

UnitedHealthcare Half Tablet Program

Split your pills, split your bill.

UnitedHealthcare Half Tablet Program

As prescription medication costs continue to increase, you may be searching for ways to lower your costs at the pharmacy. You can **save up to 50%** on your prescription costs by participating in our **Half Tablet Program**.

You get the same medication and strength for half the cost

With the Half Tablet Program, you take the same medication at the same strength, yet save money on medications you take on a regular basis – up to hundreds of dollars every year.

Here's how it works:*

1. Your doctor writes a new prescription for twice the strength and half the quantity, noting your intent to split the tablets on your prescription.
2. Fill the prescription. You'll pay only half your usual copayment.
3. Split each tablet and take half – you get your usual supply for half the cost.

See if your medication qualifies for tablet splitting:

Condition	Medication	Qualifying Strengths
Hypertension (High Blood Pressure)	Aceon	2mg, 4mg
	Atacand	4mg, 8mg, 16mg
	Avapro	75mg, 150mg
	Benicar	20mg
	Cozaar	25mg, 50mg
	Diovan	40mg, 80mg, 160mg
	losartan (generic for Cozaar)	25mg, 50mg
	Mavik	1mg, 2mg
	moexipril (generic Univasc)	7.5mg
	trandolapril (generic Mavik)	1mg, 2mg
	Univasc	7.5mg
Depression	Lexapro	5mg, 10mg
	Pexeva	10mg, 20mg
	sertraline (generic Zoloft)	25mg, 50mg
	Zoloft	25mg, 50mg
High Cholesterol	Crestor	5mg, 10mg, 20mg
	Lipitor	10mg, 20mg, 40mg
	Pravachol	10mg, 20mg, 40mg
	pravastatin (generic Pravachol)	10mg, 20mg, 40mg
	simvastatin (generic Zocor)	5mg, 10mg, 20mg, 40mg
	Zocor	5mg, 10mg, 20mg, 40mg
Type 2 Diabetes	Actos	15mg
	Avandia	2mg, 4mg

For example: If you are currently prescribed 4mg of Aceon, your physician can approve you to split your tablets. Your physician must write a new prescription for 8mg, and you would split each tablet and take only half, equaling the original 4mg dose.

Savings example

The following example shows how participating in the Half Tablet Program can reduce your copayment by half, taking the same tablet at the same strength.

Prescribed: 20mg of Lipitor per day, 30 tablets, 30-day supply.

In this example, you would save \$15.00 per month, or \$180 per year.

Your actual savings will vary based on your medication costs and plan design.

Splitting tablets is easy

Using a tablet splitter makes splitting your medication easy. Look for a pill splitter online or at your local pharmacy.

Start saving today. Call your doctor and ask if tablet splitting is right for you.

*This is a voluntary program. Medications subject to change without notice. Not all medications are appropriate for tablet splitting. The medications in this program have been selected because they meet requirements deemed appropriate for splitting. Consult your doctor before splitting any prescription tablets. Only split tablets with a device designed specifically for that purpose. Follow the instructions provided with your tablet splitter.
