

Healthcare Management: Informatics Option

Bachelor of Science (BS)

Informatics Option

The U.S. Bureau of Labor Statistics (BLS) reported wage and salary employment in the medical and health services management category is projected to grow 23 percent between 2012 and 2022. This growth rate is much faster than other industries. While many of these jobs are for practitioners, nurses, and allied health professionals, many others have duties that do not include hands-on patient care: for example, marketing, human resources, finance, and administration positions. This degree will help fulfill the need for non-clinical healthcare employees, and is also appropriate for practitioners who desire to move up in clinical management or out of direct patient care into a support role.

The Informatics option focuses on the critical areas data management and reporting. This program is focused on the end-user and the ability to report and analyze data.

Healthcare Management students will...

- Interact with qualified, award winning faculty in a small class environment.
- Study in Robert A. Dempster Hall, an efficient and beautiful business building with a look and feel of a corporate environment.
- Participate in practicums and internships designed to provide real world experience in healthcare organizations.

Career Planning

Career preparation is part of the mission of Southeast. In fact, more than 90% of Southeast students participate in internships, clinical opportunities, student teaching, research assistantships, and study abroad.

Professional career counselors are available for all students. The Office of Career Services in Academic Hall 057 can provide students with professional career counseling, resume critiques, practice interviews, job search strategies, career events, networking opportunities, and more.

Currently, 98% of Harrison College of Business graduates find employment within a year of graduation. A St. Louis Outreach Office, located in Chesterfield, Missouri, provides career exploration assistance, resume critiques, interview tips, job search strategies and more.

Demonstrated Career Proficiency is a Requirement of all Southeast Students		
CL001/CL002	First Semester	Complete the FOCUS2 assessment and develop a Career Action Plan.
CL003	Junior Year	Students gain information about career planning and job searching resources.
CL004	Senior Year	Students demonstrate advanced proficiency by identifying a position in their field, developing a cover letter, and tailoring a resume for the position. Materials are critiqued to ensure preparedness for a successful job search.

Potential Internship and Employment Opportunities

- Hospitals
- Insurance Companies
- Medical Office Practices
- Government Agencies
- Home Health Care
- Counseling Centers
- Medical Practice Management
- Risk Management
- Healthcare Technology Companies

Special Options for Healthcare Management Majors

- This program of study is also available as an online program.
- Up to 12 hours of 500 level courses may be dual-transcripted with the MS in Healthcare Management.

Healthcare Management: Informatics Option

Bachelor of Science (BS)

This is a guide based on the 2015-2016 Undergraduate Bulletin and is subject to change. The time it takes to earn a degree will vary based on several factors such as dual enrollment, remediation, and summer enrollment. Students will meet with an academic advisor each semester and use DegreeWorks to monitor their individual progress.

CURRICULUM CHECKLIST

Healthcare Management: Informatics Option - 50 hours required – No minor required

- ___ EC 585 Healthcare Economics (3)
- ___ HA 300 Introduction to Healthcare Management (3)
