Future Triad Dates for Student Teaching

Triad Dates for Student Teaching

Students must complete the Triad meeting (the university supervisor, the mentor teacher, and the student) **PRIOR** to beginning the student teaching experience. In Student Teaching students will follow the assigned school district's schedule. Triad dates have been set in advance to provide plenty of opportunities to avoid conflicts. Triads are usually held in Cape, Sikeston, and St. Louis. Times and places are not set as we are unable to secure rooms in advance.

Fall 2024

Courtesy Placements

In general, all students will be expected to do student teaching in Southeast Missouri or in sites within reasonable driving distance for university supervisors. However, in hardship situations, candidates may be considered for an out-of-region placement. There is an additional cost of **\$1,800** to cover the cost of hiring additional supervisors, their travel expenses, and other administrative fees. (Field Committee Approval 10/1/21).

Students who wish to be considered for placement outside the area must fill out a request form provided by the Field Experiences Office in Scully 308 within two (2) weeks of the semester's start immediately before the student teaching semester.

Students will be considered for teaching outside the university service area if:

- a. The candidate is married before the student teaching semester begins and the spouse must live outside the area for employment or military commitment.
- b. A hardship exists due to a serious, long-term illness of a member of the immediate family which would require the candidate to relocate immediately.
- c. Another documented situation exists as determined by the Director of Field Experiences.

If a candidate is deemed to qualify under the above terms, the Field Experiences Office must have assurance that another university in the requested area will be willing to place and supervise the student in a manner which meets Southeast Missouri State University's requirements. If the university providing the supervision is not accredited, the placement may be denied.

The Director of Field Experiences will determine if a candidate meets the requirements for student teaching outside the region and may present the request to the Field Committee. Exceptions or appeals can be made to a committee made up of the Director of Field Experiences and the Chairs of the Department of Middle and Secondary Education and the Department of Elementary, Early, and Special Education. Students must be able to ensure that the need is valid and that all requirements are met. The committee will not rule on other issues of placement not covered under those regulations.

Approved students must pay a non-refundable fee of **\$1800.00** to the Office of Field Experiences to cover costs related to the additional time related to coordinating out-of-area placements. The Field and Clinical Experiences Office will begin the placement process on the candidate's behalf once this fee is received.

Additionally, any fees over and above the normal amounts that would be paid on the candidate's behalf for an in-area placement for MT stipends, field supervisor salaries, and mileage reimbursement for these personnel will be the responsibility of the teacher candidate. Any additional fees related to the placement will follow the mentor district's refund policy if the placement is canceled.

All formative, summative and disposition MEES forms used by the College of Education must be used by the MT and courtesy supervisor. In addition, the same criteria to serve as MTs and supervisors that are required by Southeast Missouri State University will be met.
