GENERAL STATEMENT OF POLICY

A fundamental principle of ethics is that any person who exercises discretionary authority on behalf of the University may not use, or appear to use, this authority for his or her own personal benefit.

It is therefore the basic policy of Southeast Missouri State University that all members of the University community have a duty to be free from the influence of any conflicting interest (as well as free from the influence of any interest which may appear to be conflicting) when they act on behalf of the University or represent it in negotiations or advise others within the University community with respect to dealing with third parties. Members of the University community are expected to act in behalf of the University on the sole basis of that which is in the best interest of the University, without favor or preference (and without prejudice) to third parties based on personal considerations.

The regents, faculty, employees and agents of the University shall faithfully discharge their duties and shall refrain from knowingly engaging in any outside matters of financial interest incompatible with the impartial, objective and effective performance of their University duties. They shall not realize personal gain in any form which would influence improperly the conduct of their University duties. They shall not knowingly use University property, funds, position, or knowledge gained as a result of association with the University for personal or political gain. They shall be alert to and abstain from conduct which has the “appearance” of conflict of interest. They shall inform their supervisors in writing of reasonably foreseen potential conflicts. The faculty and staff members are expected to use their best judgment in carrying out their duties and responsibilities as deemed appropriate to the individual’s profession and University’s mission.

Use of confidential information –

Confidential information about the University obtained by reason of position or employment by the University shall not be used for personal financial gain or to the unfair advantage of another person.

Outside business interests and employment –

Employees of the University, whether employed full time or part time, should avoid outside business interests or employment which may interfere with the performance of their duties to the University.

Commercial transactions with students should be avoided, particularly if the employee has decision-making authority over the student with respect to university matters, such as grades, advisement, academic probation, disciplinary sanctions, scholarships, loans, or student employment.
