VIII. Basis for Candidate Evaluation and Performance Outcomes:

Candidate performance will be based on the completion of the portfolio of projects.

IX. Grading Scale

The instructor will assign credit on the basis of:
Credit/Non-credit

X. Academic Policy Statement:

Students will be expected to abide by the University Policy for Academic Honesty regarding plagiarism and academic honesty. Refer to:
<http://www6.semo.edu/stuconduct/>

XI. Student with Disabilities Statement:

If a student has a special need addressed by the Americans with Disabilities Act (ADA) and requires materials in an alternative format, please notify the instructor at the beginning of the course. Reasonable efforts will be made to accommodate special needs.

XII. Harassment and Civility

The University strives to offer learning experiences and opportunities designed to help candidates think effectively, develop the capacity to communicate, discriminate among values, and make relevant judgments. A major determinant of a successful educational experience is a shared sense of respect among and between the candidates and their instructor. Mutual respect for all as well as a no tolerance policy on harassment of any kind is expected. Every candidate at Southeast is obligated at all times to assume responsibility for his/her actions, to respect constituted authority, to be truthful, and to respect the rights of others, as well as to respect private and public property.

XIII. Dispositions

Professional Dispositions for Educational Leadership

The Dispositions, as assessed within Educational Leadership are guided by the central core of the Conceptual Framework. The beliefs and attitudes related to the areas of competence, reflection and caring, were the guiding force in establishing the dispositions assessed at the beginning and end of coursework. These dispositions continue to be validated by P-12 personnel, faculty and the candidates themselves as the evaluation process evolves. In 2007, an Improvement *Disposition* Plan (IDP) form was created to inform and remediate the candidates who did not meet or exceed the expectations of the unit. The

IDP form is available for faculty to utilize during supervision of field experiences, as well as in the classroom setting.

The following assessed *dispositions* are listed under the applicable Conceptual Framework Term.

XV. Relationship of the Conceptual Framework to Standards

The increasing emphasis on professional standards for educators that focus on resultant *dispositions* and School Leaders Licensure Assessment (SLLA) and the School Superintendent Assessment (SSA) results of program graduates has reinforced the relevance of the College's emphasis on a synergistic meld of the themes of *competent, reflective, and caring* as the foundation of its *conceptual framework*. As the lists of expected achievement indicators, competencies, and *dispositions* issued by government and professional groups become more extensive, only a *competent* professional who assiduously *reflects* on his/her teaching, while maintaining a *caring* attitude, is and/or will be capable of meeting the intent of those standards. For a unit the size of the College of Education at Southeast Missouri State University, the broad applicability of *competencies, reflective learning, and caring* supports its utility as a purposeful conceptual framework that all constituents apply to their work. Specific instances of how

the conceptual framework influences work within programs will be found in evidence provided by the programs.

It is the collaborative belief of the faculty of the College of Education at Southeast Missouri State University and the professional community of educators who work with the College to prepare future educators at all levels that any overarching statement or theme must encompass a vision for the entire College and its constituent parts. That vision, encapsulated within a theme statement, is to prepare pre-service professionals and to encourage and support the teacher, the administrator and the counselor in their efforts to at all times be, act and believe as competent, reflective and caring professionals in their support of all learners.

Given that such a vision arises from divergent constituencies, in diverse fields within education, it is important for us to be clear on what constitutes the foundational pieces on which this vision rests. While the primary tenets of this vision are our collective belief that to be professional educators, one must be *competent, reflective and caring* in both the personal and professional senses, equally important are the many components that we believe are both required and evoked by those three attributes. These components are to be found in the collegially derived descriptions for teacher education, administrator education and counselor education. We have developed visions for each of these areas as separate descriptions because we felt that while intertwined in the College and in the field, each approaches the task through curricular and pedagogical means unique to that field.

The general theme of the vision, as noted above, is that each of these areas strives to nurture and prepare the pre-service candidate, and challenge and stimulate the continuing professional to be a *competent, reflective and caring* professional, so they can meet the needs of diverse learners. These efforts include continuous endeavors to creatively incorporate *technology* throughout their individual subject area fields, to promote understanding and appreciation for *diversity*, and to support the development of *literacy* skills needed in an increasingly complex society. This *Conceptual Framework model, with the six centrally located terms of competent, caring, reflective, diversity, technology and literacy*, provide guidance for all programs in the College of Education in a continuous effort to develop, utilize and *assess* proficiencies according to standards evidenced in college, state and national standards.
