Candidate Status & Certification

Changes in Illinois Educator Licensure (Initial Certification)

All educators are now required to pass the Illinois content test prior to receiving the professional educator license (PEL), including educators who are pursuing the reciprocity route to licensure. The Illinois State Board of Education will begin incorporating the four topics required for initial licensure (Methods of Teaching Special Education, Methods of Teaching Reading, Reading in the Content Area, and Methods of Teaching English Learners) into a test that will be required as part of initial licensure. This will go into effect on **January 1, 2026**. For more information, please stop by the Office of Educator Preparation.

Field Experiences Office

Student Entering Student Teaching in the Next Semester

With the extreme teacher shortage, many students are applying for jobs prior to student teaching. Please understand that all requirements for the student teaching placement remain in effect. (Student Teaching MAP, certification requirements, etc. as per the handbook). If a district contacts a student regarding employment, please notify the Field Office before interviewing for a position. There are many pieces that must be in place for the student to qualify for certification at the end of their culminating experience. The Field Office needs to ensure that all requirements are met before a student signs a contract.

Triad Information

Triad attendance is mandatory and must be attended at the beginning of the semester of student teaching. Students must complete the Triad meeting (the university supervisor, the mentor teacher, and the student) PRIOR to beginning the student teaching experience. In Student Teaching, students will follow the assigned school district's schedule. Triad dates have been set in advance to provide plenty of opportunities to avoid conflicts. Triads are usually held in Cape, Sikeston, and St. Louis. Times and places are not set as we are unable to secure rooms in advance.
