Entrepreneurship

The entrepreneurship program develops the ability to create ideas, identify opportunities and turn innovations into marketable solutions, regardless of career aspirations.

The entrepreneurship major offers students the opportunity to create, design and develop innovative products and business models for startup and existing businesses. Students work alongside peers from many creative disciplines and successful entrepreneurs in this effort.

Becoming Career Ready...

/ Qualified, award winning faculty interact with students in a small class environment, in Robert A. Dempster Hall, an efficient and beautiful business building with a look and feel of a corporate environment.

/ Entrepreneurship graduates work in a number of business opportunities in almost any industry, including management, sales, research and development, recruiting and not-for-profits. Examples of job titles include business consultant, business manager, business executive and loan officer.
