SCI-FI FANTASY ADVENTURE

What if the artifacts in our museum came from civilizations that long ago traveled to and from other galaxies? Or what if they're secretly alive, and they play video games on the office computers at night? In this workshop, you'll use your imagination and creativity to create objects unique to our world. Whatever you can imagine can become part of a plot that captivates your family and friends.

SHORT STORIES AND ILLUSTRATION

Turn your original ideas and experiences into a story with a beginning, middle and end. Using this as a framework, you'll tap into your creativity and, as your plot unfolds, you'll develop interesting characters in descriptive settings. Inclusion of a twist or surprising turn can be a fascinating element. You'll also have mini-lessons involving memory walks, illustration, personification and puppetry.

WHODUNIT? A MYSTERY- WRITING WORKSHOP

Ever wonder what it would be like to be a mystery writer? This is your chance to find out! During this five-day workshop, you'll hear short-story mysteries, find clues and write your own stories to share with others. We'll talk about how good writers are like detectives, noticing little details that many people miss. For our stories, we'll use the objects in the museum gallery as writing prompts.
