

Bachelor of Science (BS)**Economics**

Economics is the study of how to evaluate problems and make critical decisions. Economics students learn to locate and use important data resources such as those found at the Bureau of Economic Analysis, Bureau of the Census and Bureau of Labor Statistics. Students learn to use this information to develop a framework to analyze and solve “real-world” problems, conduct mathematical and statistical analysis, and effectively communicate.

**Economics students will...**

- Interact with qualified, award winning faculty in a small class environment.
- Study in *Robert A. Dempster Hall*, an efficient and beautiful business building with a look and feel of a corporate environment.
- Have access to more than 30 study-abroad programs offered with the Harrison College of Business.
- Have access to Southeast’s *Center for Economic and Business Research*, which provides undergraduate students with experience conducting and publishing economics research. Operated by Southeast faculty and advised by professionals in the industry, the center develops research, publishes a quarterly newsletter and hosts meetings to promote economic development in the state of Missouri. The center also performs economic research on a contract basis.

Career Planning

Currently, 98 percent of Harrison College of Business graduates find employment within a year of graduation.

Career preparation is part of the mission of Southeast. 100% of programs offer our students an internship, study-abroad program, clinical opportunity, student teaching or research internship.

The Office of Career Services in Academic Hall 057 can provide students with professional career counseling and coaching, resume critiques, practice interviews, job search strategies, career events, networking opportunities, and more.
