Athletic Training

The Athletic Training Education Program (ATEP) is committed to providing both academic and clinical education for athletic training majors. The ATEP believes that a student's clinical experiences should supplement a challenging athletic training core curriculum. The core curriculum is based on the required subject matter meeting Commission on Accreditation of Athletic Training Education (CAATE) Standards and competencies set forth by the National Athletic Trainers' Association (NATA).

Faculty in athletic training foster an open learning environment in the classroom and in clinical settings. Our philosophy is to instill a strong ethical and moral ideology that encourages professionalism and personal growth. The program exposes students to various allied health professions and encourages students to pursue continued education and research.

Athletic Training students will...
- Work alongside professionals in the field with an actual patient population.
- Be prepared for the Board of Certification exam. Southeast Missouri State University ATEP has a 78% first time pass rate.
- Demonstrate an understanding of injury prevention, clinical evaluation and diagnosis, emergency care, treatment and rehabilitation, administration, and organization.
- Have the opportunity to attend state and national conferences for the profession of athletic training.
- Work with the most up-to-date therapeutic modalities and rehabilitation equipment in both laboratory and clinical settings.
