

# iPad/iPhone – Connect to Southeast’s Wireless Network with a Guest Account (iOS 8 and below)

1. Click the Settings icon

2. Select Wi-Fi, and ensure Wi-Fi is turned on, then choose the Southeast Secure or Southeast ResNet wireless Network

3. Type in the Southeast Key Username and Password and click Join

4. Click the Accept button to accept the authentication certificate

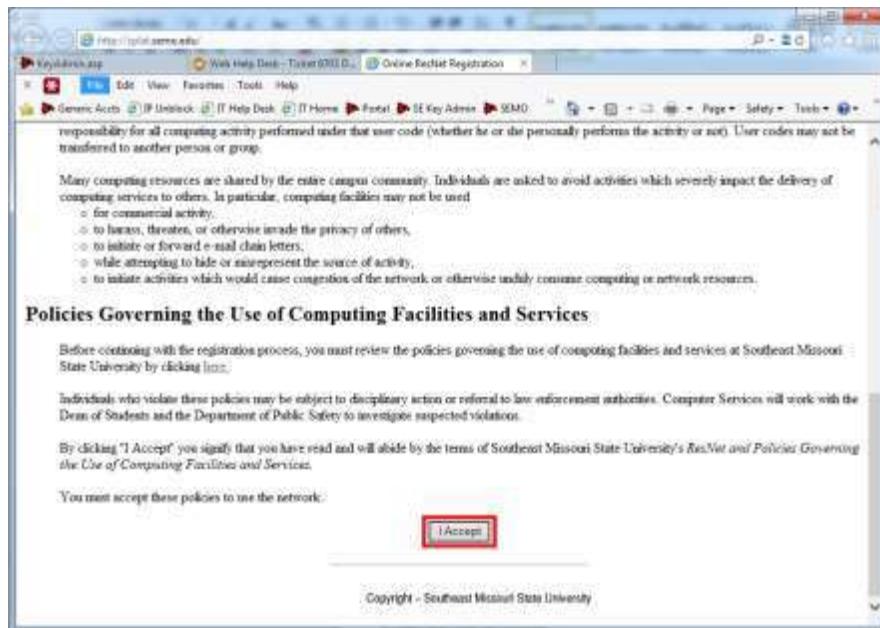

5. After your device is connected it must be registered before it will have Internet access. This process must be repeated at the beginning at each semester. To do this:

- a. Open Safari
- b. The ResNet Registration webpage should be displayed. If your browser does not automatically redirect you to the ResNet page, go to <http://splat.semo.edu/wifiguest>

Enter your provided login and password in the spaces indicated.  
c. Scroll to the bottom of the screen and tap on the “I Accept” button

d. When the message appears stating that the registration was successful, power your device off & on.  
Your device is now setup to automatically connect to the Southeast wireless network. Your device should automatically connect to this network when it detects the signal
