

## Bachelor of Science (BS)

# Political Science (BS)

Political Science is the study of governments and governing processes. It focuses on the institutions of government and international relations, as well as such factors as interest groups, political parties, public opinion, political economy, voting behavior, constitutional law and political philosophy.

Areas of concentration include American government, comparative government and politics, international relations, public administration, and political theory. Southeast's Political Science majors regularly intern with local, state and federal elected officials. Graduates with a degree in Political Science are employed in government and nonprofit administration, law, international affairs, political campaigns, lobbying and interest groups, journalism and media, academic research and teaching, and are accepted to leading graduate schools.

### Becoming Career Ready...

/ Exceptionally well qualified faculty members work closely with students in small class settings, challenging students to think systematically about national and international politics.

/ Political Science graduates work in political, financial, sales, marketing and communication fields. Examples of job titles include public policy analyst, public administrator, lawyer, lobbyist, campaign manager, human resource specialist, politician, immigration officer, researcher and legislative assistant.

/ Students interested in law are encouraged and prepared by faculty to take the LSAT exam and apply to schools of law. Political Science students are also exceptionally well prepared for advanced studies in other disciplines. At least 95% of the Political Science majors who have applied to graduate school or law school since 2005 have been admitted.

/ Political Science students have access to specialized student organizations (e.g., the Law, Politics, and Society Club) and the student honorary society Pi Sigma Alpha.

/ 100% of Southeast programs offer real-world experience. Political Science students gain this experience through participation in local, state and national government internship programs and through participation in Model United Nations activities.

/ The path to a successful career starts with you! You can maximize your career development by working closely with Career Services and Southeast faculty – they are here to help you connect your passions, interests and skills to jobs and opportunities in the field. Career Services provides professional career counseling and coaching, resume critiques, practice interviews, job search strategies, career events, networking opportunities and more

### Advanced Degree Acceptances:

- University of Missouri Law School
