

Healthcare Management: Quality & Patient Safety Option (Online)

Bachelor of Science (BS)

Quality & Patient Safety Option (Online)

The U.S. Bureau of Labor Statistics (BLS) reported wage and salary employment in the medical and health services management category is projected to grow 23 percent between 2012 and 2022. This growth rate is much faster than other industries. While many of these jobs are for practitioners, nurses, and allied health professionals, many others have duties that do not include hands-on patient care: for example, marketing, human resources, finance, and administration positions. This degree will help fulfill the need for non-clinical healthcare employees and is also appropriate for practitioners who desire to move up in clinical management or out of direct patient care into a support role.

The Quality and Patient Safety option focuses on the critical areas of quality management and patient safety protocols. A macro-level emphasis on quality and patient safety is necessary for all healthcare operations, clinical and non-clinical.

Becoming Career Ready...

/ Qualified, award winning faculty interact with students in a small online class environment.

/ Quality & Patient Safety graduates are at the heart of the business side of healthcare, as they're in charge of budgeting, scheduling, patient quality and safety and seeking out ways to improve patient care. Examples of job titles include health and social services director, medical records manager, office manager, practice administrator and patient safety specialist.

/ 100% of Southeast programs offer real-world experience. Quality & Patient Safety students earn this experience through participating in practicums and internships designed to provide practical experience in healthcare organizations.

/ The path to a successful career starts with you! You can maximize your career development by working closely with Career Services and Southeast faculty – they are here to help you connect your passions, interests, and skills to jobs and opportunities in the field. Career Services provides professional career counseling and coaching, resume critiques, practice interviews, job search strategies, career events, networking opportunities, and more.

Potential Internship and Employment Opportunities:

- Hospitals
- Insurance Companies
- Medical Office Practices
- Government Agencies
- Home Health Care
- Counseling Centers
- Medical Practice Management
- Risk Management
- Healthcare Technology Companies

About Our Online Programs

At Southeast, if a program is designated as an online degree, you can complete your degree anywhere, without ever having to come to one of our campuses. As a student in an online class, your faculty will be the same faculty who teach in our campus classrooms. Advising for online programs and other support services are all completed online by staff who specialize in serving distance students.

Special Options for Healthcare Management Majors

Southeast offers a Master of Science in Healthcare Management which may also be completed entirely online.

Up to 12 hours of upper level courses may be dual-transcripted toward the accelerated MS in Healthcare Management, giving you an early start.

Save time and money by talking with your advisor about applied for the accelerated master's program.

Transfer and Dual Credit Students

If you have dual credit or transfer credit, please visit our transfer course equivalencies guide at semo.edu/transfercredit.
