

Health Management: Exercise Science Option

Bachelor of Science (BS)

Exercise Science Option

The exercise science option of health management degree designed around the knowledge, skills, and competencies of the American College of Sports Medicine, which is the preeminent professional organization for exercise physiologists, sports medicine professionals, and fitness workers. The certifications offered by this organization are the gold standard in the field. The curriculum prepares students to pass the American College of Sports Medicine's Health Fitness Specialist Certification.

Students are not taught how to exercise, but rather how to apply the physiological and mechanical principles learned in the classroom to clients of varying health status and fitness levels. One way in which this is done is through an array of experiential learning opportunities. When students complete the exercise science program they have had ample opportunities to apply classroom knowledge and in the laboratory setting and in the field. Faculty monitor the students' progress along the way.

Exercise Science students will...

- Have the opportunity to gain hundreds of hours of real world experience prior to graduation.
- Gain a wide variety of exercise testing and exercise programming skills.
- Learn to apply basic scientific principles to a diverse clientele.
- Learn to address client's specific needs in the development of an exercise regimen.

Career Planning

Career preparation is part of the mission of Southeast. 100% of programs offer our students an internship, study-abroad program, clinical opportunity, student teaching or research internship.

Students complete a 480 clock hour internship at the completion of the degree program. The internship provides not only an invaluable work experience but also often leads to employment.

The Office of Career Services in Academic Hall 057 can provide students with professional career counseling and coaching, resume critiques, practice interviews, job search strategies, career events, networking opportunities, and more.
