Bachelor of Science in Education (BSED)

Elementary Education

The Elementary Education program of study prepares future teachers to work with students in elementary school settings. Elementary Education students have the opportunity to participate in Tomorrow's Teachers Learning Community, where they take courses and live in a residential hall with other Elementary Education majors. Students also receive support in preparation for the Missouri General Education Assessment, which is required for admission to the Educator Preparation Program. We also provide our future educators the tools to learn to use and integrate instructional technology across our curriculum. Join our EDvolution of future educators!

Becoming Career Ready...

/ Students will be certified to teach grades 1 – 6 upon successful completion of this program and licensure exams.

/ Students integrate technology into the curriculum with the EDvolution one-to-one instructional technology program.

/ Students have the opportunity for student teaching abroad, including our partnership with Eagles College in Iquique, Chile.

/ Elementary Education majors have the opportunity to choose elective courses in areas of interest, such as autism, working with English language learners, special education or working with families.

/ BS Ed. students have opportunities for leadership in numerous student organizations.

/ Full-time faculty with experience in the classroom are the primary instructors of the curriculum for elementary education majors.

/ The state of Missouri has high expectations for future educators. Students must maintain a 2.75 cumulative GPA and a 3.0 GPA in both the area of content expertise and pedagogy courses. In addition, students must pass the MO Content Exam and the MO Educator Evaluation System for recommendation for licensure. Students must also fulfill other assessments such as a dispositions profile and be cleared through an FBI background check.

/ 100% of Southeast programs offer a real-world experience. Elementary Education students experience this through multiple field experiences in local classrooms. In addition, there are student teaching opportunities abroad.

/ The path to a successful career starts with you! You can maximize your career development by working closely with Career Services and Southeast faculty – they are here to help you connect your passions, interests and skills to jobs and opportunities in the field. Career Services provides professional career counseling and coaching, resume critiques, practice interviews, job search strategies, career events, networking opportunities and more.
