TETHERED DRONE WITH PAYLOAD  
INVITATION FOR BID 6015  
AMENDMENT #1**

**A. The bidder is hereby notified that Invitation for Bid 6015 is clarified as follows:**

- 1. Is the drone allowed to be made and manufactured in China?**
  - a. The University would consider a drone made and manufactured in China, but preference will be given to a domestic product.**
  
- 2. Does the drone need to have a thermal camera?**
  - a. The University would consider a drone without a thermal camera; however, the additional cost needed to have this added will be taken into consideration during the evaluation.**
  
- 3. Does the drone need to have a camera with zoom functionality? If so, what are the specific specifications?**
  - a. The University would consider a drone without zoom functionality; however, the additional cost needed to have this added will be taken into consideration during the evaluation. Currently, we are looking for something with near 40x zoom.**
  
- 4. Does the drone need to fly in the rain or snow?**
  - a. While the University will not be flying the drone in any excessive weather , the drone must have a IP54 rating or better.**

**B. IFB closing date and time remain the same.**
