

Mac OS X - How to connect to SoutheastSecure Wireless Network as a Wifi-Guest

1. Click the **Airport** icon in the Menu Bar at the top.

2. **SoutheastSecure** (for Adademic buildings).

NOTE: You much be in range of the wireless network to proceed.

3. In the **User Name** text box, type your Southeast Key.

In the **Password** text box, type your Southeast Key password.

Make sure **802.1X** is set to **Automatic**.

4. Click **OK**.

5. Click **Continue** to verify the server certificate pop-up.

NOTE: It may take a minute or two before this window pops-up.

6. In the **Password** test box, type your Southeast Key password again and click **OK**.

The image shows a dialog box titled "802.1X Authentication". It features a circular logo on the left. The form contains a "User Name:" field with the text "dhopkins" entered. Below it is a "Password:" field with a masked password represented by a series of dots. There is a checkbox labeled "Only use this password once" which is currently unchecked. At the bottom, there are two buttons: "Cancel" and "OK". The "OK" button is highlighted with a red rectangular border.

1. In order for your device to work on Southeast's network it must be registered on the network once per semester. To do this:
 - a. Open your Internet browser
 - b. Your browser may automatically go to the Resnet Registration page. If it doesn't enter the address <http://splat.semo.edu/wifiguest>

The image is a screenshot of a web browser window displaying the "Online ResNet Registration" page for Southeast Missouri State University. The browser's address bar shows the URL "http://splat.semo.edu/wifiguest". The page header features the university's name and logo. The main content area is titled "ResNet TCP/IP Registration Information" and includes the following text:

Please enter your SE Key and password.

SE Key: e.g. jksmith1a NOTE: DO NOT INCLUDE @semo.edu!!!

Password:

All ResNet users are REQUIRED to run anti-virus software on their computers. Failure to do so will result in disconnection from the network if virus problems arise.

Residential networking (ResNet) is supported by Information Technology. Please read the ResNet and Acceptable Usage policies before continuing the registration process. Once the policies have been read and understood, click [here](#).

For help registering your computer or to schedule an appointment with IT support personnel, please call the Help Desk at 651-4357. Help Desk location and hours of operation can be found at <http://www6.semo.edu/helpdesk>.

Overview of Acceptable Usage Policies

Southeast Missouri State University expects all individuals utilizing the University's computing facilities to abide by the policies governing their use. All use must be consistent with the University's primary missions of providing instruction, research, and public service to the citizens of the State of Missouri.

University faculty and staff members conducting instructional or research activities will be regarded as making appropriate use of available facilities and services provided these activities have been authorized by the appropriate department chairperson or dean. University students may be permitted use of available computing facilities and services provided such use is reasonably associated with the academic programs as determined by the appropriate department chairperson or dean.

Access to most computing facilities is controlled by the issuance of user codes. A faculty member, staff member, or student receiving a user code assumes responsibility for all computing activity performed under that user code (whether he or she personally performs the activity or not). User codes may not be transferred to another person or group.

Many computing resources are shared by the entire campus community. Individuals are asked to avoid activities which severely impact the delivery of computing services to others. In particular, computing facilities may not be used

- for commercial activity,
- to harass, threaten, or otherwise invade the privacy of others,
- to initiate or forward e-mail chain letters,
- while attempting to hide or misrepresent the source of activity,
- to initiate activities which would cause congestion of the network or otherwise unduly consume computing or network resources.

Policies Governing the Use of Computing Facilities and Services

- c. Enter your **SE Key** and **Password** in the boxes provided, review the policy and click the **I Accept** button at the bottom of the screen.

User codes may not be transferred to another person or group.

Many computing resources are shared by the entire campus community. Individuals are asked to avoid activities which severely impact the delivery of computing services to others. In particular, computing facilities may not be used

- o for commercial activity,
- o to harass, threaten, or otherwise invade the privacy of others,
- o to initiate or forward e-mail chain letters,
- o while attempting to hide or misrepresent the source of activity,
- o to initiate activities which would cause congestion of the network or otherwise unduly consume computing or network resources.

Policies Governing the Use of Computing Facilities and Services

Before continuing with the registration process, you must review the policies governing the use of computing facilities and services at Southeast Missouri State University by clicking [here](#).

Individuals who violate these policies may be subject to disciplinary action or referral to law enforcement authorities. Computer Services will work with the Dean of Students and the Department of Public Safety to investigate suspected violations.

By clicking "I Accept" you signify that you have read and will abide by the terms of Southeast Missouri State University's [ResNet](#) and [Policies Governing the Use of Computing Facilities and Services](#).

You must accept these policies to use the network.
