Previous Graduate Research Projects

GR Class of 2017

- Effects of Constraint-Induced Auditory Therapy on Auditory Comprehension in Aphasia
- Response to LSVT Loud and Maintenance Services for Parkinson’s Disease
- Effects of Kangaroo Mother Care on Mother-Infant Interaction: Infant Behaviors
- Does Animal Assisted Therapy Improve Motivation and Language Skills in Children?
- Auditory Comprehension Changes in Wernicke’s Aphasia After Constraint Induced Auditory Therapy
- Effects of Kangaroo Mother Care on Mother-Infant Interaction: Maternal Behaviors
- Study of Public Awareness of Speech-Language Pathology Services in Joyabaj, Guatemala
- Speech Language Pathologists and Classroom Teachers’ Perceptions of Classroom-Based Intervention Models: A Survey
- How School Based Speech-Language Pathologists Utilize Classroom-Based Interventions: A Survey
- Comparison of Prosodic Characteristics Before and After Induced Tongue Fatigue in Dysarthria
- Effect of Treatment Frequency on the Efficacy of Memory Treatment and Quality of Life
- Does School Based Animal Assisted Therapy (AAT) Benefit Language Skills?
- Job Satisfaction and Age in Practicing Speech-Language Pathologists: A Correlational Study
- Treating Broca’s Aphasia and Apraxia of Speech Using Prompt Techniques
- A Study of Public Awareness of Speech-Language Pathology Services in Guatemala
- The Effects of Social Stories on Behavioral Skills in Children with Autism

GR Class of 2016

- Comparing Listener Motivation between iPad and Audiometer Based Hearing Screenings
- Consequences of Mild Cognitive Impairment on Quality of Life
- Comparing Validity and Accuracy Between iPad and Audiometer based Hearing Screenings
- The Effects of Cognition on Health Literacy and Nutritional Intake in Older Adults
- Cognition and Activities of Daily Living in Older Adults
- Effects of Cognition on Quality of Life in Older Adults
- Mild Cognitive Deficits and Quality of Life in Older Adults
- The Variability of Natural Thickness of Commercially Available Infant Formula
- Mild Cognitive Impairment and Perception of Social Support in Older Adults
- Life Participation Approach to Aphasia and Communication Disorders Students: A Study
- Cognition and Activities of Daily Living in Older Adults
- Mild Cognitive Impairment and Perception of Social Support in Older Adults
- Food Selectivity in Children with Autism Spectrum Disorders
