

# Downloading and Installing ADW Cleaner

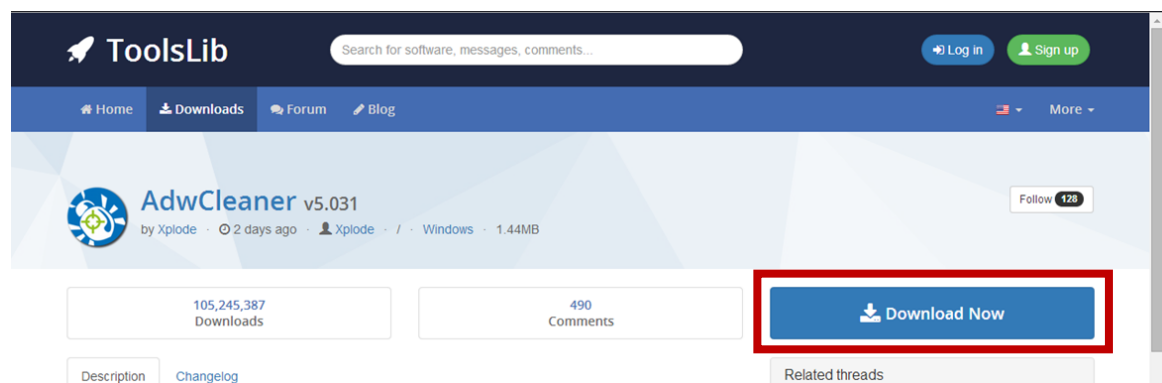

**ADW is a free PC scanning and removal tool used to find and remove items like Adware (ads software), PUP/LPI files (Potentially Undesirable Program), Toolbars, and Hijacker (Hijack of the browser's homepage). It comes with both "Scan" and "Clean"**

## Step 1.

Open a preferred web browser of your choosing and go to the <https://toolslib.net/downloads/viewdownload/1-adwcleaner/> website

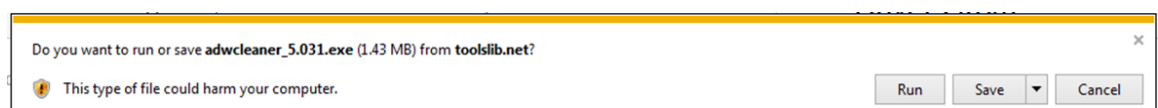

## Step 2.

Once on the page, click the **Download Now** button.

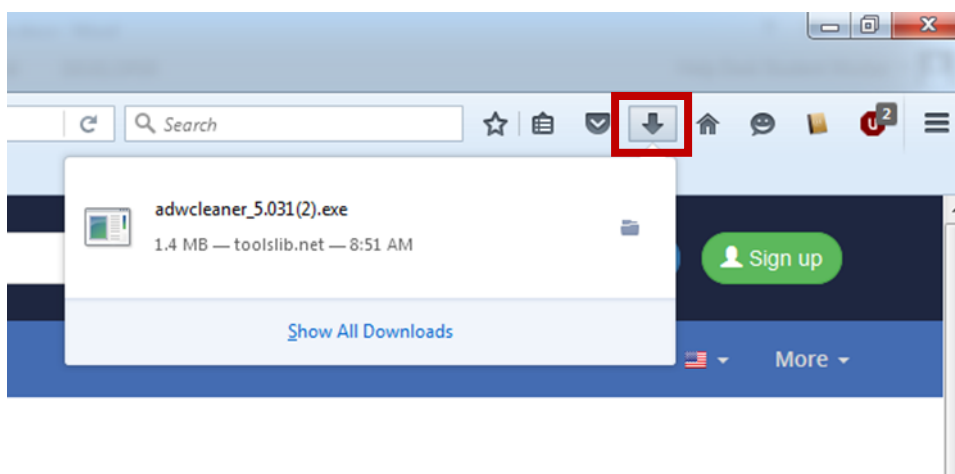

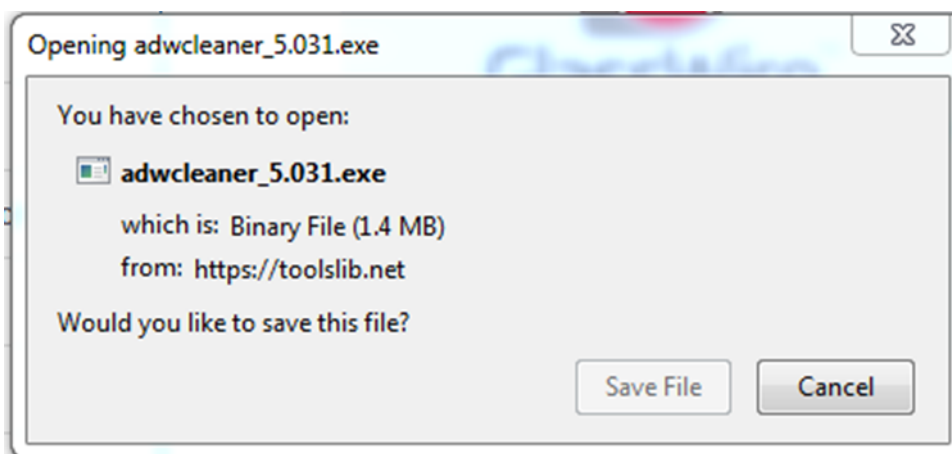

## Step 3a.

If you are using the Internet Explorer web browser, click **Run** in the gold dialog box at the bottom of the browser window.

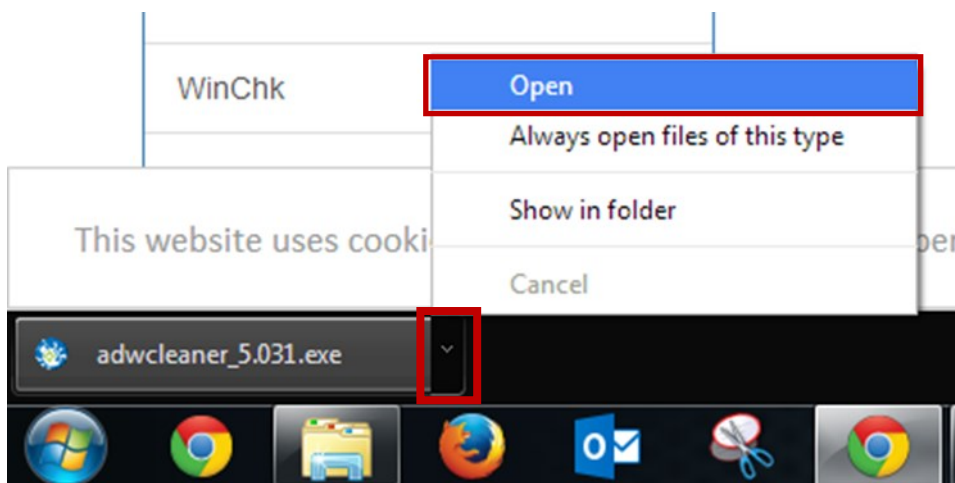

## Step 3b.

If you are using the Firefox web browser, click the **Save File** button, then click the downward facing arrow in the top right of the browser, and click the installation file.

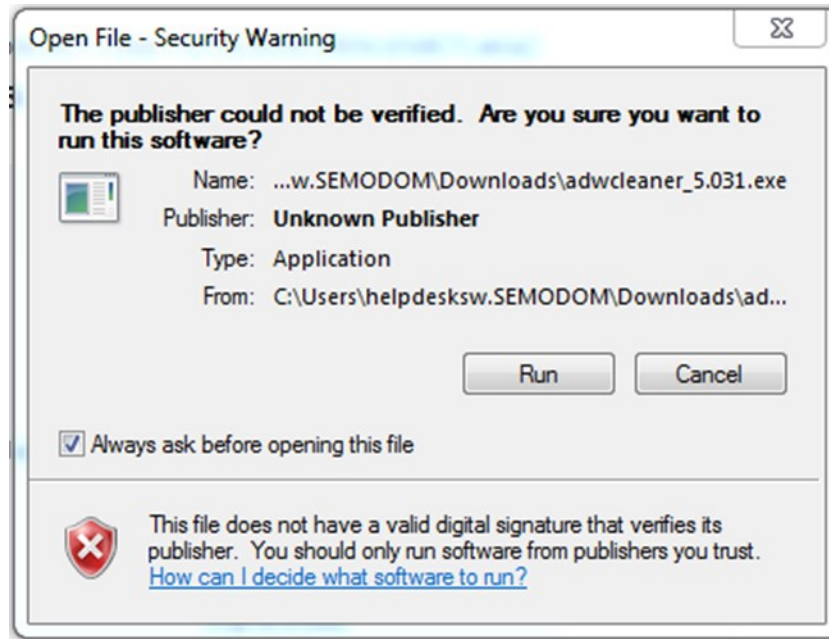

## Step 3c.

If you are using the Google Chrome web browser, in the bottom left corner of the browser, click the downward facing caret and then click the **Open** option.

## Step 4.

Once opened, click the **Run** button on the window that pops up.

## Step 5.

Wait for the green loading bar to fill. ADW Cleaner will now be installed.

*Note: A tutorial on how to use ADW Cleaner is available on the [semo.edu/it/security/maintenance\\_website](http://semo.edu/it/security/maintenance_website).*
