

Course Approval Document
Southeast Missouri State University

Department: Health Human Performance and Recreation Course No. PE 263

Title of Course: Injury Management in Physical Education Lab New

I. Catalog Description (Credit Hours of Course)

Provide students basic knowledge and skills to aid in prevention of injury and provide immediate treatment of common orthopedic injuries. 1.0 Credit Hours (Lab)

II. Co- or Prerequisite(s)

Co-Requisite: PE 262 – Concepts of Injury Management in Physical Education

III. Purposes of Objectives of the Course

1. Demonstrate basic field evaluation techniques for injuries to the: (3.3; Q 1C1, 4C1)
 - i. Upper Extremity
 - ii. Lower Extremity
 - iii. Head, Neck and Spine
2. Demonstrate common taping, wrapping, bracing and splinting techniques for injuries to the: (3.3; Q 4C1)
 - i. Upper Extremity
 - ii. Lower Extremity
3. Identify proper methods for fitting of protective gear (helmets, padding, etc.) (4.5; Q 5C2)

**National Standards for Physical Education Teacher Education by the
National Association for Sport and Physical Education (NASPE) and
Q = Missouri Standards for the Preparation of Educators (MoSPE).**

IV. Student Learning Outcomes

1. Demonstrate basic field evaluation techniques for injuries
2. Demonstrate methods to reduce the potential risks associated with athletic activity
3. Select and apply appropriate bracing and taping techniques used for common injuries

V. Expectations of Students

1. Satisfactory completion all assignments
2. Active participation in class activities
3. The student will work with other members of the class as a team in certain exercises

VI. Course Content or Outline (indicate number of class hours per unit or section)

1. Acute Management of Injuries	2
2. Basic Taping and Splinting of Foot, Ankle and Lower Leg	6
3. Basic Taping and Splinting of the Knee, Hip, and Pelvis	4
4. Basic Taping and Splinting of the Shoulder	2
5. Basic Taping and Splinting of the Elbow, Forearm and Wrist/Hand	4
6. Treating Injuries to the Head and Face	4
7. Management and Treatment of Concussions in Sports	2
8. On Field Management of Possible Spinal Injury	2
9. General Medical Concerns of the Athlete	2
10. Fitting Personal Protective Gear for Athletes	2
Total	30

Course Title: PE 263: Injury Management in Physical Education Lab
Meeting Times: TBD
Location: TBD

Credit Hours: 1.0 credit hours (Lab)

Instructor Information:

Name:
Office:
Phone:
E-Mail:
Office Hours:

Required Textbook: *Prentice, W.E., Essentials of Athletic Injury Management, 9th ed., McGraw Hill Higher Education, ISBN # 9780078022616*

Beam, J.W., Orthopedic Taping, Wrapping, Bracing and Padding, FA Davis Company, ISBN 978-0-8036-1212-9

Course Description:

Designed to provide students with basic knowledge and skills to aid in the prevention of injury, as well as skills to provide immediate treatment of common orthopedic injuries. 1.0 Credit Hours (Lab)

Co- Requisites:

Co-Requisite: PE 261 – Concepts of Injury Management in Physical Education

Course Objectives:

11. Demonstrate basic field evaluation techniques for injuries to the:
 - i. Upper Extremity
 - ii. Lower Extremity
 - iii. Head, Neck and Spine
12. Demonstrate common taping, wrapping, bracing and splinting techniques for injuries to the:
 - i. Upper Extremity

- ii. Lower Extremity
- 13. Identify proper methods for fitting of protective gear (helmets, padding, etc.)

Student Learning Outcomes:

1. Demonstrate basic field evaluation techniques for injuries
2. Demonstrate methods to reduce the potential risks associated with athletic activity
3. Select and apply appropriate bracing and taping techniques used for common injuries

General Classroom Policies:

The following is a brief list of classroom courtesy guidelines that need to be followed at all times when in the classroom this semester. This list is not all inclusive and failure to be respectful of the learning environment while in the classroom may result in the student being asked to leave the class for the day and lose participation points for that day.

1. Please only talk in class during times when discussion on a topic is encouraged. Talking during inappropriate times is disrespectful to the instructor of the course and your fellow classmates and will take away from the learning environment.
2. Be actively engaged in the learning process. This means that you should not be working on other homework during class time, playing games on your phone, texting, tweeting, sleeping, facebooking, snapchatting or anything else that takes away from the potential for you or other students to learn.
3. **Please refrain from using a cellular phone or any other electronic device in this class for anything other than academic purposes. If you are expecting an important phone call please let me know before the class begins and you can sit by the door and excuse yourself when the phone rings without disturbing the rest of the class.**
4. I will frequently use email and Moodle to communicate with you as a class. However, I will only utilize your SEMO e-mail account. So please check that email on a regular basis to ensure you are up-to-date on announcements.

Evaluation of Learning:

Quizzes:

In order to ensure understanding of the material presented in class and to ensure that students are keeping up with reading, there will be quizzes given throughout the semester. These quizzes will be given in a variety of formats, including on Moodle as an online version and in class either announced or unannounced. Each quiz will vary in points. Quizzes that are missed due to unexcused absences or failure to complete a quiz by the due date online will result in a 0(ZERO) for that assignment. There will be no make-up quizzes without **prior approval** from instructor!!!!

Practical Exams:

Students will be required to demonstrate the ability to properly complete the skills presented in class. These demonstrations will be done in the form of a practical exam. There will be 3 practical exams over the course of the semester followed by a comprehensive exam. This will be 60% of your final grade in the course.

Out of Class Assignments

There will be assignments given out on a periodic basis that are to be completed by the due date. These assignments will be given to you in class, by email or on Blackboard. Students are expected to complete the assignment and bring it with them to class or e-mail it back to the instructor in a MS-Word attachment. All assignments are due when class begins on the due date unless otherwise specified. Failure to turn in an assignment when it is due will result in a loss of 15% of points per each calendar day it is late. After the 3rd calendar day the assignment will receive a ZERO (0). This will be 10% of your final grade in the course.

Attendance and Participation:

Students are expected to attend all classes and complete all assignments for the courses in which they are enrolled. An absence from the class, excused or unexcused, does not relieve the student of the responsibility to complete all assignments/requirements for the course. If the absence is for a university sanctioned event the instructor will provide an opportunity for the student to complete the coursework, however, the student should make arrangements *before* the absence. It is at the instructor's discretion to allow any make-up work for an absence for any other reason. In order to achieve the objectives for this course you must be present and make an active effort at learning the material. Therapeutic Modalities is not something you can understand by sitting in class alone. You must actively participate by practicing the skills taught in class and you must spend some time outside of class reviewing the material. Participation in class will make up a portion of your grade. If you are absent from class on laboratory days, discussion days or on your phone during class time and not participating in class, you will not be able to receive the participation points for that class period. Any student who is not present for the first week of class may be dropped by the instructor for non-attendance. Questions regarding the drop process should be directed to the University Registrar. Participation in class will account for 30% of your final grade.

Grading Scale

Skill Demonstration	60%	Credit = >75%
Quizzes and Participation	30%	No Credit= <75%
Written Assignments	10%	
Total	100%	

Academic Honesty:

Academic honesty is one of the most important qualities influencing the character and vitality of an educational institution. Academic misconduct or dishonesty is inconsistent with membership in an academic community and cannot be accepted. Violations of academic honesty represent a serious breach of discipline and may be considered grounds for disciplinary action, including dismissal from the University. Academic dishonesty is defined to include those acts which would deceive, cheat, or defraud so as to promote or enhance one's scholastic record. Knowingly or actively assisting any person in the commission of an above-mentioned act is also academic dishonesty. Students are responsible for upholding the principles of academic honesty in accordance with the "University Statement of Student Rights" found in the STUDENT HANDBOOK. The University requires that all assignments submitted to faculty members by students be the work of the individual student submitting the work. An exception would be group projects assigned by the instructor. In this situation, the work must be that of the group. Academic dishonesty includes:

Plagiarism. In speaking or writing, plagiarism is the act of passing someone else's work off as one's own. In addition, plagiarism is defined as using the essential style and manner of expression of a source as if it were one's own. If there is any doubt, the student should consult 2 his/her instructor or any manual of term paper or report writing. Violations of academic honesty include:

1. Presenting the exact words of a source without quotation marks;
2. Using another student's computer source code or algorithm or copying a laboratory report; or
3. Presenting information, judgments, ideas, or facts summarized from a source without giving credit.

Cheating. *Cheating includes using or relying on the work of someone else in an inappropriate manner. It includes, but is not limited to, those activities where a student:*

1. *Obtains or attempts to obtain unauthorized knowledge of an examination's contents prior to the time of that examination.*
2. *Copies another student's work or intentionally allows others to copy assignments, examinations, source codes or designs;*
3. *Works in a group when she/he has been told to work individually;*
4. *Uses unauthorized reference material during an examination; or*
5. *Have someone else take an examination or takes the examination for another*

All students must abide by these policies. Any student caught plagiarizing, cheating, or engaging in any other form of academic dishonesty will receive a zero on the assignment in question. That student may also be subject to further disciplinary action. If you have any questions about what constitutes plagiarism, please ask me. Please keep in mind that cutting and pasting from websites or other internet resources constitutes plagiarism.

Civility

Official university policy on civility is as follows:

Every student at Southeast is obligated at all times to assume responsibility for his/her actions, to respect constituted authority, to be truthful, and to respect the rights of others, as to respect private and public property. In their academic activities, students are expected to maintain high standards of honesty and integrity and abide by the University's Policy on Academic Honesty. Alleged violations of the Code of Student Conduct are adjudicated in accordance with the established procedures of the judicial system. For more, see: <http://www6.semo.edu/stuconduct/>

Students and instructors share the responsibility to cultivate an environment of respect, both in class and in online course interactions. Violations of the student code of conduct will be reported to the Office of Student Conduct.

Disabilities

Southeast Missouri State University and Disability Support Services remain committed to making every reasonable educational accommodation for students with disabilities. Many services and accommodations which aid a student's educational experience are available for students with various types of disabilities. It is the student's responsibility to contact Disability Support Services to become registered as a student with a disability in order to have accommodations implemented.

Accommodations are implemented on a case by case basis. For more information please contact Disability Support Services at 573-651-2273.

Grievance Statement

“All questions regarding this class should be addressed to the instructor. If the student has further queries or if their concerns are not addressed to their satisfaction they should contact Dr. Joe Pujol, 651-2197.”

Course Content/Outline

Week 1

- Acute Management of Injuries

Week 2

- Acute Management of Injuries- Vital Signs

Week 3

- Basic Taping and Splinting of Foot and Lower Leg
- **Practical Exam I**

Week 4

- Basic Taping and Splinting of Foot and Lower Leg

Week 5

- Basic taping and Splinting of the Knee, Hip and Pelvis

Week 6

- Basic taping and Splinting of the Knee, Hip and Pelvis

Week 7

- **Practical Exam II**
- Basic Taping and Wrapping of the Shoulder

Week 8

- Basic taping and wrapping of the elbow and forearm and wrist and hand

Week 9

- Basic taping and Wrapping of the elbow and forearm and wrist/hand

Week 10

- Treating injuries to the head and face
- **Practical Exam III**

Week 11

- Treating injuries to the head and face

Week 12

- Concussion management in sports

Week 13

- On field management of concussions in sports

Week 14

- On field management of possible spinal injuries

Week 15

- Treatment of general medical conditions in athletes

Week 16

- Fitting personal protective gear
- **Final Practical Exam**
