Nursing

Bachelor of Science in Nursing (BSN), pre-licensure

The Department of Nursing offers a Bachelor of Science in Nursing (BSN). The BSN is approved by the Missouri State Board of Nursing and accredited by the Commission on Collegiate Nursing Education (CCNE).

After passing the national examination, graduates of the BSN program are eligible to apply for licensure as registered professional nurses in all 50 states and the U.S. territories.

Becoming Career Ready...

Nursing students are taught in theory and clinical courses by experienced faculty with a minimum of a master's degree in nursing; approximately 50% of the faculty possess doctoral degrees.

Graduates of the nursing program work in private practice healthcare and hospital settings, in schools, and state and government areas. Examples of job titles include nurse, nurse case manager, insurance firm nurse, school nurse and nurse educator.

Students experience clinical practice in every specialty area in nursing, working with faculty and clinical agency staff.

Nursing majors enjoy faculty-to-student ratios of 1:8-9 in the first year of nursing courses and 1:10-11 in the second year of nursing.

During the final semester, students receive a full semester of targeted preparation for the NCLEX, the licensure examination required after graduation. The 12-year first-time passage rate for the program is over 90%.

Graduates are fully prepared for nursing practice in any area of nursing, and also are eligible to apply to any graduate program in nursing.

100% of Southeast programs offer real-world experience.

Beginning in the junior year, nursing internships and clinical opportunities give students hands-on experience in major medical centers, primary care centers, schools, home health agencies, and long-term care facilities. Cape Girardeau, Missouri is a major medical hub offering a variety of opportunities to nursing students.

On the day of graduation, approximately 70% of nursing students are employed. The remainder report employment by the time they take the licensure examination, six-eight weeks after graduation.

The path to a successful career starts with you! You can maximize your career development by working closely with Career Services and Southeast faculty – they are here to help you connect your passions, interests and skills to jobs and opportunities in the field. Career Services provides professional career counseling and coaching, resume critiques, practice interviews, job search strategies, career events, networking opportunities and more.
