(Spring 2023, Fall 2023, Fall 2024, Spring 2025, Fall 2025)

Professional Development

Missouri Youth Mental Health First Aid

Teaching Experience

Advanced Field Experience

Fall 2025

Jackson High School

Cooperating Teacher: Timothy Stroder

- Collaborated with cooperating teacher by assisting student problems, and with student assessment.
- Used data and observations to differentiate instruction and help structure my lessons in a way the benefits various student learning styles.
- Used NGSS (Next Generation Science Standards) in lesson planning for 10-12 grade chemistry students.

Intermediate Field Experience

Spring 2025

Sikeston High School

Cooperating Teacher: Justin Cox

- Used Missouri learning standards in lesson planning for 10-11 grade chemistry students and then presented it to them.
- Observed and listened to feedback on classroom management and implemented it.
- Used data and observations to differentiate instruction and help structure my lessons in a way that helps the students learning styles.
- Checked students understanding and increased student engagement with student assessment of the topic and used formative assessments while teaching.

Intro to Education as a Profession

Spring 2023

The University School for Young Children

- Developed activities for the students to do and demonstrate their critical thinking
- Student feedback and formative assessments are used to make observations while they are working
- Used classroom management and problem-solving skills to help students when they were misusing provided resources
