

Master of Science in Nursing (MSN)

Welcome to the Master of Science in nursing program, a part of the Department of Nursing at Southeast Missouri State University. The MSN degree offers a family nurse practitioner (FNP) option and, with sufficient enrollment, a Nurse Educator option.

The University's graduate nursing program is the only graduate nursing program physically located in the region and focuses on the assessment, management, and delivery of health care services to individuals and families across the lifespan. Particular emphasis is directed to health care needs of underserved populations in rural areas. The program is accredited by the Commission on Collegiate Nursing Education.

The MSN program prepares graduates for the delivery of advanced nursing care and for critical investigation, integration, and synthesis of scientific knowledge in advanced nursing practice. MSN preparation provides a foundation for doctoral study.

Admission Deadline for each Fall Semester is April 1

Graduate nursing students will be...

- Prepared at the master's level within the discipline of nursing as well as receive preparation in an advanced nursing role as a family nurse practitioner or a nurse educator.
- Exposed to a variety of teaching modalities including face-to-face instruction, completely online instruction, and heavily blended delivery of instruction.
- Expected to complete hands-on experiences in a variety of settings with experienced preceptors in preparation for the family nurse practitioner or nurse educator role.
- Eligible, upon graduation within the FNP option, to register for a national certification examination for family nurse practitioners OR upon graduation within the Nurse Educator option and with pre-requisite post-graduation experience, to register for a national certification examination for nurse educators.
- Able to use information systems and technology to enhance the delivery of health care.

Career Planning

Southeast graduates of the Family Nurse Practitioner option have a 97% first-time pass rate on the American Nurse Credentialing Center's Family Nurse Practitioner Certification Examination, a nationally normed examination pre-requisite to being recognized or licensed by most State Boards of Nursing in an advanced practice role.

Employment placement for MSN graduates is nearly 100% within the first six months post-graduation.

Employment Opportunities for MSN Graduates as Appropriate to the Family Nurse Practitioner or Nurse Educator

- Faculty of Schools of Nursing.
- Ambulatory Practice Sites.
- Community-based Health Centers.
- Rural Health Clinics.
- Day & Home Care Programs.

Thesis Option:

- NS694 Thesis (3)
- GR699 Comprehensive Oral Examination (0)

Degree Requirements

The MSN curricula are hybrid curricula with courses delivered in heavily blended formats (75-99% of course content online), completely online formats, and face-to-face formats.

The 5-semester FNP Option starts in the fall semester and includes one summer semester with total semester course load varying from 7-10 credit hours per semester. The 7-semester Nurse Educator Option starts in the fall semester and includes two summer semesters with total semester course loads varying from 1-10 credit hours per semester.

A total of 43 credit hours plus successful completion of a capstone experience is required for the Master of Science in Nursing degree within the Family Nurse Practitioner Option. A total of 41 credit hours plus successful completion of a capstone experience is required for the Master of Science in Nursing degree within the Nurse Educator Option.

In the 8.5 clinical credit hours embedded within the total (43) for the FNP Option, students complete 765 clock hours of clinical experiences. In the 6.5 clinical credit hours embedded within the total (41) for the Nurse Educator Option, students complete 585 clock hours of clinical experiences.

Should a student drop from the program for any reason, re-admission or continuation is based upon seat availability.

Applicants are strongly encouraged to meet with the Department of Nursing's Director of Graduate Studies to learn more about the MSN Program and to ask any questions that they may have. Appointments may be made via telephone (573.986-6413) or by email mtanz@semo.edu.
