# Interdisciplinary Studies (Online)

Southeast's major in Interdisciplinary Studies allows you to individually structure your degree program to fit your interests and goals, without requiring you to choose a major in a specific field. You can build a degree with your own area of focus.

For the major in Interdisciplinary Studies (IDS), students develop an individual study plan tailored to their career and professional goals. IDS students select between 2-4 areas of emphasis from the approved list and then design their curriculum with advisor assistance. Areas of emphasis currently include: Business (subsets available in Accounting, Business Administration, Management, or Marketing), Child Development, Criminal Justice, Economics, English Literature, ESL, Family Studies, Healthcare Administration, Healthcare Management, History, Industrial Engineering & Technology, Information Systems, Mass Media, Mathematics, Psychology and Sociology. Additional areas of emphasis may be available depending on prior credits.

### Becoming Career Ready...

/ IDS majors complete the General Education program as part of a foundational educational component of their degree.

/ Students choose their individual study plan concentration areas (major) and upper-division courses that support their professional and personal goals.

/ Students in the program prepare themselves for career advancement or graduate school through successfully completing a self-tailored curriculum focused on demonstrating college-level competencies.

/ Academic departments at Southeast offer real-world experience. 100% of our programs offer students an internship, study-abroad program, clinical opportunity, student teaching, or research internship.

/ The path to a successful career starts with you! You can maximize your career development by working closely with Career Services and Southeast faculty – they are here to help you connect your passions, interests, and skills to jobs and opportunities in the field. Career Services provides professional career counseling and coaching, resume critiques, practice interviews, job search strategies, career events, networking opportunities, and more.

### Why Consider Interdisciplinary Studies?

The Bachelor of Interdisciplinary Studies degree is ideal for degree-seekers with one or more of the following characteristics:

- Students with specific interests in a combination of the approved areas of emphasis
- Students with fewer than 75 credit hours
- Students interested primarily in earning a four-year degree, without a requirement for, or interest in, a specific major
- Students seeking a degree for personal enrichment
- Students willing to create their own degree plan and usher it through the approval process

### About Our Online Programs

At Southeast, if a program is designated as an online degree, you can complete your degree anywhere, without ever having to come to one of our campuses. As a student in an online class, your faculty will be the same faculty who teach in our campus classrooms. Advising for online programs and other support services are all completed online by staff who specialize in serving distance students.

### Special Options with Major

This program of study is available as an online program, to students at the regional campuses (Kennett and Sikeston), and the Poplar Bluff Delivery Site. Other areas of emphasis may be available depending on your prior credits and the campus from which you will be taking courses at Southeast.
