

Engineering Technology: Mechanical & Manufacturing Systems Option

Bachelor of Science (BS)

Mechanical & Manufacturing Systems Option

Engineering technology emphasizes the application of scientific and engineering techniques to a variety of real-world problems. Application is the key word in this definition, in that engineering technology emphasizes practical applications as well as theory. Engineering technologists work in the job spectrum between the engineer and the skilled technician, with responsibilities closest to those of the engineer.

The Mechanical & Manufacturing Systems option emphasizes building strong proficiencies in design, development, application and management of product, manufacturing processes, and systems. A broad core of technical course work is presented in detail, from conventional machining operations to the latest applications and principles of computer-aided design using CAD/CAM, advanced manufacturing processes, robotics, integrated automation systems, quality control and improvement systems, along with advanced techniques in solid-modeling and prototype production. The introduction and application of manufacturing trends and innovations are reinforced throughout the program by integrated laboratory experiences.

Engineering technology: mechanical & manufacturing systems students will...

- Learn to design products, systems, components, or processes with good structure, function, quality and manufacturing ability.
- Learn to work with engineers in the design phase of product and process development.
- Use real-world laboratory equipment and industrial projects.
- Utilize course work with a balance of theoretical and practical applications in quality control, machine design, manufacturing processes, fluid power, robotics, automation, computer integrated manufacturing and safety.

Career Planning

A St. Louis Outreach Office, located in Chesterfield, Mo., provides career exploration assistance, resume critiques, interview tips, job search strategies and more.

Demonstrated Career Proficiency is a Requirement of all Southeast Students		
CL001/CL002	First Semester	Complete the FOCUS2 assessment and develop a Career Action Plan.
CL003	Junior Year	Students gain information about career planning and job searching resources.
CL004	Senior Year	Students demonstrate advanced proficiency by identifying a position in their field, developing a cover letter, and tailoring a resume for the position. Materials are critiqued to ensure preparedness for a successful job search.
Career Services , located in Academic Hall 057, provides professional career advising to guide students in their career development.		

Career Opportunities

- Production manager
- Manufacturing engineer
- Engineering technician
- Quality engineer
- Product/process engineer
- Industrial engineer
- Plant engineer
- Engineering applications analyst

Options with Engineering Technology

Students who choose the mechanical and manufacturing systems option are required to take the Society of Manufacturing Engineers (SME) certification, Certified Manufacturing Technologist (CMfgT). Certification through SME's Manufacturing Engineering Certification Institute (MECI/SME) is a program of professional documentation and recognition of an individual's manufacturing-related knowledge, skills, and capabilities. By becoming certified, you join an elite group of manufacturing professionals who have documented their manufacturing skills and knowledge.

Other certifications available after graduation and relevant work experience include:

- Certified Manufacturing Engineer (CMfgE)
- Certified Enterprise Integrator (CEI)
- Certified Engineering Manager (CEM)

Engineering Technology: Mechanical & Manufacturing Systems Option

Bachelor of Science (BS)

This is a guide based on the 2014-2015 Undergraduate Bulletin and is subject to change. The time it takes to earn a degree will vary based on several factors such as dual enrollment, remediation, and summer enrollment. Students will meet with an academic advisor each semester and use DegreeWorks to monitor their individual progress.

CURRICULUM CHECKLIST

Engineering Technology: Mechanical & Manufacturing Option – 101 hours

- ___ CH181 Basic Principles of Chemistry (5)
- ___ ET160 Basic Electricity and Electronics (3)
- ___ ET304 Introduction to PLCs (3)
- ___ IM102 Technical Communications (3)
- ___ IM301 Industrial Safety Supervision (3)
- ___ IM311 Statistical Process Control (3)
- ___ MA133 Trigonometry (3)
- ___ MA134 College Algebra (3)
- ___ MA140 Analytic Geometry & Calculus I (5)
- ___ MA144 Integral Calculus & Differential Equations (5)
- ___ MA354 Computer Aided Manufacturing (3)
- ___ MA221 Solid Modeling and Rapid Prototyping (3)
- ___ MN120 Fundamentals of Engineering Design Processes (3)
- ___ MN170 Engineering Materials and Testing (3)
- ___ MN203 Industrial Materials and Processes I (3)
- ___ MN219 Statics and Strengths of Materials (3)
- ___ MN 220 Engineering Economic Analysis (3)
- ___ MN 260 Technical Computer Programming Applications (3)
- ___ MN304 Industrial Materials & Processes II (3)
- ___ MN324 Design Modeling & Processes (3)
- ___ MN350 Machine Design (3)
- ___ MN 356 Robotic Fundamentals (3)
- ___ MN 383 Fluid Power (3)
- ___ MN402 Plastics & Processes (3)
- ___ MN 412 Advanced Manufacturing Systems (3)
- ___ MN 416 Manufacturing Seminar (1)
- ___ PH120 Introductory Physics I (5)
- ___ PH121 Introductory Physics II (5)
- ___ SW207 Understanding Cultural & Social Diversity (3)
- ___ UI319 Science, Technology, & Society (3)
- ___ UI 410 Manufacturing Research (3)

University Studies Requirements (not already listed above):

UI100 First Year Seminar, EN100 English Composition, Artistic Expression, Written Expression, Oral Expression, Literary Expression, Behavioral Systems, Living Systems, Development of a Major Civilization, Political Systems, and one IU/UI3XX

SAMPLE FOUR-YEAR PLAN

Engineering Technology:

Mechanical & Manufacturing Systems Option

Requirements for the 2014-2015 Undergraduate Bulletin

▶	Fall Semester		Spring Semester	
	Course #	Hrs	Course #	Hrs
FIRST YEAR	UI100	3	IM102	3
	EN100	3	MA140	5
	CH181/081/001	5	MN170	3
	MA133	3	PH120	5
	MA134	3		
	Total	17	Total	16
SECOND YEAR	ET160	3	IM301	3
	MA144	5	MN219	3
	MN203	3	MN221	3
	MN120	3	MN260	3
	PH121	3	MN304	3
	Total	17	Total	15
THIRD YEAR	IM311	3	ET304	3
	MN324	3	MN220	3
	MN354	3	MN350	3
	MN383	3	SW207	3
	Artistic Expression	3	UI319	3
	Written Expression	3	Oral Expression	3
	Total	18	Total	18
FOURTH YEAR	MN356	3	MN412	3
	MN402	3	MN416	3
	Behavioral Systems	3	UI410	3
	Literary Expression	3	Dev of a Major Civilization	3
	Political Systems	3	Living Systems	3
			IU/UI3XX	3
	Total	15	Total	18

Degree requirements for all students: a minimum of 120 credit hours, completion of University Studies program, career proficiencies (CL001-004), Writing Proficiency Exam (WP003), and completion of the Measure of Academic Proficiency and Progress (MAPP) at the freshman and senior levels.

Refer to the Undergraduate Bulletin or DegreeWorks for additional graduation requirements (i.e., minimum GPA and course work) for your program of study.
