

Bachelor of Science (BS)

Interdisciplinary Studies

Southeast's bachelor of interdisciplinary studies degree allows you to individually structure your degree program to fit your interests and goals, without requiring you to choose a major in a specific field. You can build a degree with your own area of focus.

For the major in Interdisciplinary Studies (IDS), students develop an individual study plan tailored to their career and professional goals. IDS students select between 2-4 areas of emphasis from the approved list and then design their curriculum with advisor assistance. Areas of emphasis currently include: Business (subsets available in Accounting, Business Administration, Management, or Marketing), Criminal Justice, Economics, English Literature, ESL, History, Industrial Engineering and Technology, Information Systems Mass Media, Mathematics and Psychology. Additional areas of emphasis may be available depending on prior credits.

Interdisciplinary Studies students will...

- Complete the University Studies program as part of a foundational educational component of their degree
- Choose major and upper-division courses that support their professional and personal goals
- Prepare themselves for career advancement or graduate school through successfully completing a curriculum focused on demonstrating college-level competencies

Career Planning

Career preparation is part of the mission of Southeast. In fact, more than 90% of Southeast students participate in internships, clinical opportunities, student teaching, research assistantships, and study abroad.

Professional career counselors are available for all students. The Office of Career Services in Academic Hall 057 can provide students with professional career counseling, resume critiques, practice interviews, job search strategies, career events, networking opportunities, and more.

Demonstrated Career Proficiency is a Requirement of all Southeast Students		
CL001/CL002	First Semester	Complete the FOCUS2 assessment and develop a Career Action Plan.
CL003	Junior Year	Students gain information about career planning and job searching resources.
CL004	Senior Year	Students demonstrate advanced proficiency by identifying a position in their field, developing a cover letter, and tailoring a resume for the position. Materials are critiqued to ensure preparedness for a successful job search.

Why Consider Interdisciplinary Studies?

The Bachelor of Interdisciplinary Studies degree is ideal for degree-seekers with one or more of the following characteristics:

- Students with specific interests in a combination of the approved areas of emphasis
- Students with fewer than 75 credit hours
- Students interested primarily in earning a four-year degree, without a requirement for, or interest in, a specific major
- Students seeking a degree for personal enrichment
- Students willing to create their own degree plan and usher it through the approval process

Special Options with Major

This program of study is available as an online program and to students at the regional campuses (Kennett, Malden, and Sikeston). Other areas of emphasis may be available depending on your prior credits and the campus from which you will be taking courses at Southeast.
