Force Base
- Boeing
- Lockheed Martin
- NASA
- National Geospatial Intelligence Agency
- Raytheon
- Rockwell Collins
- GeoEye, Inc.

Graduate Schools and Programs of Recent Graduates:

- University of Arkansas – MicroEP Program
- Washington University – Physics
- University of Missouri – Aerospace Engineering
- University of Missouri – Physics
- Boise State university – Biomedical Engineering
- University of Kansas – Biomedical Engineering
- Southern Illinois University at Edwardsville – Comp. Engr.
- University of North Texas – Physics
- Purdue University – Aerospace Engineering
- University of Illinois – Electrical Engineering
- University of Michigan – Biomedical Engineering

Admission Requirements

A high school student interested in majoring in Engineering Physics should complete four years of mathematics that includes trigonometry and an introduction to calculus. Four years of science, which includes both chemistry and physics is highly recommended. A strong background in English is essential.

Transfer and Dual Credit Students

If you have dual credit or transfer credit, please visit our transfer course equivalencies guide at semo.edu/transfercredit.

Engineering Physics: Mechanical Applications Option

Bachelor of Science (BS)

This is a guide based on the 2021-2022 Undergraduate Bulletin and is subject to change. The time it takes to earn a degree will vary based on several factors such as dual enrollment, remediation, and summer enrollment. Students will meet with an academic advisor each semester and use Degree Works to monitor their individual progress.

CURRICULUM CHECKLIST

"Critical Courses" are italicized and bolded. Data shows that students who have completed this course in the first two years and have earned the noted grade are most likely to complete this program of study.

Engineering Physics: Mechanical Applications – 62 hours

A grade of 'C' or better is required in each course that is a prerequisite course.

Required Courses:

- ___ EP 100 Introduction to Engineering (3)
- ___ EP 240 Circuit Analysis I (3)
- ___ EP 242 Circuit Analysis (3)
- ___ EP 261 Engineering Mech: Statics (3)
- ___ EP 262 Engineering Mech: Dynamics (3)
- ___ EP 263 Mechanics of Materials (4)
- ___ EP 350 Mechanical Engineering Design (3)
- ___ EP 361 Engineering Thermodynamics (3)
- ___ EP 363 Fluid Mechanics (3)
- ___ EP 365 Heat Transfer (3)
- ___ EP 372 Signals and Systems (3)
- ___ EP 374 Control Systems (3)
- ___ EP 462 Materials Science (3)
- ___ EP 463 Numerical and FE Methods (3)
- ___ EP 480 Capstone Design I (2)
- ___ EP 481 Capstone Design II (2)
- ___ PH 230 General Physics I (5)
- ___ PH 231 General Physics II (5)
- ___ PH 345 Experimental Methods I (3)
- ___ PH 360 Modern Physics (3)
- ___ PH 371 Electromagnetics (3)

Additional Requirements:

A grade of 'C' or better is required in each course that is a prerequisite course. This sequence of mathematics courses constitutes a minor, but it must be declared.

- ___ CH 184 General Chemistry I Lab (1)
- ___ CH 185 General Chemistry (3)
- ___ **MA 140 Analytic Geometry & Calculus I (5)**
- ___ MA 145 Analytic Geometry & Calculus II (4)
- ___ MA 223 Elementary Probability & Statistics (3)
- ___ MA 244 Analytic Geometry & Calculus III (4)
- ___ MA 350 Differential Equations (3)
- ___ MN 120 Fund of Engr Design Processes (3)

Choose 3 hours:

- ___ EC 215 Principles of Microeconomics (3)
- ___ MN 220 Engineering Economic Analysis (3)

NOTE: Seniors are required to take the Fundamentals of Engineering Exam in their last semester.

General Education Requirements – some requirements may be fulfilled by coursework in major program

- Social and Behavioral Sciences – 6 hours
- Constitution Requirement – 3 hours
- Written Communication – 6 hours
- Oral Communication – 3 hours
- Natural Sciences – 7 hours (from two disciplines, one to include a lab)
- Mathematics – 3 hours
- Humanities & Fine Arts – 9 hours (from at least two disciplines)
- Additional requirements – 5 hours (to include UI100 for native students)
- Civics examination

**Many major courses are on a set rotation and dependent on when prerequisites are completed. The actual semester a course is taken may vary based on the rotation.*

SAMPLE FOUR-YEAR PLAN

	Fall Semester		Spring Semester	
	Course #	Hrs	Course #	Hrs
FIRST YEAR	UI100	1	CH184/CH185	4
	EC215/MN220	3	EN100	3
	EP100	3	MA145	4
	MA140	5	PH230/030	5
	General Education	3		
	Total	15	Total	16
SECOND YEAR	EP261	3	EP240	3
	MA244	4	EP262	3
	MN120	3	EP263	4
	PH231/031	5	MA350	3
	General Education	3	General Education	3
	Total	18	Total	16
<i>(summer courses are encouraged to avoid 18 hour semesters)</i>				
THIRD YEAR	EP242	3	EP363	3
	EP361	3	EP365	3
	PH345	3	EP462	3
	PH360	3	General Education	3
	General Education	3		
	Total	15	Total	12
FOURTH YEAR	EP372	3	EP350	3
	EP480	2	EP374	3
	MA223	3	EP463	3
	PH371	3	EP481	2
	General Education	3	General Education	3
	Total	14	Total	14

Degree requirements for all students: a minimum of 120 credit hours, completion of the General Education program, and completion of 39 senior division hours (300-599). Refer to the Undergraduate Bulletin or Degree Works for additional graduation requirements for your program.
