

Set up your Profile

Begin by setting up your student profile. Your profile lets instructors and advisors know who you are and how to contact you. It also gives you control over how you wish to receive emails.

1. Click on the menu button (top left corner); click your name to expand the information, then click "Profile".

From here, you can customize your profile by setting appointment reminders, and adding a secondary email address for receiving SupportNET emails (e.g. your mobile phone*).
