

Bachelor of Science (BS)

Computer Information Systems

Computer information systems teaches software development in focused application areas. Computer science focuses more deeply on the scientific, engineering, and theoretical aspects of computing. The goal of both programs is the education of software developers – the people who create the software tools and systems that are used by others. The program has many course choices either for applying computing in different application areas or for specializing in different computing disciplines.

Computer information systems program offers nine tracks, five of which require a specific minor:

- Business Administration (can be completed fully online)
- Commerce
- Game Programming
- Information Assurance
- Multimedia Programming
- Networking
- Science
- Web Page Design & Multimedia Computing
- Web Programming

Computer Information Systems students will...

- Obtain a thorough understanding of the fundamental principles of computing and mathematics.
- Demonstrate fundamental software engineering skills on a non-trivial project to the satisfaction of a client.
- Demonstrate programming proficiency in a modern language.
- Be prepared to enter the workforce or be accepted into the graduate school of their choice.

Career Planning

Career preparation is part of the mission of Southeast. 100% of programs offer our students an internship, study-abroad program, clinical opportunity, student teaching or research internship.

The Office of Career Services in Academic Hall 057 can provide students with professional career counseling and coaching, resume critiques, practice interviews, job search strategies, career events, networking opportunities, and more.

Demonstrated Career Proficiency is a Requirement of all Southeast Students		
CL001	First Semester	Students connect academic career planning by completing an online career assessment
CL002	Second Semester	Students learn more about resources available to enhance academic and career planning
CL003	Junior Year	Students learn about continued career planning, job search strategies, and networking
CL004	Senior Year	Students learn about resume development, professional communication, interviewing, and transitioning to the first job from college

Internship and Employment Opportunities of Recent Graduates

- Boeing
- Garmin
- Microsoft
- A T & T
- Edward Jones
- Maritz
- Big River Telephone
- Element 74
- Vintage Software
- MedAssets

Graduate Schools and Programs of Recent Graduates

- University of Missouri
- Missouri State University
- Auburn University
- University of Illinois

Admission Requirements

A high school student interested in majoring in Computer Information Systems should complete four years of mathematics that includes trigonometry and an introduction to calculus. Four years of science, which includes both chemistry and physics is highly recommended. A strong background in English is essential.

Special Options with Computer Information Systems

This program is available as an online program, as well as to students on the main campus.

Bachelor of Science (BS)

This is a guide based on the 2017-2018 Undergraduate Bulletin and is subject to change. The time it takes to earn a degree will vary based on several factors such as the area of specialization chosen by the student, dual enrollment, remediation, and summer enrollment. Students will meet with an academic advisor each semester and use DegreeWorks to monitor their individual progress.

Computer Information Systems – 82 hours

- ___ IS003 Computer Info Systems Assessment (0)
- ___ IS130 Application Development I (3)
- ___ IS175 Computer Information Systems I (3)
- ___ IS245 Web Development & Security (3)
- ___ IS275 Computer Information Systems II (3)
- ___ IS320 Human Computer Interaction (3)
- ___ IS330 Application Development II (3)
- ___ IS340 Information Technology (3)
- ___ IS360 Mobile Application Development (3)
- ___ IS375 Database & Information Systems (3)
- ___ IS445 Systems Analysis & Design (3)
- ___ IS448 IS/IT Project Management (3)
- ___ IS465 Management Support Systems (3)
- ___ IS495 Senior Seminar (1)
- ___ IU309 Writing for Science and Technology (3)
- ___ IU315 Ethics in the Cyber World (3)
- ___ MA139 Applied Calculus (3)
- ___ MA223 Elementary Probability & Statistics (3)
- ___ UI450 Capstone Experience (3)

Choose one advising track:

- ___ Business Administration – requires Business Administration minor and 12 additional specified hours
- ___ Commerce – Required minor from specified list; 6 specified hours and 6-9 hours from specified list of courses
- ___ Game Programming – requires 33 specified hours
- ___ Information Assurance – requires Cybersecurity minor and 6 hour from specified list of courses
- ___ Multimedia Programming – requires 15 specified hours and 12 hours from specified list
- ___ Networking – requires Computer Networking minor and 18 specified hours
- ___ Science – required minor from specified list and additional 10-15 hours from specified list of courses
- ___ Web Page Design & Multimedia Computing – requires 12 specified hours and additional 15 hours from specified list of courses
- ___ Web Programming – requires 30 specified hours

University Studies Requirements (not already listed above):

UI100 First Year Seminar, EN100 English Composition, Artistic Expression, Written Expression, Oral Expression, Literary Expression, Behavioral Systems, Living Systems, Physical Systems, Development of a Major Civilization, Economic Systems, Political Systems, and Social Systems

If you have dual credit or transfer credit, please visit our transfer course equivalencies guide at semo.edu/transfercredit.
