

Human Environmental Studies: Interior Design Option

Bachelor of Science (BS)

Interior Design Option

Interior designers apply artistic and technical solutions that promote health, safety and welfare in the building environment. The program offers instruction for students who wish to practice professional residential or commercial interior design.

Completion of this degree enables graduates to complete two certifications.

1. National Kitchen & Bath Association (NKBA)
Because we are accredited by the NKBA, graduates are eligible to take the certification exam, and they also are exempted from the normal two-year experience requirement.
2. National Council for Interior Design Qualification (NCIDQ)
Graduates are eligible to take the NCIDQ certification exam after two years of full-time experience supervised by a NCIDQ certificate holder.

Interior Design students will...

- Interact with qualified faculty in a small class environment.
- Be prepared to take the AKBD and NCIDQ national certification exams.
- Have access to an experiential learning lab with iPads, group study workstations, and access to latest technology and software.
- Have the opportunity to complete work on real design projects with actual clients.

Career Planning

Career preparation is part of the mission of Southeast. In fact, more than 90% of Southeast students participate in internships, clinical opportunities, student teaching, research assistantships, and study abroad.

Currently, 90% of the 2013 Interior Design Option graduates found employment within six months of graduation.

Professional career counselors are available for all students. The Office of Career Services in Academic Hall 057 can provide students with professional career counseling, resume critiques, practice interviews, job search strategies, career events, networking opportunities, and more.

Demonstrated Career Proficiency is a Requirement of all Southeast Students		
CL001/CL002	First Semester	Complete the FOCUS2 assessment and develop a Career Action Plan.
CL003	Junior Year	Students gain information about career planning and job searching resources.
CL004	Senior Year	Students demonstrate advanced proficiency by identifying a position in their field, developing a cover letter, and tailoring a resume for the position. Materials are critiqued to ensure preparedness for a successful job search.
