

Computer technology is an Associate of Applied Science (AAS.) Traditionally, AAS degrees are technical in nature with some general education requirements. If your interest is in computer networks and telecommunication systems; computer numerical control; automated machine operations; computer animation and graphics; or multimedia, computer technology might be for you. Upon completion, all of these options transition into bachelor degrees.

**Technical Computer Graphics**

Technical computer graphics provides students with a background in the technical communication industry, including 2-D and 3-D design (Web, video editing, multimedia, animation, graphic design, and photography).

**Career Planning**

Career preparation is part of the mission of Southeast. 100% of programs offer our students an internship, study-abroad program, clinical opportunity, student teaching or research internship.

The Office of Career Services in Academic Hall 057 can provide students with professional career counseling and coaching, resume critiques, practice interviews, job search strategies, career events, networking opportunities, and more.

Demonstrated Career Proficiency is a Requirement of all Southeast Students		
CL001	First Semester	Students connect academic career planning by completing an online career assessment
CL002	Second Semester	Students learn more about resources available to enhance academic and career planning
CL003	Junior Year	Students learn about continued career planning, job search strategies, and networking
CL004	Senior Year	Students learn about resume development, professional communication, interviewing, and transitioning to the first job from college

**Career Opportunities**

- Web Designer
- Interactive Developer
- Graphic Designer
- Design Supervisor

**Professional and Student Organizations**

**Student Photography Association**

The Student Photography Association provides members the opportunity to work with photography in digital and film formats. Film processes include developing and printing by toning prints, using halo chrome and liquid light, as well as other darkroom techniques. Members organize field trips and outings for additional experience.

**AAS to BS Options**

The following Bachelor of Science degree programs can be easily transitioned into after completion of the AAS degree:

- Technology Management: Computer Multimedia Graphics Option
- Commercial Photography

Other bachelor degree programs within the Department of Polytechnic Studies might be pursued in conjunction with this AAS degree; however, it may be more difficult. See an advisor for more details.

**Southeast A+ Scholarship**

*This program is eligible for the Southeast A+ Scholarship.*

Learn more about the scholarship at [www.semo.edu/aplus](http://www.semo.edu/aplus).

A Bachelor of Science degree program within the Department of Polytechnic Studies can be pursued in conjunction with the AAS degree and utilize the Southeast A+ Scholarship. Depending on the major, some courses are suggested sooner in the program (to keep a student progressing in their BS degree on time) that are not covered by the Southeast A+ Scholarship. This means that a student will have to pay out-of-pocket for such courses (such as UI100). Additionally, some programs can be more difficult to complete while using the Southeast A+ Scholarship because of the nature of the coursework.

This is a guide based on the 2017-2018 Undergraduate Bulletin and is subject to change. The time it takes to earn a degree will vary based on several factors such as dual enrollment, remediation, and summer enrollment. Students will meet with an academic advisor each semester and use DegreeWorks to monitor their individual progress.
