Section 1: Getting Started

Admissions Criteria

Master of Arts in Teaching (MAT)

Southeast Missouri State University Online offers numerous graduate programs at the master’s level. The Master of Arts in Teaching (MAT) is designed for individuals who do not have prior teaching experience or an education degree. This program is for students interested in earning their teaching licensure in the following areas: Early Childhood Special Education (Birth – 3rd Grade) and Mild Moderate Cross Categorical (K – 12). To be admitted to the MAT programs in the Graduate School, you must have:

Admission Criteria

Full Admission:

- 2.75 Cumulative Undergraduate GPA
- Pre-Requisite Courses:
  - PY/CF 120 The Child or PY 222 Adolescent Development or PY 521 Advanced Child Development (or equivalent course)
  - EX 390 Psychology of the Exceptional Child or EX 635 Psychology of the Exceptional Child (or equivalent course)

Provisional Admission:

- 2.75 Cumulative Undergraduate GPA
- Pre-Requisite Courses completed within one year of provisional admission:
  - PY/CF 120 The Child or PY 521 Advanced Child Development (or equivalent course)
  - EX 390 Psychology of the Exceptional Child or EX 635 Psychology of the Exceptional Child (or equivalent course)

Application to the Graduate School

Prospective students should apply for admission to the Graduate School. The Graduate School Admission Office will work with the Dept. of Elementary, Early and Special Education to determine whether an applicant has full admission, provisional admission or is denied admission.

Full admission: Undergraduate GPA and Pre-requisite course requirements met

Provisional Status: Undergraduate GPA requirement met, Pre-requisite course requirements not fully met

Denial of Admission: Undergraduate GPA requirement not met

Provisional admission: The program admission process must be completed within one calendar year. Failure to meet the requirements for full admission will result in reclassification as a non-degree student.
Reinstatement to degree-seeking status will require a new application for admission. Courses taken prior to full admission may not necessarily be accepted toward meeting degree requirements.

Applications for a graduate program in the Department of Elementary, Early and Special Education may be completed online at the Graduate School website:

http://www.semo.edu/gradschool/index.htm

A non-refundable application fee is required with the application. The following documentation will need to be submitted to the Office of Admissions to provide verification of pre-requisites:

- **Undergraduate GPA**: Southeast Missouri State University alumni do not need to submit a transcript for documentation of the undergraduate GPA and degree. Non-Southeast Missouri State University graduates will need to submit an official transcript to the Admissions Office to document degree and GPA.

- **Pre-Requisite Courses**: Southeast Missouri State University alumni do not need to submit a transcript for documentation of successful completion of pre-requisite courses. Non-Southeast Missouri State University graduates will need to submit an official transcript verifying successful completion of pre-requisite courses to the Admissions Office.

The mailing address for the Admissions office is:

Southeast Missouri State University  
Office of Admissions, MS 3550  
One University Plaza  
Cape Girardeau, MO 63701-4799

International students should contact the Graduate School for application information.

Application deadlines for each semester are as follows:

- **Fall Semester** - **August 1**
- **Spring Semester** - **November 21**
- **Summer Semester** - **May 15**

**General University Graduate School Policies**

- All requirements for the master's degree must be completed within a six-year period.
- One half of the hours required for the degree must be in courses numbered 600 or above and taken from Southeast Missouri State University. Workshop credit may not be used to fulfill this requirement.
- Dual-enrollment courses cannot be repeated for graduate credit if they appear on the student's undergraduate transcript.
- No coursework, including 500-level courses, applied to the undergraduate degree can count toward a graduate degree except those 500-level courses taken in approved accelerated degree programs.
• Students taking credit/no-credit courses must demonstrate "B" level work to receive "credit" for a graduate course.
• For each master's degree program, the student must produce a significant capstone work (e.g., thesis, non-thesis paper, internship paper, or creative work).

Financial Aid

For information about Financial Aid for your Graduate Program studies, contact the Student Financial Services office at (573) 651-2253 or visit their website:

http://www.semo.edu/sfs/financialaid/index.htm

The University participates in both the National Direct Student Loan and Guaranteed Student Loan funds. Note that there may be special grants / scholarships available for graduate students seeking certification in high need areas such as special education, science, or math. In particular, the TEACH grant can provide funds for students seeking the Master of Arts in Teaching in Exceptional Child Education. Information about this grant programs is at: http://www.semo.edu/sfs/financialaid/fed_grants.html

Admission to the Teacher Preparation Program

Graduate students who have been fully admitted to the Master of Arts in Teaching program should apply to Teacher Preparation Program. This should be done in the first semester of course work after being fully admitted to the MAT degree program. Students may apply for the Teacher Preparation program here. (Note: MAT students are not required to pass the MoGEA test for admission to the Teacher Preparation Program.)

Choosing an Area of Study: Programs and Teaching Certificates

There are two emphasis areas within the Master of Arts Teaching

<table>
<thead>
<tr>
<th>Master of Arts in Teaching</th>
<th>Emphasis Area</th>
</tr>
</thead>
<tbody>
<tr>
<td>Master of Arts in Teaching (MAT)</td>
<td>Mild/Moderate Cross Categorical K-12</td>
</tr>
<tr>
<td>Master of Arts in Teaching (MAT)</td>
<td>Early Childhood Special Education Birth through 3rd Grade</td>
</tr>
</tbody>
</table>

Both emphasis areas are 53 credit hours in this degree, which must be completed within a 6 year time frame.

Graduate Program Advising

Upon acceptance into the Elementary, Early, or Special Education Graduate Program, you will be assigned a graduate advisor. You will be notified by email from the Department of the name and contact Revised Fall 2020
information of your graduate advisor. You should contact your graduate advisor soon after being accepted to begin planning your course of study. Your graduate advisor will be your primary mentor as you work through the pathway to graduation. Your graduate advisor will also likely serve as your Action Research Project (Capstone Requirement) advisor. Please contact your advisor each semester to determine the courses you should take, as well as whenever problems or questions arise.

**Chalk and Wire Assessment System**

Graduate students in the Master of Arts in Teaching program are required to purchase a Chalk and Wire license within the first few weeks of their first semester in program courses. These may be purchased from the Southeast Bookstore. Candidates’ assessment information will be stored here, and a license must be maintained until graduation. Additional information about Chalk & Wire can be found below.

**Graduation and Certification Requirements**

The student must attain a 2.75 cumulative GPA and a 3.0 GPA in professional education courses for graduation and certification.
Section 2: Elementary, Early, and Special Education Exceptional Child Graduate Programs and Course Requirements

Overview of Graduate Program:
MASTER OF ARTS IN TEACHING (MAT)

The Master of Arts in Teaching (MAT) is designed for individuals who do not have prior teaching experience or undergraduate degree in education. This program is for students interested in earning their teaching licensure in the following areas: Early Childhood Special Education (Birth – 3rd Grade) or Mild Moderate Cross Categorical (K – 12). This online program is 53 credit hours.

Mild Moderate Cross Categorical Emphasis

Required Courses: (All courses 3 credit hours, except where noted)

- EX 618 Intro to Children with Exceptionalities (2 cr. hr)
- EX 619 Intro. to Mild Moderate Cross Categorical Internship (1 cr. hr.)
- EL 629 Integrating Children's Literature Across the Curriculum
- EL 606 Curriculum Construction in a Multicultural Society
- EL 644 Understanding & Applying the Multi-dimensional Processes of Reading
- SE 602 Effective Literacy Instruction at the Middle and Secondary Levels
- EX 507 Families and the Child with Exceptionalities
- EX 601 Educational Assessment
- EX 652 Techniques of Teaching Mild Moderate Cross Categorical
- EL 647 Reading Assessment
- EL 608 Diagnosis and Remediation of Difficulties in Learning Mathematics
- EX 621 Behavior Intervention Strategies (2 cr. hr.)
- EX 622 Behavior Intervention Strategies Internship (1 cr. hr.)
- EX 602 Language Acquisition of Children with Exceptionalities
- EX 691 Transition Planning for Individuals with Exceptional Learning Needs
- EX 693 Special Education and the Law
- EX 696 Exceptional Child Education Advanced Internship (8 cr. hr.)
- EL 615 Action Research
- GR 698 Masters’ Final Comprehensive Exam (0 cr. hr.)

Certification requirements:

- Passing score on MO Content Exam – 050 Mild/Moderate Cross Categorical Special Education Grades K-12 (Must be completed prior to EX 696 Advanced Internship)
- Passing score on Missouri Educator Evaluation System (MEES) completed in EX 696 Advanced Internship
- 2.75 Cumulative GPA, 3.0 GPA in professional education courses

**Suggested Sequence of Mild/Moderate Courses**

A proper sequence of courses provides you the learner, with a pattern of relationships presented over a number of courses, providing meaningful content and making learning easier. Course content in the program is interrelated; some courses build on one another fostering success throughout the curriculum. Recommendation of course sequence is also based on course rotation. The sequence below would be a recommendation, depending upon whether you start in the fall, spring, or summer semesters, taking 3-9 hours per semester. Your advisor can help customize a course sequence plan for you.

### Beginning Fall Semester: 7 semesters*

*These programs may be completed at any pace. The Graduate School requires that all Masters degrees be completed within 6 years.
Transfer Courses

No more than 9 hours of transfer credit may be applied to your graduate program. **Your advisor must approve any courses for transfer credit, and you should obtain approval from your advising before enrolling in a course at another institution.** You must earn a “B” or better in any courses transferred, and courses may not be more than six years from anticipated graduation date. Courses from a non-NCATE accredited institution will not be accepted.

**DegreeWorks**

You can monitor your progress in course work and completion of your program through DegreeWorks, which you access through the portal using your SEKey. Contact your advisor for help with using DegreeWorks.
Section 3: Internship/Field Experiences Requirements

Candidates will be placed in school districts and with cooperating teachers where we can be confident that candidates will receive proper mentoring and supervision. A placement may be made in a district in which a candidate is employed. However, candidates may also not complete internship/field experience hours during employment hours, including while serving as a substitute teacher for the district. Teacher candidates must work under the supervision of a qualified mentor teacher. Teacher candidates also may not complete more than one field experience in the same classroom setting. All efforts will be made to keep commuting time for an internship/field experience to a minimum and satisfy Southeast Missouri State University and Missouri Department of Elementary and Secondary Education certification requirements.

When making requests keep in mind the following requirements.

**MAT Candidates must complete three levels of internships.**

1. **Early Field Experiences:** one (1) semester hour with a minimum of 37.5 clock hours in a school setting. This limited field experience includes placements in which candidates observe students, support teachers, and respond to specific class assignments. The candidate may work with students individually and/or in small groups as requested and under the supervision of the classroom teacher. You will do this field experience in EX 619 (1 cr.). Related assignments will be done in the co-requisite class, EX 618.

2. **Mid-Level Experiences:** one (1) semester hour with a minimum 37.5 clock hours in a school setting. At the midlevel, candidates continue to observe; respond to specific class assignments; and work with students individually, in small groups, and in whole class settings as requested and under the supervision of the classroom teacher. You will do this in EX 622 (1 cr.). Related assignments will be done in the co-requisite class, EX 621.

3. **Culminating Clinical Experiences** (eight (8) semester hours with a minimum of 12 weeks (full-time) in one placement. The culminating experience refers to placements typically in the final sequence leading up to and including student teaching. Candidates actively participate and complete required assignments, work with students as requested and under the supervision of the classroom teacher, and have the opportunity and responsibility to lead the class over an extended period of time. An action research project will be finalized during this field experience and presented to a faculty committee to satisfy the GR 698 degree requirement.

**MAT Internships are specific according to majors:**

**Early Childhood Special Education certification:** Teacher candidates are required to complete field and clinical experiences with three different age levels:

- Infant/Toddler (Birth – 36 months)
- Pre-K/Kindergarten (3 – 5 yr.)
- Kindergarten – Grade 3

Candidates should choose the age levels for each field experience (EX 619, EX 622, EX 696) at the beginning of the program to insure all three age levels are completed. It is recommended that teacher candidates do the culminating clinical experience (EX 696) with the age level in
which they hope to teach. The infant/toddler field experience may be done in multiple settings, working with an early interventionist.

**Mild Moderate Cross Categorical certification:** Teacher candidates are required to complete field and clinical experience with two different age levels:

- Elementary K – 6 gr.
- Middle/Secondary 7 – 12 gr.

Candidates should choose the age levels for each field experience (EX 619, EX 622, EX 696) at the beginning of the program to insure both age levels are completed. It is recommended that teacher candidates do the culminating clinical experience (EX 696) with the age level in which they hope to teach.

**MAT Internships Placements**

Teacher candidates should work with their EX 619 and EX 622 instructors to have an appropriate placement for the early and mid-level field experiences. The Internship Information Form in Appendix E and the Internship Hours Form in Appendix F should be submitted to the course instructor for documentation that the certification requirements for early and mid-level field experiences was completed.

Teacher candidates should complete the Student Teaching online application for the culminating EX 696 Advanced Internship, which may be found on the Field Experience Office’s website:

https://semo.edu/education-health/edu-prep/studentteach/apply.html. It is important that teacher candidates note the timeline for this application, as it is due one semester prior to the EX 696 internship.

**Internships/Field Placement Background Check Requirement:**

1. In order to participate in any field experience/internship, you must provide evidence of having had a fingerprint background check completed within one year of the anticipated completion date of the internship.

   A. You can provide evidence of having a valid background check by doing one of the following:

   - Option 1: Complete a background check for Southeast Missouri State University by following the directions at https://semo.edu/education-health/edu-prep/backgroundcheck.html.
   - Option 2: Fulltime public school employees (teacher aides, paraeducators or teachers working on a temporary) provide verification of a completed background check that meets the needs of the district to Alicia Lincoln, certification officers (csco@semo.edu).
## MAT INTERNSHIPS

### Summary

<table>
<thead>
<tr>
<th>COURSE</th>
<th>CREDIT</th>
<th>MINIMUM REQUIREMENTS</th>
<th>HOURS</th>
</tr>
</thead>
</table>
| Early Field Experiences: EX 619  
Introduction to Mild Moderate Cross Categorical Internship | 1 | This limited field experience includes placements in which candidates observe students, support teachers, and respond to specific class assignments. The candidate may work with students individually and/or in small groups as requested and under the supervision of the classroom teacher. If you are currently employed with a school district as a paraprofessional or teacher in an eligible classroom, your current classroom can be used as your placement. However, you may not use your current classroom for all of your placements and need to consider the age/grade level requirements for your program when choosing where to do each of your field placements. | 37.5 |
| | | If you are not currently employed with a school district as a paraprofessional or teacher in an eligible classroom, you are required to contact the Director of Field Experiences to initiate the process of obtaining a placement for the Early Field Experience. Contact should be made at the beginning of the semester in which you are enrolled in EX 619. Your instructor can assist in helping you determine the appropriate placement for your certification requirements. | |

17
| Mid-Level Experiences: EX 622 Classroom and Behavior Management Internship | 1 | The mid-level experience occurs between the initial placement and the culminating clinical experiences. At the midlevel, candidates continue to observe; respond to specific class assignments; and work with students individually, in small groups, and in whole class settings as requested and under the supervision of the classroom teacher.

If you are currently employed with a school district as a paraprofessional or teacher in an eligible classroom, your current classroom can be used as your placement. However, you may not use your current classroom for all of your placements and need to consider the age/grade level requirements for your program when choosing where to do each of your field placements.

Early Childhood Special Education must have field experiences with infant/toddler, Pre-K, and K – 3 throughout the program.

Mild Moderate/Cross Categorical must have field experiences with K – 6 and 7 – 12 throughout the program.

If you are not currently employed with a school district as a paraprofessional or teacher in an eligible classroom, you are required to contact the Director of Field Experiences to initiate the process of obtaining a placement for the Mid-Level Field Experience. Contact should be made at the beginning of the semester in which you are enrolled in EX 619. Your instructor can assist in helping you determine the appropriate placement for your certification requirements. | 37.5 |

<tbody>
<tr>
<td>Culminating Clinical Experiences (eight (8) semester hours with a minimum of twelve (12) weeks in one (1) placement). The culminating experience refers to placements typically in the final sequence leading up to and including student teaching. Candidates actively participate and complete required assignments, work with students as requested and under the supervision of the classroom teacher, and have the opportunity and responsibility to lead the class over an extended period of time.</td>
<td>If you are currently employed with a school district as a paraprofessional or teacher in an eligible classroom, your current classroom can be used as your placement (if it has not been used for previous field experiences). You are required to contact the Candidate Status and Certification Office to confirm your placement for the EX 696 Culminating Field Experience. See the Section, Enrolling in Culminating Clinical Experience for specific instructions. Early Childhood Special Education: Age level placement must be in the age levels not previously used in EX 619 and EX 622 field experiences (Infant/toddler, Pre-K, K - 3). Mild Moderate Cross Categorical: Age level placement must be in an age level not previously used in EX 619 and EX 622 if the same age levels (Elementary or Secondary) were used in both of those.</td>
<td></td>
</tr>
</tbody>
</table>

To earn full credit for EX 619 or EX 622 internship, the teacher candidate/graduate student should complete MA/MAT EX 619/EX622 INTERNSHIP CLOCK HOURS (Appendix F) to document hours earned. Once the terms of the internship are determined, the practicum student should TYPE the document and provide the cooperating teacher with a completed copy and a SIGNED version should be submitted to the course instructor.

**Applying for EX 696 Advanced Field Experience/Culminating Clinical Experiences:**

EX 696 is the culminating field experience/internship for the MAT program. EX 696 is a full-time, school-district semester assignment that places teacher candidates under the guidance of an
experienced, qualified cooperating teacher. Southeast MO State University uses the co-teaching model for field experiences, and teacher candidates should collaborate with their cooperating teacher throughout the semester. The student teaching experience will be a combination of co-planning/teaching and solo planning/teaching. The process of gradually releasing responsibility for the classroom to a student teacher is highly supported by the cooperating teacher and university supervisor. It is also uniquely tailored to each student teacher’s strengths and areas of growth.

All program course work must be completed prior to participating in the culminating field experience/internship. The required MO Content Assessment must be successfully completed prior to the EX 696 semester. EX 696 is taken the last semester of the program, and teacher candidates should also enroll in GR 698 in the last semester of course work.

Specific steps for applying for EX 696 Advanced Field/Culminating Clinical Experiences MUST BE INITIATED THE SEMESTER PRIOR TO ENROLLING INTO EX 696. The Candidate Status and Certification Officer will then monitor your progress in the application process and procure/approve your Advanced Field/Culminating Clinical Experience placement. You will need to access the links to initiate this process at https://semo.edu/education-health/edu-prep/studentteach/apply.html. Failure to initiate this process in a timely manner or fully complete each step could result in not being eligible for EX 696 Advanced Field/Culminating Clinical Experiences in the semester desired.

**Chalk and Wire Data Collection System**

All students in programs leading to certification or licensure are required to purchase a Chalk & Wire license within the first month of the semester that EX 619 is taken. Once purchased, you will need to register your account. This program will allow you to access assessment data as you progress through your program, provide the documentation needed for your certification, as well as allow the Educator Preparation Program gather data needed for program approval and accreditation. Field experience evaluations will be done in Chalk and Wire. Licenses should be purchased through the University Bookstore. The length of license needed is based upon the program (typically 2-3 years):

**Note:** If you have previously had a Chalk & Wire account, you must inform the bookstore that you need a renewal license.

Information on how to register your account, as well as other useful Chalk and Wire resources can be found at: [https://semo.edu/education-health/edu-prep/chalk-wire.html](https://semo.edu/education-health/edu-prep/chalk-wire.html)
Southeast Missouri State University  
Policy for Teacher candidate Field Experience  
Remediation//Removal

A teacher candidate must demonstrate the highest professional standards when placed in a field experience. This expectation is indicated by the school's acceptance of a teacher candidate representing Southeast Missouri State University. The teacher candidate is expected to conform to established university and school policies, to insure student safety and well-being, and to exhibit professional educational practices. When it appears that a candidate is seriously deficient in meeting these expectations, a request may be made by the cooperating school or by the university to remove the teacher candidate from the field experience assignment.

In certain situations, a teacher candidate may need to be remediated, or removed from field experiences. Each decision will be on an individual basis. Reasons for remediation or removal from field experiences may include, but are not limited to, the following

- the student teacher violates University policies concerning the Student Code of Conduct or teacher preparation program OR
- the student teacher violates policies of the participating school or school board
- the teacher candidate demonstrate significant disposition concerns OR
- the performance and/or actions of the student teacher are detrimental to the welfare of the pupils as agreed upon by the supervising teacher, principal, university coordinator and director of student teaching.

REMEDIATION

1. A plan of assistance meeting will be held with the Teacher candidate, Chair of the Department, and University Supervisor. If deemed necessary the Associate Dean for Educator Preparation, Cooperating Teacher and site principal will be notified and may be asked to attend. Teacher candidates may attend via Zoom, if not in the local area. Remediation, reassignment, or removal will be discussed.

2. The Plan of Assistance will be prepared by the University Supervisor in conjunction with the teacher candidate. This plan will state the areas of concern, action (recommendations for remediation), resources needed to support the teacher candidate, how progress will be measured, and date to review progress/outcome. (See Improvement of Disposition Plan). The Teacher candidate and University Supervisor must sign and date the plan. Copies of all evaluations, Teacher Performance Assessments, weekly block plans, competency logs, lesson plans or any pertinent paperwork are attached to the report.

3. The University Supervisor will document the Teacher candidate’s progress toward identified area(s) of concern. The University Supervisor will conduct a weekly formal observation or check-ins. A conference to review progress will be conducted, as stipulated in the Plan of Assistance.

4. The final responsibility for the assignment of a course grade lies with the University Supervisor.
5. This process will not be extended beyond the term of Southeast Missouri State University semester.

6. Required documentation includes: Disposition Assessment; final Improvement of Disposition Plan and copy of Formative Field Experience Evaluations.

One important goal of the Teacher Education Programs is to ensure and maintain the Teacher Preparation Program standards. The following standards must be met by all candidates in the Teacher Education programs in order for candidates to continue:

1. Maintain a GPA of 2.75 or higher.

2. Completion of all Teacher Education courses with a grade of C or better.

3. Maintain a University Supervisor’s Formative Field Experience Disposition average score of 3.0 or higher.

4. Maintain a University Supervisor’s Formative Field Experience Disposition score on criteria of concern of 3.0 or higher.

5. Maintain the following required Formative Field Experience Evaluations rating:
   - **EX 619 Internship/Field** – must maintain an average rating of 2.0 or above
   - **EX 622 Internship/Field** – must maintain an average rating of 2.5 or above
   - **Advanced Field/ Ped III Field** – must maintain an average rating of a 3.0 or above

6. Meet the Improvement of Dispositions Plan, if developed and implemented.

7. Adhere to the Code of Ethics of the Professional Standards and Ethics.

8. At the end of the remediation semester, if a candidate does not meet the requirements the following options can be considered
   - Those students who are making progress toward meeting the Improvement of Dispositions Plan but have not yet met the plan’s criteria can be consider for continuation of remediation.
   - Those students who are not making progress toward meeting the Improvement of Dispositions Plan may be considered for reassignment or removal from the Teacher Education Program(s).

9. Any teacher candidate who successfully completes their first IDP and receives additional IDPs (field experience or teacher preparation coursework), will meet with the University Supervisor, Academic Advisor, Department Chair and any other relevant personnel to consider remediation/removal.
10. Required documentation includes:
   • Required documentation includes:
   • Formative Field Experience Dispositions;
   • Culminating Field Experience Dispositions;
   • All Improvement Disposition Plans,
   • Teacher candidate Remediation/Reassignment/Removal Form;
   • Cooperating Teacher/School Correspondence;
   • Formative Field Experience Evaluations

REMOVAL

1. If a Teacher candidate is asked by school site personnel to be removed from his/her classroom placement and or school site, the teacher candidate will immediately stop all contact with anyone at the school site. A joint conference will be held with University Supervisor, Cooperating Teacher, site principal, and the Director of Field Experiences. The Department Chair and the Associate Dean for Educator Preparation may also be included.

2. A Removal meeting will be held on the University Campus or Cooperating School Campus. It can include any of the following relevant personnel: Teacher candidate, Cooperating Teacher, University Field Experience Supervisor, Director of Field Experiences, Department Chair, Academic Advisor, Associate Dean, and the site principal. The teacher candidate may attend via Zoom if not in the local area.

3. A Removal Form will be prepared by the University Supervisor, in consultation with the Department Chair and Associate Dean for Educator Preparation. This form will state the reasons for removal, including supporting documents.

4. Removal (With Opportunity for Reentry). The Teacher Preparation Program reserves the right to remove a candidate from her/his placement due to:
   • the student teacher violates University policies concerning the Student Code of Conduct or teacher preparation program OR
   • the student teacher violates policies of the participating school or school board
   • the teacher candidate demonstrates significant disposition concerns OR
   • the performance and/or actions of the student teacher are detrimental to the welfare of the pupils as agreed upon by the supervising teacher, principal, university coordinator and director of student teaching.

The timeline and expectations for reentry to student teaching will vary based on the conditions and circumstances for removal. Teacher candidates are responsible for consulting with the Office of Field Experiences to determine reentry timeline and possible next steps for reentry.

Failure to successfully complete the requirements during the second placement will be grounds for dismissal from student teaching with no opportunity for reentry. Teacher candidates who are removed from a placement in advance of the semester refund deadlines may be eligible for full or
partial tuition refunds. Responsibility lies with the teacher candidate to contact the Registrar’s Office to monitor deadlines and requirements for full or partial refund of tuition.

5. **Removal (Without the Opportunity for Reentry).** The Teacher Preparation Program reserves the right to remove a candidate from her/his placement due to:

- the student teacher violates University policies concerning the or teacher preparation program OR
- the student teacher violates policies of the participating school or school board
- the teacher candidate demonstrates significant disposition concerns OR
- the performance and/or actions of the student teacher are detrimental to the welfare of the pupils as agreed upon by the supervising teacher, principal, university coordinator and director of student teaching.

Candidates removed permanently from the TPP will not be permitted to pursue teaching licensure through Southeast Missouri State University.

Teacher candidates removed from student teaching (with no opportunity for reentry) will be notified in the most expedient way possible under the individual circumstances. Candidates may be notified in person, by phone, call, by email and/or by letter to their permanent address.

Teacher candidates may appeal the decision to Southeast Missouri State University Student Appeals Committee. The appeals process can be located at: [SOUTHEAST MISSOURI STATE UNIVERSITY STATEMENT OF STUDENT RIGHTS AND CODE OF STUDENT CONDUCT](#)

Any teacher candidate who is asked to leave a field or clinical experience by a partner school district before the end of the semester, due to performance or dispositional issues, will not be given a new placement for that semester. The teacher candidate will also receive a failing grade for the field experience course. The teacher candidate must repeat the field or clinical course, and if a grade of C or higher is not received in the second attempt, the teacher candidate will be removed from the Teacher Preparation program. This policy does not pertain to any teacher candidate whose field placement termination is due to circumstances unrelated to teaching performance or dispositions, such as a cooperating teacher illness.

**Required documentation includes:**

- Formative Field Experience Dispositions;
- Culminating Field Experience Dispositions;
- All Improvement Disposition Plans,
- Teacher candidate Remediation/Reassignment/Removal Form;
- Cooperating Teacher/School Correspondence;
- Formative Field Experience Evaluations
**RECORD KEEPING**

**Forms:** All completed forms relating to the remediation, reassignment or removal of a teacher candidate from any and all field experiences shall be kept. These forms include but are not limited to:

- Formative Field Experience Dispositions;
- Culminating Field Experience Dispositions;
- Improvement Disposition Plans,
- Teacher candidate Remediation/Reassignment/Removal Form;
- Cooperating Teacher/School Correspondence;
- Formative Field Experience Evaluations

**Record Access:** Relevant University Personnel will have access to teacher candidate files on a need to know basis. Relevant person(s) would be any University Personnel who is involved in a situation that may involve teacher candidate remediation/reassignment/removal in a current field experience. Access to previous remediation/reassignment/removal actions are necessary to make an informed, individualized decision regarding a current situation in a teacher candidate’s field experience.

**Record Storage:** Teacher candidate file will be stored in the department chairs office. It will be the responsibility to the University Supervisor to make updates as they occur.

**Record Destruction:** Upon successful completion of Southeast Missouri State University’s Teacher Preparation Program and receiving DESE teacher certification, all documents associated with the remediation/reassignment and/removal of a teacher candidate from any field experience will be destroyed.

**APPEAL PROCESS:**

If the candidate believes his/her removal from the teaching assignment violated any policies or policy or procedures of the Teacher Preparation Program, that the decision to reassign or remove was arbitrary and capricious, or that the decision was the result of unlawful discrimination, the candidate may request in writing that the decision be appealed. The appeals process to be followed can be found in SOUTHEAST MISSOURI STATE UNIVERSITY STATEMENT OF STUDENT RIGHTS AND CODE OF STUDENT CONDUCT

Individuals who are considering an appeal are advised to start the process well in advance of the designated appeals deadline. Applications received after the due date will not be considered until the next semester.

**Missouri Content Assessment Exams (MOCA):**

The content area assessments are exit assessments that must be completed by the candidate in all areas of certification:

Early Childhood Special Education: MO Content Assessment 049 and MO Content Assessment 064
Mild Moderate Cross Categorical: MO Content Assessment 050

Information about these exams, including test content, study materials, registration, testing sites can be found at: http://www.mo.nesinc.com/. Additional study materials is located in the Southeast Missouri State University EDvolution Center. Graduates students can locate information regarding study materials and check policies at http://www.semo.edu/education/edvolution.html

Passing score is 220, and candidates must pass this exam prior to EX 696 Advanced Internship.

**Teacher Certification Reciprocity**

Teacher certification reciprocity is a somewhat misleading term, as it is often interpreted as meaning that a teaching license issued in one state will be recognized by another state unconditionally. While most states provide reciprocity guidelines, interstate reciprocity is not automatic. Teachers must apply for a new license if they are looking to teach in a state where they are not currently licensed, and the teacher licensing agency for a given state typically reviews requests for teaching certificate reciprocity on a case-by-case basis.

In practice, then, teaching license reciprocity outlines which qualifications each state will accept from another state, and which qualifications it will not. The good news for educators is that while the process may be complicated, states that have teaching certification reciprocity agreements usually allow educators moving from one state to another additional time to fulfill the new state’s requirements while teaching on a temporary or provisional license.

Southeast Missouri State University's MAT program only provides teacher certification for the state of Missouri. Teacher Certification Reciprocity Guidelines by State can be located at https://www.teachercertificationdegrees.com/reciprocity/. This site provides information for teaching license reciprocity in each state to help you determine the necessary qualifications. For more detailed information on interstate reciprocity, please contact the licensing agency of the state where you wish to teach.
Section 4: Capstone Research Project

All graduate programs at Southeast Missouri State University require a course in research methods and a capstone research project. Graduate students in the Elementary, Early and Special Education Dept. complete EL 615 Research in Action near the end of your graduate program. In this course, teacher candidates learn how to do research in the classroom setting and do a preliminary research project. The Capstone Research Project: GR 698, an Action Research Project is completed during the last semester of the program while enrolled in EX 696 Advanced Internship.

Action Research Project Presentation Guidelines

1. At the beginning of the semester you are enrolled in GR698, contact your advisor to schedule a meeting or Zoom/phone conversation to discuss your EL 615 research project and the requirements for the GR 698 Action Research Project Presentation.

2. It is likely that you will need to revise your EL 615 research project or even begin a new research project to meet the GR 698 requirements. Your advisor will help you determine what needs to be done to complete your GR 698 requirements successfully.

3. After your advisor deems your project ready to be presented, you are responsible to seek two faculty members to serve on your GR 698 committee, in addition to your advisor. Be sure to complete this early in the semester and to check with each of the faculty members to determine availability for the presentation.

4. Work with your advisor and committee to schedule your presentation no later than the 14th week of the semester (6th week of the 8-week summer semester). The presentation could be conducted in person or via voice and video software (Zoom, Skype, etc.).

5. One week in advance of the scheduled Action Research Project Presentation, copies of the presentation should be submitted to your Advisor and each committee member. You should provide a copy of your data collection instruments used to answer your research questions along with examples from the data and your bibliography to your committee.

6. The presentation should contain all of the items on the presentation rubric which can be found in the appendix of this handbook. Graduate students must score at the “Satisfactory” or “Target” level on all indicators to pass GR 698.

7. The order and depth of the information presented will vary with each student. Your presentation will take 30-45 minutes. You should be prepared to present all information with a minimum of notes. Do not read your presentation.

8. Following the presentation of the research study, typically, the project advisor will open the floor for questions from the project advisor and committee regarding the study. The graduate student is expected to provide reasonable answers to the questions posed by the advisor and committee. Also, at this time, faculty will make comments or recommendations regarding further study, editorial suggestions, and/or related research in the field.
9. At the completion of the presentation defense, the project advisor will excuse the student for a brief period. The student is then asked to return and the results are shared with the student.

10. Expectations of the graduate student during the Action Research Project Presentation are decidedly at a high level. The graduate student should be: a. fully knowledgeable of the research study and the background literature b. fully prepared and rehearsed, professional in appearance, communication, demeanor, attitude, and proficient with technology (i.e. slides should display information accurately) c. enthusiastic and impressive d. appreciative of the input and assistance of the project Advisor and committee e. open to suggestion or recommendations.

11. The Action Research Project Presentation meeting is not intended to be intimidating. It is, on the other hand, a formal academic process and is not to be taken lightly by the graduate student. It should be a rich learning experience in which the graduate student realizes the significance of their time, work and advancement in the field of knowledge. The faculty are there to guide the student through this unique process.
Section 5: Finishing the Master’s Degree

Graduate School Requirements and Deadlines

You must complete the Graduation Intent Form during the first week of the semester in which you plan to graduate. Failure to do so may result in a one semester delay of your graduation date. This form is on the university’s Commencement website at: http://www.semo.edu/commencement/

To graduate, all requirements for the Masters degree must be completed by Graduate School deadlines. These deadlines may be found in the semester schedule or on the Graduate School website.

The Graduation Ceremony

The Graduation ceremony is a chance to be recognized for your hard work in earning a graduate degree! Candidates for a Masters degree wear a gown with hood signifying the accomplishment of a graduate degree, and your cap/gown may be ordered through the graduate office. All information about graduation is on the Commencement website, so read all details carefully.
Appendix A
Graduate Program Checklist

The following outline is designed to assist graduate students in EESE Dept. as they manage the requirements for graduation. The Graduate Bulletin should be obtained. The University’s website contains registration deadlines and course enrollment information that must be followed. It is the graduate student’s responsibility to be informed and to meet deadlines. The graduate advisors in EESE are dedicated to assisting and advising you as you work through the process.

1. After being accepted into the graduate school, you should contact your graduate advisor and to begin planning your program.

2. Contact your advisor each semester prior to enrolling in courses to insure you are following your plan correctly. Get your advisor’s approval for any electives you choose to take. Check your status in DegreeWorks, as well.

3. Prior to starting work on your capstone Research in Action project, (the semester prior to graduation is recommended) take EL 615 Research in Action. Contact your advisor to discuss your research project.

4. Complete your capstone Research in Action project after you have successfully completed EL 615 and developed your topic and research plan.

Capstone Project / Research in Action

5. In the semester you plan to graduate, enroll in GR 698 Action Research Project (Section 01). Submit a Graduation Application, using the University’s Commencement website. This application must be submitted by the end of the first week of the semester you are graduating.

6. Contact your advisor to schedule a meeting to submit your EL 615 research project. Submit your first draft of your presentation, along with your EL 615 paper and instructor comments, at the beginning of the semester you plan to graduate.

7. Work with your advisor on revisions, additions, and deletions of your research project and schedule to present your research in action project to your advisor and committee no later than the 14th week of the semester (6th week of the 8-week summer semester).

8. Complete all recommended changes to the project and present your findings to your advisor and faculty committee no later than the beginning of 14th week (6th week of the 8-week summer semester).

Revised Fall 2020
| GR 698 Masters’ Final Comprehensive Exam (0) |   |   |
### Appendix D

**GR 698 Action Research Defense Rubric**

Candidates must score at the “Satisfactory” or “Target” levels in all criteria for a Passing score.

<table>
<thead>
<tr>
<th>Required Components</th>
<th>Target</th>
<th>Satisfactory</th>
<th>Not Yet</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Introduction:</strong></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
| **Introduction to the study** | • Begins with a strong introduction that motivates the listener to want to know more about the study.  
• Clearly sets the stage for the study and the need for an intervention related to the issue being addressed (rationale).  
• Articulates the components and organization of the presentation. | • Makes an attempt to make the topic of the action research interesting to the listener.  
• Introduces the topic and the paper in general terms.  
• Includes components and organization of the presentation. | • Does not make a clear case for the action research (e.g., not linked to real life classroom problems, interest of the researcher, or the research).  
• Does not include the components of the study or the organization of the presentation. |
| **Introduction:**   |        |              |         |
| **Research Questions, Significance, and Limitations** | • Clearly defines the purpose, problem, intervention, 1-3 research questions (NO Yes/No and at least 1 quantitative) aligned with the purpose of the study and the outcome.  
• Describes how the study will contribute to your teaching or to the teaching practices of others (significance).  
• Clearly specifies why this study cannot be generalized to larger populations (limitations). | • States the purpose, problem, intervention, 1-3 research questions (NO Yes/No and at least 1 quantitative) aligned with the purpose of the study and the outcome.  
• Makes a statement about how important the study is (significance).  
• Provides details as to why the study cannot be generalized to larger populations (limitations). | • Does not clearly state the components of the study.  
• Lacks statements regarding significance and/or limitations of the study. |
<table>
<thead>
<tr>
<th>Review of the Literature</th>
<th>Research Design</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Describes significant themes from the research (appropriate studies cited) and/or recognized theories (appropriate theories cited) that are clearly linked to the study’s purpose; can easily discuss the major themes or theories relating to study.</td>
<td>• The sample of participants are described specifically, but without identifying individual students (e.g., describing only grade level, subject area, number of students, and percentage of males and females.</td>
</tr>
<tr>
<td>• Clearly applies an understanding of major research relating to topic to the study’s design and can easily answer questions about the research application.</td>
<td>• Data collection techniques are consistent with the desired outcomes of the study and demonstrate a strong understanding of research methodology appropriate for topic.</td>
</tr>
<tr>
<td>• Bibliography provided to the audience with appropriate citations for sources used and are presented in APA format.</td>
<td>• All data collection methods are described (in detail) along with a rationale for using them (e.g., why this technique was used and what type of data it would generate)</td>
</tr>
<tr>
<td>• More than ten citations</td>
<td>• Data collection instruments are provided for the audience</td>
</tr>
<tr>
<td>• Covers research and theories in the field, although they may not be the most appropriate ones or may not be clearly linked to the study’s purpose.</td>
<td>• The sample of participant(s) is described (however, it may be vaguely or not clearly described).</td>
</tr>
<tr>
<td>• Some application of the major research relating to the topic to the study’s design</td>
<td>• Data collection techniques are appropriate for achieving desired outcomes of the study.</td>
</tr>
<tr>
<td>• Bibliography provided to the audience with appropriate citations for sources used, APA style used with minor errors.</td>
<td>• Data collection methods are described, but the description does not include a strong rationale for using them.</td>
</tr>
<tr>
<td>• Majority of citations are scholarly work, all are current (within the last 10 yrs) or are foundational scholarly references for the topic.</td>
<td>• Data collection methods have some alignment with the desired outcomes of the study.</td>
</tr>
<tr>
<td>• Minimum of ten citations</td>
<td>• Data are presented in appropriate ways (e.g., tables, charts, graphs, although some explanation may be needed for audience understanding.</td>
</tr>
<tr>
<td>• Research studies or articles are presented in a linear manner. No attempt is made to identify themes or theories linked to study’s purpose.</td>
<td>• Data collection instruments are not provided for the audience.</td>
</tr>
<tr>
<td>• Research is unrelated to the study’s design</td>
<td>• There is little description of participant(s) and their demographic data.</td>
</tr>
<tr>
<td>• Bibliography provided, but citations do not consistently follow APA guidelines.</td>
<td>• Data collection techniques do not align with the desired outcomes of the study.</td>
</tr>
<tr>
<td>• Citations are primarily nonscholarly work, i.e. website information, or do not meet expectations (within the last 10 years or foundational references).</td>
<td>• Data collection methods are minimally described; no rationale provided for choice of methods.</td>
</tr>
<tr>
<td>• Less than ten citations</td>
<td>• Data are presented in an unclear manner, some data may be missing</td>
</tr>
</tbody>
</table>

Revised Fall 2020
| Data Analysis and Results | • Data are presented in a clear and concise manner (e.g., tables, charts, graphs).  
  • Clear description of how the data are analyzed  
  • Appropriate and adequate findings are identified from the data.  
  • Patterns and themes from the data are discussed  
  • Linkages are made between what was found in the data to research in the field.  
  • Examples and details from the data are used to discuss or highlight the themes and enrich the summary. | • Analysis of data is adequately presented  
  • Findings are, for the most part, objective. Some are subjective – conclusions drawn by the researcher with limited data support.  
  • Findings are primarily linked to specific data sources with some linkages to research in the field.  
  • Some details included, but minimal examples given. | • Findings are not appropriate, adequate, or objectively written.  
  • Little or no use of details or examples from the data to illustrate themes. |
| --- | --- | --- | --- |
| What Was Learned / Conclusions | • Conclusions drawn from the findings of the study, illustrate a high level of thought and reflection.  
  • Conclusions are clearly linked to research in the field – confirming current theories and/or research or adapting them to the researcher’s context.  
  • The researcher clearly indicates how his or her actions impacted outcomes and personal change as a result of the action research process. | • Conclusions are drawn as a result of reflection about what the findings mean, in terms of researcher’s students or school context.  
  • Conclusions are adequately linked to research in the field.  
  • Researcher demonstrates reflective skills and potential personal change as a result of the action research process. | • Conclusions are confused with findings or few conclusions drawn.  
  • Conclusions are not linked to research in the field.  
  • Researcher describes research with little reflection, unable to articulate any potential personal change as a result of the action research process. |
| Impact of Research on the Future / Recommendations | • Recommendations reflect what the researcher or others should do in the future to improve this study or to build upon it.  
  • The researcher provides thoughtful suggestions that could inform others interested in studying this topic and includes a dissemination plan. | • Recommendations reflect what the researcher would do next time if given the opportunity to repeat the study.  
  • The researcher suggests what could be studied by others looking at the same topic. | • Recommendations suggest minimal reflection on future research possibilities.  
  • Little or no attempt to consider how the study might be improved or replicated. |
<p>| Subject Knowledge | ☐ Researcher demonstrates a thorough, in-depth understanding of the subject knowledge of the study, fully answers audience members’ questions with explanations and elaboration. | ☐ Researcher demonstrates clear and concise understanding of the subject knowledge of the study, able to answer all audience members’ questions sufficiently. | ☐ Researcher demonstrates a weak understanding of subject knowledge, with errors or misconceptions, unable to full answer audience members’ questions. |</p>
<table>
<thead>
<tr>
<th>Presentation</th>
<th>Presentation</th>
<th>Presentation</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Professional presentation within 30-45 minute time frame, researcher is confident, uses a clear voice, correct pronunciation and grammar, academic language of the subject knowledge used easily, presentation is scholarly, without slang or “breezy” language.</td>
<td>• Professional presentation within 30 – 45 minute time frame, researcher uses clear voice, correct pronunciation and grammar, may make minor mistakes, but quickly recovers from them, academic language of the subject knowledge is used, presentation is primarily professional in nature</td>
<td>• Professional presentation in less than the 30 minute time frame or researcher fails to stay on topic and exceeds time limit, tension and nervousness is obvious, unable to recover from mistakes. Grammatical errors distract from presentation, little use of academic language of subject knowledge.</td>
</tr>
<tr>
<td>• Researcher displays confidence and clarity during the question / answer time with the audience.</td>
<td>• Researcher able to answer audience members’ questions.</td>
<td>• Research is unable to adequately answer audience members’ questions.</td>
</tr>
