

Health Management: Exercise Science Option

Bachelor of Science (BS)

Exercise Science Option

The exercise science option of health management degree designed around the knowledge, skills, and competencies of the American College of Sports Medicine, which is the preeminent professional organization for exercise physiologists, sports medicine professionals, and fitness workers. The certifications offered by this organization are the gold standard in the field. The curriculum prepares students to pass the American College of Sports Medicine's Health Fitness Specialist Certification.

Students are not taught how to exercise, but rather how to apply the physiological and mechanical principles learned in the classroom to clients of varying health status and fitness levels. One way in which this is done is through an array of experiential learning opportunities. When students complete the exercise science program they have had ample opportunities to apply classroom knowledge and in the laboratory setting and in the field. Faculty monitor the students' progress along the way.

Exercise Science students will...

- Have the opportunity to gain hundreds of hours of real world experience prior to graduation.
- Gain a wide variety of exercise testing and exercise programming skills.
- Learn to apply basic scientific principles to a diverse clientele.
- Learn to address client's specific needs in the development of an exercise regimen.

Career Planning

Career preparation is part of the mission of Southeast. In fact, more than 90% of Southeast students participate in internships, clinical opportunities, student teaching, research assistantships, and study abroad.

Students complete a 480 clock hour internship at the completion of the degree program. The internship provides not only an invaluable work experience but also often leads to employment.

Professional career counselors are available for all students. The Office of Career Services in Academic Hall 057 can provide students with professional career counseling, resume critiques, practice interviews, job search strategies, career events, networking opportunities, and more.

Demonstrated Career Proficiency is a Requirement of all Southeast Students		
CL001/CL002	First Semester	Complete the FOCUS2 assessment and develop a Career Action Plan.
CL003	Junior Year	Students gain information about career planning and job searching resources.
CL004	Senior Year	Students demonstrate advanced proficiency by identifying a position in their field, developing a cover letter, and tailoring a resume for the position. Materials are critiqued to ensure preparedness for a successful job search.
