

Chemistry: ACS Certified Chemistry Option

Bachelor of Science (BS)

ACS Certified Chemistry Option

Chemistry is the branch of natural science that deals with the properties and classification of matter, the changes that matter undergoes, and the energy associated with these changes. Research by chemists increases our knowledge about chemicals and their roles in the natural world, and has led to the discovery and development of new and improved products and advances in medicine, agriculture, food processing and other fields. Those interested in a rewarding career that provides financial security, promotes self-respect, and offers the opportunity to work on stimulating and breakthrough projects should consider a career in chemistry.

This degree option satisfies the requirements for certification to the American Chemical Society (ACS), and as such represents the minimum undergraduate preparation recommended by the ACS for the professional chemist. The chemistry curriculum prepares students for careers as professional chemists and provides an excellent basis for graduate and professional areas of study.

Chemistry students will...

- Gain a rigorous foundation in chemistry, science and math in the context of a broad university education.
- Interact closely with experienced faculty who are recognized for their writing, training, professional affiliations, and expertise.
- Study in the state-of-the-art, first-rate learning environment provided by the newly renovated Magill Hall of Science.
- Have opportunities to pursue research and scholarship that help develop independent thinking and problem solving.
- Have employment opportunities within the department that can provide chemistry-related work experience prior to graduation.

Career Planning

Career preparation is part of the mission of Southeast. In fact, more than 90% of Southeast students participate in internships, clinical opportunities, student teaching, research assistantships, and study abroad.

Approximately 35-40% of chemistry graduates pursue graduate or professional programs of study immediately upon graduation. The others pursue employment opportunities in chemistry or other fields. Employment opportunities for chemists exist in a variety of fields, such as biotechnology, chemical manufacturing, environmental monitoring and compliance, industrial hygiene, materials science, pharmaceutical manufacturing, product development, quality control, sales (pharmaceuticals, chemicals, instruments), and technical management.

Professional career counselors are available for all students. The Office of Career Services in Academic Hall 057 can provide students with professional career counseling, resume critiques, practice interviews, job search strategies, career events, networking opportunities, and more.

Demonstrated Career Proficiency is a Requirement of all Southeast Students		
CL001/CL002	First Semester	Complete the FOCUS2 assessment and develop a Career Action Plan.
CL003	Junior Year	Students gain information about career planning and job searching resources.
CL004	Senior Year	Students demonstrate advanced proficiency by identifying a position in their field, developing a cover letter, and tailoring a resume for the position. Materials are critiqued to ensure preparedness for a successful job search.

Internships, Employment Opportunities, Graduate Schools and Programs of Recent Graduates

- Biokyowa
- Buzzi Unicem USA
- Eli Lilly
- Exxon Mobil
- Monsanto
- Pharmacia (currently part of Pfizer)
- PPG Industries
- Proctor and Gamble
- Sigma-Aldrich
- Missouri State Highway Patrol Crime laboratory
- Indiana University
- John Hopkins University
- Penn State University
- Purdue University
- Southern Illinois University (School of Medicine)
- Texas A & M
- University of Illinois (School of Medicine, Graduate School)
- University of Missouri – Columbia (School of Medicine, Graduate School)
- University of Notre Dame
- University of Wisconsin – Madison
- Washington University
- Numerous other graduate/professional programs of study and employers

Chemistry: ACS Certified Chemistry Option

Bachelor of Science (BS)

This is a guide based on the 2016-2017 Undergraduate Bulletin and is subject to change. The time it takes to earn a degree will vary based on several factors such as dual enrollment, remediation, and summer enrollment. Students will meet with an academic advisor each semester and use DegreeWorks to monitor their individual progress.

CURRICULUM CHECKLIST

"Critical Courses" are italicized and bolded. Data shows that students who have completed this course in the first two years and have earned the noted grade are most likely to complete this program of study.

Required Courses:

- ___ **CH185** *General Chemistry (5)*
- ___ **CH186** *Foundations of Inorganic Chemistry (3)*
- ___ CH187 Inorganic Chemistry & Qualitative Analysis Laboratory (2)
- ___ CH271 Foundations of Analytical Chemistry (5)
- ___ CH311 Foundations of Physical Chemistry (4)
- ___ CH312 Advanced Physical Chemistry (3)
- ___ CH313 Physical Chemistry Laboratory (3)
- ___ **CH341** *Foundations of Organic Chemistry (4)*
- ___ CH342 Organic Chemistry Laboratory I (1)
- ___ CH343 Advanced Organic Chemistry (3)
- ___ CH344 Organic Chemistry Laboratory II (2)
- ___ CH498 Professional Presentation in Chemistry (1)
- ___ CH531 Foundations of Biochemistry (3)
- ___ OR
- ___ UI331 Foundations of Biochemistry (3)
- ___ UI443 Professional Experience in Chemistry (3)

Chemistry Electives – Choose one seven to eight hour track

Track A:

- ___ CH39X Undergraduate Research (4)
- Choose 4 hours from:
- ___ CH532/533 Advanced Biochemistry Lecture and Lab (2+2)
- ___ CH563 Advanced Inorganic Chemistry (4)
- ___ CH575 Chemical Instrumentation (4)

Track B:

- Choose two of the following to include a minimum of 3 hours of lab work:
- ___ CH420 Forensic Chemistry (4)
- ___ CH447 Advanced 1 & 2 Dimensional NMR Techniques (3)
- ___ CH450 Environmental Chemistry (3)
- ___ CH532/533 Advanced Biochemistry Lecture and Lab (2+2)
- ___ CH545 Organic Preparations and Characterization (3)
- ___ CH563 Advanced Inorganic Chemistry (4)
- ___ CH575 Chemical Instrumentation (4)

Additional Requirements:

- ___ **MA140** *Analytical Geometry and Calculus I (5)*
- ___ MA145 Analytical Geometry and Calculus II (4)
- ___ PH120/020 Introductory Physics I (5)
- ___ AND
- ___ PH121/021 Introductory Physics II (5)
- ___ OR
- ___ PH230/030 General Physics I (5)
- ___ AND
- ___ PH231/031 General Physics II (5)

Note: Completion of an experiential learning project (undergraduate research or internship) in the major is required. The departmental advisor should be consulted for information about this requirement.

University Studies Requirements (not already listed above):

UI100 First Year Seminar, EN100 English Composition, Artistic Expression, Written Expression, Oral Expression, Literary Expression, Behavioral Systems, Living Systems, Development of a Major Civilization, Economic Systems, Political Systems, Social Systems, and one IU/UI3XX*.

* Note: Two IU/UI3XX courses are required if CH531 Foundations of Biochemistry is taken rather than UI331 Foundations of Biochemistry.

SAMPLE FOUR-YEAR PLAN

	Fall Semester		Spring Semester	
	Course #	Hrs	Course #	Hrs
FIRST YEAR	UI100	3	CH186	3
	EN100	3	CH187	2
	CH185/CH085/CH005	5	MA145	4
	MA140	5	Written Expression	3
			Social Systems	3
Total	16	Total	15	
Milestone: maintain 2.0 cumulative GPA				
SECOND YEAR	CH271	5	CH343	3
	CH341	4	CH344	2
	CH342	1	PH121/021 or PH 231/031	5
	PH120/020 or PH230/230	5	Artistic Expression	3
			Oral Expression	3
Total	15	Total	16	
Milestone: maintain 2.0 cumulative GPA				
<i>(summer courses are encouraged to avoid 18 hour semesters)</i>				
THIRD YEAR	CH311	4	CH312	3
	CH313	3	UI443	3
	UI331 or CH531	3	Behavioral Systems	3
	Living Systems	3	Economic Systems	3
	Political Systems	3	Literary Expression	3
Total	16	Total	15	
Milestone: maintain 2.0 cumulative GPA				
FOURTH YEAR	Chemistry Electives	3-4	CH498	1
	IU/UI3XX	3	Chemistry Electives	4
	Develop of a Major Civ	3	Electives	9
	Electives	3-4		
	Total	12-14	Total	14
Milestone: maintain 2.0 cumulative GPA				

A "Milestone" signifies a significant stage for a student in the completion of a degree.

Degree requirements for all students: a minimum of 120 credit hours, completion of University Studies program, career proficiencies (CL001-004), Writing Proficiency Exam (WP003), and completion of the Measure of Academic Proficiency and Progress (MAPP) at the senior level.

A minimum 2.0 GPA in the major and overall are required to graduate with a BS in Chemistry degree.

Refer to the Undergraduate Bulletin or DegreeWorks for additional graduation requirements (i.e. minimum GPA and coursework) for your program of study.
