Nutrition

Bachelor of Science (BS)

Dietitians apply knowledge of food and nutrition to health. They prevent or treat disease through diet. The four year ACEND-accredited program is a major component in the process to obtain the educational background and experiences required to become a registered dietitian. After graduation, a 1200-hour internship and successful completion of a national credentialing exam are required.

Students in dietetics receive hands-on experience and provide community service by delivering Meals-on-Wheels, participating in health fairs, working in university food service, or in local hospitals working alongside registered dietitians.

Accreditation is granted by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of Academy of Nutrition and Dietetics, 120 South Riverside Plaza, Suite 2000, Chicago, IL 60606-6995, (312) 899-0040.

Becoming Career Ready...

/ BS in Dietetics students interact with qualified, dedicated faculty in a small class setting.

/ Dietetics graduates work in the food service industry, hospital settings, school food service, wellness facilities, and county health departments. Examples of job titles include dietitian, food product developer, community nutrition educator, catering manager, and sports nutrition consultant.

/ Students in the program develop a strong foundation in evidence-based nutrition principles and practices.

/ Dietetics majors have hands-on experience in a variety of settings including clinical nutrition services, food service management and community nutrition.

/ Students have the opportunity to network with professionals in the field of dietetics throughout the program.

/ 100% of Southeast programs offer a real-world experience. Dietetics students gain this experience through internship opportunities. Approximately 90% of students seeking Dietetic Internships are accepted into ACEND approved programs.

/ The path to a successful career starts with YOU! You can maximize your career development by working closely with Career Services and Southeast faculty – they are here to help you connect your passions, interests, and skills to jobs and opportunities in the field. Career Services provides professional career counseling and coaching, resume critiques, practice interviews, job search strategies, career events, networking opportunities and more.

Bachelor of Science (BS)

Nutrition

This is a guide based on the 2020-2021 Undergraduate Bulletin and is subject to change. The time it takes to earn a degree will vary based on several factors such as dual enrollment, remediation, and summer enrollment. Students will meet with an academic advisor each semester and use Degree Works to monitor their individual progress.

Degree requirements for all students: a minimum of 120 credit hours, completion of the General Education program, and completion of 39 senior division hours (300-599). Refer to the Undergraduate Bulletin or Degree Works for additional graduation requirements for your program.

In order to graduate with a Bachelor of Science degree with a major in Nutrition and to receive the Verification Statement needed to apply to Dietetic Internships, a minimum overall GPA of 3.0 is required. A minimum GPA of 3.0 is also required in the major nutrition courses.

### CURRICULUM CHECKLIST

"Critical Courses" are italicized and bolded. Data shows that students who have completed this course in the first two years and have earned the noted grade are most likely to complete this program of study.

Nutrition students must be admitted to the Didactic Program in Dietetics prior to enrolling in upper division (300 level or above major courses) dietetics courses.
