

Technology Management: Facilities Management & Sustainability Option**Bachelor of Science (BS)****Facilities Management & Sustainability Option**

Technology management is a field of study designed to prepare technical and/or management-oriented professionals for employment in business, industry, education, and government. Technology management is primarily involved with the management, operation, and maintenance of complex technological systems while engineering and engineering technology are primarily involved with the design and installation of these systems.

**Facilities management & sustainability students will...**

- Be prepared to manage facilities, people, and the organizational strategies within a sustainable and professional environment.
- Be prepared for interaction with other professionals such as architects, engineers, contractors, and construction and maintenance personnel.
- Learn how to plan, design, and manage facilities.
- Learn about duties falling into several categories relating to the integration of operations, maintenance, project management, quality assessment, technology, people, and sustainability as they relate to facility construction and operation.

Career Planning

Career preparation is part of the mission of Southeast. 100% of programs offer our students an internship, study-abroad program, clinical opportunity, student teaching or research internship.

The Office of Career Services in Academic Hall 057 can provide students with professional career counseling and coaching, resume critiques, practice interviews, job search strategies, career events, networking opportunities, and more.

Demonstrated Career Proficiency is a Requirement of all Southeast Students		
CL001	First Semester	Students connect academic career planning by completing an online career assessment
CL002	Second Semester	Students learn more about resources available to enhance academic and career planning
CL003	Junior Year	Students learn about continued career planning, job search strategies, and networking
CL004	Senior Year	Students learn about resume development, professional communication, interviewing, and transitioning to the first job from college

Career Opportunities

- Facilities Manager
- Facilities Project Manager
- Facilities Operations Specialist
- Facilities Coordinator
- Facility Planner
- Facilities Director
- Facilities Maintenance Manager
- Facilities Administrator
- Supervisor of Building & Grounds
- Property Manager

Professional and Student Organizations

The Construction Management Organization (CMo) offers professional development, social interaction, and leadership opportunities to the students in the construction management and design program of the Department of Industrial and Engineering Technology. CMo also sponsors a team to a student competition in the fall.

The ASHE introduces students to the challenging profession of healthcare facilities management. The goal is to network students with hospitals and healthcare providers through training, meetings and activities. The desired outcome is to identify trends, needs, training, and growth opportunities for both the students and the healthcare organizations.

Special Options with Technology Management

Southeast Missouri State University offers an accelerated master's degree for current Southeast technology management students. For more information, please see the MS: Technology Management degree map.

Southeast also offers a Master of Science in Technology Management.
