

Faculty Senate Membership Committee
Year-end report
Submitted by Dr. Joni Hand, chair

The restructuring of the university at the beginning of academic year 2018-2019 resulted in some colleges having two senators. This anomaly righted itself at the end of the spring semester as terms were up for some senators, and others chose to step down from senate. As of 4/22/19, all senators have been elected for the 2019-2020 academic year.

In addition to the senate at large, membership was required for a number of task forces dealing with major themes/concerns of the faculty at large. Additionally, a winter session task force was formed to discuss the future of winter session courses.

Other membership needs were filled on the AQIP Committee, the University Academic Appeals Committee, and the Commencement Committee.
