Southeast Missouri State University
Traditional Program

2013 | Title II
Reports

Complete Report Card

AY 2011-12

Institution Information

Name of Institution: Southeast Missouri State University
Institution/Program Type: Traditional
Academic Year: 2011-12
State: Missouri

Address: One University Plaza
MS 5600
Cape Girardeau, MO, 63701

Contact Name: Dr. Daryl Fridley
Phone: 573-651-2556
Email: dfridley@semo.edu

Is your institution a member of an HEA Title II Teacher Quality Partnership (TQP) grant awarded by the U.S. Department of Education?
(<http://www2.ed.gov/about/offices/list/oii/tqp/index.html>)

No

If yes, provide the following:

Award year:**Grantee name:****Project name:****Grant number:****List partner districts/LEAs:****List other partners:****Project Type:**

Section I.a Program Information

List each teacher preparation program included in your traditional route. Indicate if your program or programs participate in a Teacher Quality Partnership Grant awarded by the U.S. Department of Education as described at <http://www2.ed.gov/about/offices/list/oii/tqp/index.html>.

Teacher Preparation Programs	Teacher Quality Partnership Grant Member?
Agricultural Education 9-12	No
Art K-12	No
Biology 9-12	No
Business Education 9-12	No
Chemistry 9-12	No
Early Childhood Education B-3	No
Elementary Education 1-6	No
English 9-12	No
Family And Consumer Sciences B-12	No
French K-12	No
General Science 5-9	No
German K-12	No

Mathematics 5-9	No
Mathematics 9-12	No
Mild/Moderate: Cross Categorical K-12	No
Music - Instrumental K-12	No
Music - Vocal K-12	No
Physical Education K-12	No
Physics 9-12	No
Social Science 5-9	No
Social Science 9-12	No
Spanish K-12	No
Speech and Theatre 9-12	No
Technology And Engineering 9-12	No
Unified Science: Biology 9-12	No
Unified Science: Chemistry 9-12	No
Unified Science: Physics 9-12	No
Total number of teacher preparation programs: 28	

Section I.b Admissions

Indicate when students are formally admitted into your initial teacher certification program:

Junior year

Does your initial teacher certification program conditionally admit students?

Yes

Provide a link to your website where additional information about admissions requirements can be found:

http://www.semo.edu/cea/program_requirements.htm

Please provide any additional comments about or exceptions to the admissions information provided above:

The unit has defined some contingency situations. Students can be admitted provisionally if they have not completed EN140, but they must complete that course during Block II in order to move onto Block III. Occasionally, students lacking ED200 and ED250 will be admitted provisionally, with progression to Block III being contingent upon completion of those two courses during Block II. The C-BASE requirement is waived for applicants who have completed a four-year degree from an accredited institution, per state rules.

Section I.b Undergraduate Requirements

Please provide the following information about your teacher preparation program's entry and exit requirements. (§205(a)(1)(C)(i))

Are there initial teacher certification programs at the undergraduate level?

Yes

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the Undergraduate level.

Element	Required for Entry	Required for Exit
Transcript	No	No
Fingerprint check	No	No
Background check	No	No
Minimum number of courses/credits/semester hours completed	Yes	No
Minimum GPA	Yes	Yes
Minimum GPA in content area coursework	No	No
Minimum GPA in professional education coursework	No	Yes
Minimum ACT score	No	No
Minimum SAT score	No	No
Minimum basic skills test score	Yes	No
Subject area/academic content test or other subject matter verification	No	No
Recommendation(s)	No	No
Essay or personal statement	No	No
Interview	No	No
Other	Data not reported	Data not reported

What is the minimum GPA required for admission into the program?

2.5

3.34

What is the minimum GPA required for completing the program?

2.5

What was the median GPA of individuals completing the program in academic year 2011-12

3.52

Please provide any additional comments about the information provided above:

Section I.b Postgraduate Requirements

Please provide the following information about your teacher preparation program's entry and exit requirements. (**S205(a)(1)(C)(i)**)

Are there initial teacher certification programs at the postgraduate level?

No

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the Postgraduate level.

Element	Required for Entry	Required for Exit
Transcript	Data not reported	Data not reported
Fingerprint check	Data not reported	Data not reported
Background check	Data not reported	Data not reported
Minimum number of courses/credits/semester hours completed	Data not reported	Data not reported

Recommendation(s)	Data not reported	Data not reported
Essay or personal statement	Data not reported	Data not reported
Interview	Data not reported	Data not reported
Other	Data not reported	Data not reported

What is the minimum GPA required for admission into the program?

What was the median GPA of individuals accepted into the program in academic year 2011-12

What is the minimum GPA required for completing the program?

What was the median GPA of individuals completing the program in academic year 2011-12

Please provide any additional comments about the information provided above:

Section I.c Enrollment

Provide the number of students in the teacher preparation program in the following categories. Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reported in one of the race categories. Also note that individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled.

For the purpose of Title II reporting, an enrolled student is defined as a student who has been admitted to a teacher preparation program, but who has not completed the program during the academic year being reported. An individual who completed the program during the academic year being reported is counted as a program completer and *not* an enrolled student.

[Additional guidance on reporting race and ethnicity data.](#)

Total number of students enrolled in 2011-12:	690
Unduplicated number of males enrolled in 2011-12:	162
Unduplicated number of females enrolled in 2011-12:	528

2011-12	Number enrolled
<i>Ethnicity</i>	
Hispanic/Latino of any race:	10
<i>Race</i>	

Asian:	3
Black or African American:	12
Native Hawaiian or Other Pacific Islander:	0
White:	661
Two or more races:	2

Section I.d Supervised Clinical Experience

Provide the following information about supervised clinical experience in 2011-12.

Average number of clock hours of supervised clinical experience required prior to student teaching	200
Average number of clock hours required for student teaching	560
Average number of clock hours required for mentoring/induction support	0
Number of full-time equivalent faculty supervising clinical experience during this academic year	20
Number of adjunct faculty supervising clinical experience during this academic year (IHE and PreK-12 staff)	18
Number of students in supervised clinical experience during this academic year	256

Please provide any additional information about or descriptions of the supervised clinical experiences:

Section I.e Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2011-12. For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

Subject Area	Number Prepared
Education - General	
Teacher Education - Special Education	22
Teacher Education - Early Childhood Education	41
Teacher Education - Elementary Education	59
Teacher Education - Junior High/Intermediate/Middle School Education	23
Teacher Education - Secondary Education	59

Section I.e Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2011-12. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. (§205(b)(1)(H))

Academic Major	Number Prepared
Education - General	
Teacher Education - Special Education	22
Teacher Education - Early Childhood Education	41

Section I.f Program Completers

Provide the total number of teacher preparation program completers in each of the following academic years:

2011-12: 261

2010-11: 229

2009-10: 213

Section II Annual Goals - Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (§205(a)(1)(A)(ii), §206(a))

Information about teacher shortage areas can be found at <http://www2.ed.gov/about/offices/list/ope/pol/tsa.html>.

Please provide the information below about your program's goals to increase the number of prospective teachers in mathematics in each of three academic years.

Academic year 2011-12

Did your program prepare teachers in mathematics in 2011-12?

Yes

How many prospective teachers did your program plan to add in mathematics in 2011-12?

5

Did your program meet the goal for prospective teachers set in mathematics in 2011-12?

Yes

Description of strategies used to achieve goal, if applicable:

The program recruits at Show Me Days and the Multicultural Showcase for potential students. Faculty also meet with the students at First Step new student orientation in order to engage students who arrive at school with an interest in math.

Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

because of the difficulty of some of the upper level mathematics classes.

In order to address this issue, program faculty are working to better inform students, early in the program, about the challenges of upper level mathematics courses. Since the mathematics education faculty does not teach the mathematics courses our majors take, the program faculty have been making efforts to work more closely with the mathematicians and with the advisers who are mathematicians.

In addition, faculty advisers meet regularly with students to plan their courses of study in order to make sure that they take the proper prerequisites for upper level courses. In order to encourage a sense of community among math education majors, the Math Department offers two mathematics clubs. Math education majors are also invited to professional mathematics conferences and provided with transportation and accommodations.

Provide any additional comments, exceptions and explanations below:

Academic year 2012-13

Is your program preparing teachers in mathematics in 2012-13?

Yes

How many prospective teachers did your program plan to add in mathematics in 2012-13?

5

Provide any additional comments, exceptions and explanations below:

Academic year 2013-14

Will your program prepare teachers in mathematics in 2013-14?

Yes

How many prospective teachers does your program plan to add in mathematics in 2013-14?

5

Provide any additional comments, exceptions and explanations below:

Section II Annual Goals - Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (**§205(a)(1)(A)(ii), §206(a)**)

Information about teacher shortage areas can be found at <http://www2.ed.gov/about/offices/list/ope/pol/tsa.html>.

Please provide the information below about your program's goals to increase the number of prospective teachers in science in each of three academic years.

Academic year 2011-12

Did your program prepare teachers in science in 2011-12?

Yes

How many prospective teachers did your program plan to add in science in 2011-12?

4

Did your program meet the goal for prospective teachers set in science in 2011-12?

Yes

Description of strategies used to achieve goal, if applicable:

The program recruits at Show Me Days, President's Day, and Multicultural Showcase programs designed for high school seniors.

Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

The program offers careful academic planning and advising to increase retention. Support from both content area and teacher education advisers increases development of both professional and content competencies, leading to improved teacher competency and, in turn, confidence and, in turn, retention.

Provide any additional comments, exceptions and explanations below:

Academic year 2012-13

Is your program preparing teachers in science in 2012-13?

Yes

How many prospective teachers did your program plan to add in science in 2012-13?

4

Provide any additional comments, exceptions and explanations below:

Will your program prepare teachers in science in 2013-14?

Yes

How many prospective teachers does your program plan to add in science in 2013-14?

4

Provide any additional comments, exceptions and explanations below:

Section II Annual Goals - Special Education

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (§205(a)(1)(A)(ii), §206(a))

Information about teacher shortage areas can be found at <http://www2.ed.gov/about/offices/list/ope/pol/tsa.html>.

Please provide the information below about your program's goals to increase the number of prospective teachers in special education in each of three academic years.

Academic year 2011-12

Did your program prepare teachers in special education in 2011-12?

Yes

How many prospective teachers did your program plan to add in special education in 2011-12?

5

Did your program meet the goal for prospective teachers set in special education in 2011-12?

Yes

Description of strategies used to achieve goal, if applicable:

The program increased its visibility and participation at Show Me Days, an exhibition for high school seniors. and First STEP, freshman orientation.

Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

The Exceptional Child Block, a semester focused on special education issues and a connected clinical experience, was moved from after Block III to after Block II so faculty could make contact with special education majors at an earlier point. This created opportunities for increased support, which, in turn, increased the potential for retention in the program.

Provide any additional comments, exceptions and explanations below:

Academic year 2012-13

Is your program preparing teachers in special education in 2012-13?

Yes

How many prospective teachers did your program plan to add in special education in 2012-13?

5

Provide any additional comments, exceptions and explanations below:

Academic year 2013-14

Will your program prepare teachers in special education in 2013-14?

Yes

How many prospective teachers does your program plan to add in special education in 2013-14?

5

Provide any additional comments, exceptions and explanations below:

Section II Annual Goals - Instruction of Limited English Proficient Students

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (§205(a)(1)(A)(ii), §206(a))

Information about teacher shortage areas can be found at <http://www2.ed.gov/about/offices/list/ope/pol/tsa.html>.

Please provide the information below about your program's goals to increase the number of prospective teachers in instruction of limited English proficient students in each of three academic years.

Did your program prepare teachers in instruction of limited English proficient students in 2011-12?

No

How many prospective teachers did your program plan to add in instruction of limited English proficient students in 2011-12?

Did your program meet the goal for prospective teachers set in instruction of limited English proficient students in 2011-12?

NA

Description of strategies used to achieve goal, if applicable:

Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Provide any additional comments, exceptions and explanations below:

Academic year 2012-13

Is your program preparing teachers in instruction of limited English proficient students in 2012-13?

No

How many prospective teachers did your program plan to add in instruction of limited English proficient students in 2012-13?

Provide any additional comments, exceptions and explanations below:

Academic year 2013-14

Will your program prepare teachers in instruction of limited English proficient students in 2013-14?

No

How many prospective teachers does your program plan to add in instruction of limited English proficient students in 2013-14?

Provide any additional comments, exceptions and explanations below:

Section II Assurances

Please certify that your institution is in compliance with the following assurances. (§205(a)(1)(A)(iii), §206(b)) Note: Be prepared to provide documentation and evidence for your responses, when requested, to support the following assurances.

Preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

Yes

Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

Yes

Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

Yes

Prospective general education teachers are prepared to provide instruction to students with disabilities.

Yes

Prospective general education teachers are prepared to provide instruction to limited English proficient students.

Yes

Prospective general education teachers are prepared to provide instruction to students from low-income families.

Yes

Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

Yes

Describe your institution's most successful strategies in meeting the assurances listed above:

- Response to needs of Local Educational Agencies (LEAs) and Schools: Administrators and faculty from the College of Education maintain regular contact with P-12 administrators and teachers through joint supervision of field experiences, attendance at P-12 administrative meetings, and consultancy on special projects. These types of contact allow members of the unit to keep abreast of changes in the needs and expectations of LEAs and individual schools. Recently, the unit created two regional advisory boards, populated by school stakeholders in the University's service area, to create a new conduit for communication between the College of Education and school districts. Already, feedback from these advisory boards has engendered discussions related to instructional technology and the types of majors the unit offers.

- Special Education Candidates and Core Academic Subjects: The Exceptional Child program is part of the Elementary, Early and Special Education Department. All Exceptional Child majors complete a rigorous curriculum which includes meeting the requirements for certification in Exceptional Child K-12 and Elementary Education (grades 1-6). Students complete coursework, field experiences and licensing exams that align with Missouri Standards for Teacher Education Programs (MoSTEP), the Council for Exceptional Children (CEC), and the Association of Childhood Education International (ACEI). Having met standards for both CEC and ACEI helps to ensure that our teacher candidates in the Exceptional Child program have the coursework and field experiences to effectively deliver instruction in core content areas.

- General Education Candidates and Students with Disabilities: All teacher candidates take Psychology and Education of the Exceptional Child (EX390) in which the 14 disability areas are studied. Students adapt lesson plans under the direction of an instructor trained in special education and learn about Individualized Education

needs of students with exceptional learning needs. In addition, differentiating instruction for students with special needs--including those encompassed by the parameters of special education--is addressed in Diversity in American Schools (EL 274 or SE 275, depending upon the students major) and in Theories of Learning and Management (EL 315 or SE 306, depending upon the students major).

•General Education Candidates and Limited English Proficient students: Meeting the needs of LEP students is addressed in Diversity in American Schools (EL 274 or SE 275). Early Childhood majors complete coursework specifically focused on working with LEP students in Language Development and the Young Child(CE370). Elementary Education majors Middle/Secondary Education majors address LEP learners in courses focused on teaching reading: Corrective Reading Instruction (EL354) and Teaching Reading in the Secondary School (SE307), respectively. In addition, teacher education faculty members work with the Regional Professional Development Center (RPDC) to provide LEP-related workshops and training for teacher candidates and university faculty.

•Teaching Students from Low-Income Families and Teaching in Urban and Rural Schools: All teacher preparation programs are structured to provide teacher candidates with knowledge and experiences relevant to learning to teach students from a variety of backgrounds. In Diversity in American Schools, all candidates study the backgrounds from which different populations enter school and the ways in which that might affect learning. Candidates also complete multiple Teacher Work Samples (a performance assessment constructed around basic teaching-related tasks) in which they must identify relevant contextual factors. They are encouraged, in particular, to analyze the ways in which socioeconomic status and geographical designations (e.g. rural and urban) might influence student learning. In addition, the Office of Clinical Experiences (OCE) works to ensure that teacher candidates participate in clinical experiences in diverse settings. The OCE is currently working with Institutional Research to construct a database that will enable more accurate tracking of the types of clinical experiences in which teacher candidates participate, thereby making it easier to ensure that candidates work in schools of different wealth levels and in schools with different geographic characteristics.

Section III Assessment Pass Rates

All program completers, 2010-11	222	217	98
All program completers, 2009-10	213	204	96

Section IV Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program.

Is your teacher preparation program currently approved or accredited?

Yes

If yes, please specify the organization(s) that approved or accredited your program:

State
NCATE

Is your teacher preparation program currently under a designation as "low-performing" by the state (as per section 207(a) of the HEA of 2008)?

No

Section V Use of Technology

Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare teachers to:

- integrate technology effectively into curricula and instruction
Yes
- use technology effectively to collect data to improve teaching and learning
Yes
- use technology effectively to manage data to improve teaching and learning
Yes
- use technology effectively to analyze data to improve teaching and learning
Yes

Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic

applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

•Integrating Technology into Curriculum and Instruction: All teacher candidates at Southeast Missouri State University take two courses which incorporate the ISTE NETS standards for teachers and focus on the use of instructional technology. In these courses, students are introduced to specific software and hardware examples, provided with opportunities to use these in educational contexts, and led in the exploration of philosophical and ethical issues related to the use of technology in the classroom. In addition, a requirement to use instructional technology is embedded in nearly every other course in all of the unit's teacher preparation programs. In order to facilitate the increased use of instructional technology, the College of Education has installed Smartboards and technology packs in most classrooms, built a new state-of-the-art technology demonstration room, and is currently in the process of constructing video editing rooms that will enable teacher candidates to create instructional videos and to edit videos of their own teaching for the purposes of self and peer critique.

•Technology for Data Collection, Management and Analysis: In a general sense, all teacher candidates are exposed to and interact with software designed to collect, manage, and analyze data. The University's Moodle learning management system provides students with experience in data collection from the student's perspective and enables them to see various ways--depending upon instructor preferences--in which data might be collected, evaluated, and reported using an electronic system. The College of Education uses another data management system, Chalk and Wire, which provides students with additional examples. More specifically, in the process of completing multiple Teacher Work Samples, teacher candidates use basic software (e.g. Word, Excel) to organize and analyze data and then to report on conclusions drawn from that analysis. Based upon this analysis, teacher candidates then make plans to revise their instruction to improve learning in the future.

Section VI Teacher Training

Provide the following information about your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare general education teachers to:

- **teach students with disabilities effectively**
Yes
- **participate as a member of individualized education program teams**
Yes
- **teach students who are limited English proficient effectively**
Yes

Provide a description of the evidence your program uses to show that it prepares general education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

•General Education Candidates and Students with Disabilities: All teacher candidates take Psychology and Education of the Exceptional Child (EX390) in which the 14 disability areas are studied. Students adapt lesson plans under the direction of an instructor trained in special education and learn about Individualized Education Programs (IEPs). Another focus of the course is the appropriate collaboration between professionals, community organizations, and families in order to serve the needs of students with exceptional learning needs. In addition, differentiating instruction for students with special needs--including those encompassed by the parameters of special education--is addressed in Diversity in American Schools (EL 274 or SE 275, depending upon the students major) and in Theories of Learning and Management (EL 315 or SE 306, depending upon the students major).

•General Education Candidates and Limited English Proficient students: Meeting the needs of LEP students is addressed in Diversity in American Schools (EL 274 or SE 275). Early Childhood majors complete coursework specifically focused on working with LEP students in Language Development and the Young Child (CE370). Elementary Education majors and Middle/Secondary Education majors address LEP learners in courses focused on teaching reading: Corrective Reading Instruction (EL354) and Teaching Reading in the Secondary School (SE307), respectively. In addition, teacher education faculty members work with the Regional Professional Development Center (RPDC) to provide LEP-related workshops and training for teacher candidates and university faculty.

Does your program prepare special education teachers to:

- **teach students with disabilities effectively**
Yes
- **participate as a member of individualized education program teams**
Yes
- **teach students who are limited English proficient effectively**
Yes

Provide a description of the evidence your program uses to show that it prepares special education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

•Special Education Teachers and Learners with Special Needs: Teacher candidates preparing to become special education teachers complete coursework and participate in field based experiences that will prepare them to work, specifically, with students with special needs. Teacher candidates complete exceptional child and elementary coursework during their programs and work collaboratively with other teacher candidates preparing to become general education teachers. During the Block II experience (Reading and Language Arts with extensive field experience) teacher candidates become familiar with language diversity and working with diverse families in Language Development of the Exceptional Child (EX 302). Exceptional Child majors also take Parents and the Exceptional Child (EX307). A block experience unique to Exceptional Child majors (Exceptional Child Block) is completed before the student teaching semester. This block experience consists of:

oEX 304 Behavior Management

oEX 305 Teaching Strategies & Career Awareness for Mildly Handicapped Adolescents

oEX 312 Diagnosis and Remediation of Learning Disabilities in Math

oEX 317 Assessment & Techniques of Teaching the Exceptional Child

oEX 309 Exceptional Child Field Experience (90 hours of faculty directed field experience).

oTeacher candidates in the Exceptional Child major complete an additional TWS in Block IIIa.

oIndividualized Education Program components (IEPs) are a part of all exceptional child coursework, however, students are

guided through and assessed on using data to write a formal IEP during Assessment & Techniques of

Teaching the Exceptional Child (EX317).

•Special Education Candidates and Limited English Proficient Students: Meeting the needs of LEP students is addressed in Diversity in American Schools (EL 274 or SE 275). Exceptional Child majors complete coursework specifically focused on working with LEP students in Language Development of the Exceptional Child (EX302). In addition, teacher education faculty members work with the Regional Professional Development Center (RPDC) to provide LEP-related workshops and training for teacher candidates and university faculty.

Section VII Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card. The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Candidates in initial teacher preparation programs at Southeast Missouri State University receive strong content preparation in programs that meet the standards of Specialized Professional Associations (SPAs) and the Missouri Department of Secondary and Elementary Education (DESE) General Standards for the Preparation of Professional Educators. Nine of our teacher preparation programs are nationally recognized for excellence by their SPAs. Three of those programs, Elementary, Early and Social Studies Education were afforded special recognition and are being used as national models by the professional associations. Additional teacher education programs in Art, Agriculture, Business, Family and Consumer Science, Foreign Language, Industrial Arts and Music Education, do not qualify for SPA approval but are fully aligned with Missouri Subject Specific Competencies and the standards of the College of Education. Because our programs are so tightly aligned with national, state and university standards we are confident that our teacher candidates are prepared to meet the needs of learners in P-12 settings.
