

**Same medication. Same strength. Same pharmacy.  
So why does one cost half the price?**

## Introducing the Half Tablet Program

You can lower your costs on prescription medications by **up to 50%** by switching to higher dosage tablets and splitting them in half.

### Here's how it works:\*

1. Your doctor writes a new prescription for twice the strength and half the quantity, noting your intent to split the tablets on your prescription.
2. Fill the prescription. You'll pay only half your usual copayment.
3. Split each tablet and take half – you get your usual supply for half the cost.

Start saving today. Call your doctor and ask if tablet splitting is right for you.

**Splitting tablets is easy with a splitter like this. Look for a pill splitter online or at your local pharmacy.**

\*This is a voluntary program. Medications subject to change without notice. Not all medications are appropriate for tablet splitting. The medications in this program have been selected because they meet requirements deemed appropriate for splitting. Consult your doctor before splitting any prescription tablets. Only split tablets with a device designed specifically for that purpose. Follow the instructions provided with your tablet splitter. 100-9987 C1255-01 FI 08/10 © 2010 United Healthcare Services, Inc.

### See if your medication qualifies for tablet splitting:

Condition	Medication	Qualifying Strengths
Hypertension (High Blood Pressure)	Aceon	2mg, 4mg
	Atacand	4mg, 8mg, 16mg
	Avapro	75mg, 150mg
	Benicar	20mg
	Cozaar	25mg, 50mg
	Diovan	40mg, 80mg, 160mg
	losartan (generic Cozaar)	25mg, 50mg
	Mavik	1mg, 2mg
	moexipril (generic Univas)	7.5mg
	trandolapril (generic Mavik)	1mg, 2mg
	Univas	7.5mg
Depression	Lexapro	5mg, 10mg
	Pexeva	10mg, 20mg
	sertraline (generic Zoloft)	25mg, 50mg
	Zoloft	25mg, 50mg
High Cholesterol	Crestor	5mg, 10mg, 20mg
	Lipitor	10mg, 20mg, 40mg
	Pravachol	10mg, 20mg, 40mg
	pravastatin (generic Pravachol)	10mg, 20mg, 40mg
	simvastatin (generic Zocor)	5mg, 10mg, 20mg, 40mg
	Zocor	5mg, 10mg, 20mg, 40mg
Type 2 Diabetes	Actos	15mg
	Avandia	2mg, 4mg

**For example:** If you are currently prescribed 4mg of Aceon, your physician can approve you to split your tablets. Your physician must write a new prescription for 8mg, and you would split each tablet and take only half, equaling the original 4mg dose.
