

After you log in, you use your phone keys to access menu options. There are layers of menus, and their options are described as you progress through each activity. The first layer is called the *Activity Menu*. You can always get back to that layer by pressing *R (or *7) to Return to Activity Menu. Press *H (or *4) for Help at any time.

RECORD AND SEND MESSAGES

TIPS
You can enter names instead of extensions when sending messages. Use *A (or *2) to switch between name and extension addressing. Enter last name first when name addressing.
Private messages cannot be forwarded by recipients.
Priority messages are presented to recipients first.
Filed messages can be modified and resent. To do this, press **4** (for Outgoing Messages) from the Activity Menu. (See the diagram on the back of this card.)
Schedule delivery of messages to yourself to use the system as a reminder.
