

Global Cultures & Languages: Anthropology Option

Bachelor of Arts (BA)

Anthropology Option

The anthropology option within the global cultures and languages major trains its students in the holistic study of humanity, both past and present. The program focuses on anthropological method, theory and practice with a focus on the interaction between human culture, biology and environment.

We provide training in all subfields of the discipline: sociocultural anthropology, linguistic anthropology, archaeology and biological anthropology. The academic interests of our students range from prehistoric North American archaeology to forensic anthropology and from linguistics to the anthropology of religion. The curriculum is designed to prepare students for graduate study or entry-level positions in the field.

Anthropology students will...

- Interact with qualified faculty in a small class environment.
- Have opportunities for low-cost study-abroad programs.
- Interact with native speaker exchange students.
- Be prepared for graduate studies and entry-level positions in business and industry, government, and non-profit organizations.

Career Planning

Career preparation is part of the mission of Southeast. 100% of programs offer our students an internship, study-abroad program, clinical opportunity, student teaching or research internship. Currently, the majority of Global Cultures & Languages graduates find employment within one year of graduation.

The Office of Career Services in Academic Hall 057 can provide students with professional career counseling and coaching, resume critiques, practice interviews, job search strategies, career events, networking opportunities, and more.

Demonstrated Career Proficiency is a Requirement of all Southeast Students		
CL001	First Semester	Students connect academic career planning by completing an online career assessment
CL002	Second Semester	Students learn more about resources available to enhance academic and career planning
CL003	Junior Year	Students learn about continued career planning, job search strategies, and networking
