

Environmental Science: Biology Option

Bachelor of Science (BS)

Biology Option

Environmental quality is fundamental to our quality of life. Environmental science seeks to preserve and improve our environment for ourselves and future generations.

Environmental science is an inter-departmental, interdisciplinary degree program based in the College of Science, Technology and Agriculture. It is a diverse, hybrid field of study that is based upon strong training in the natural sciences, mathematics, law, economics, and health.

The curriculum for the B.S. in environmental science consists of a core of approximately 60 credit hours and 20-30 additional credit hours in one of six degree option areas. All students participate in internships and/or research. This education and training provides multiple opportunities for graduates in the growing environmental field.

Environmental Science students will...

- Complete a science-intensive interdisciplinary curriculum providing a foundation to address environmental issues of today and the future.
- Study in modern classrooms and laboratories in the remodeled Magill Hall of Science.
- Gain valuable professional and personal experiences through internships and/or research.
- Be well prepared to enter career positions in the environmental field or to pursue post-baccalaureate education programs.
- Develop competencies to become professional and community leaders in efforts to develop a sustainable society.

Career Planning

Approximately 70% of environmental science graduates directly enter the work force. All graduates seeking employment in the environmental field have obtained a relevant career position.

Approximately 30% of environmental science graduates continue their education in graduate programs in the sciences, law school, MBA programs, or medical school.

Each student works individually with a faculty advisor in their area. The advisor assists students with curricular planning and development of career goals.

The Office of Career Services in Academic Hall 057 can provide students with professional career counseling and coaching, resume critiques, practice interviews, job search strategies, career events, networking opportunities, and more.

Demonstrated Career Proficiency is a Requirement of all Southeast Students

CL001	First Semester	Students connect academic career planning by completing an online career assessment
CL002	Second Semester	Students learn more about resources available to enhance academic and career planning
CL003	Junior Year	Students learn about continued career planning, job search strategies, and networking
CL004	Senior Year	Students learn about resume development, professional communication, interviewing, and transitioning to the first job from college

Environmental Science: Biology Option

Bachelor of Science (BS)

This is a guide based on the 2017-2018 Undergraduate Bulletin and is subject to change. The time it takes to earn a degree will vary based on several factors such as dual enrollment, remediation, and summer enrollment. Students will meet with an academic advisor each semester and use DegreeWorks to monitor their individual progress.

CURRICULUM CHECKLIST

Environmental Science: Biology Option – 65-69 Hours

- ___ BI163 Evolution & Ecology (4)
- ___ BI332 General Ecology (3)
- ___ BS105 Environmental Biology (3)
- ___ CH185/085/005 General Chemistry (5)
- ___ CH186 Foundations of Inorganic Chemistry (3)
- ___ EC344 Environmental Economics (3)
- ___ EN190 Writing & the Environment (3)
- ___ EV201 Environmental Science Seminar I (1)
- ___ EV400 Health Physics (3)
- ___ EV401 Environmental Science Seminar II (1)
- ___ EV454 Risk Assessment Applications (3)
- ___ EV481-483 Internship (3)
OR
- ___ EV491-493 Research (3)
- ___ EV xxx EV Course (300-500 level) (3)
- ___ GO110 Physical Geology (3)
- ___ GO365 Environmental Soil Science (3)
- ___ GO460 Environmental Hydrology (3)
- ___ MA139 Applied Calculus (3)
OR
- ___ MA140 Analytical Geometry & Calculus I (5)
- ___ MA223 Elementary Probability & Statistics (3)
- ___ PH106 Physical Concepts (3)
OR
- ___ PH120 Introductory Physics I (5)
- ___ UI429 Environmental Ethics (3)

Choose 6 Hours From:

- ___ UI331 Foundations of Biochemistry (3)
- ___ UI360 Recycling & Waste Management (3)

*EC101 highly recommended by department

A "Milestone" signifies a significant stage for a student in the completion of a degree.

Degree requirements for all students: a minimum of 120 credit hours, completion of University Studies program, completion of 39 senior division hours (300-599), career proficiencies (CL001-004), Writing Proficiency Exam (WP003), and completion of the Measure of Academic Proficiency and Progress (MAPP) at the senior level. Refer to the Undergraduate Bulletin or Degree Works for additional graduation requirements for your program.

A minimum 2.00 GPA in the major and overall are required to graduate with a BS in Environmental Science degree.
