

Your 2013 Prescription Drug List

effective July 1, 2013

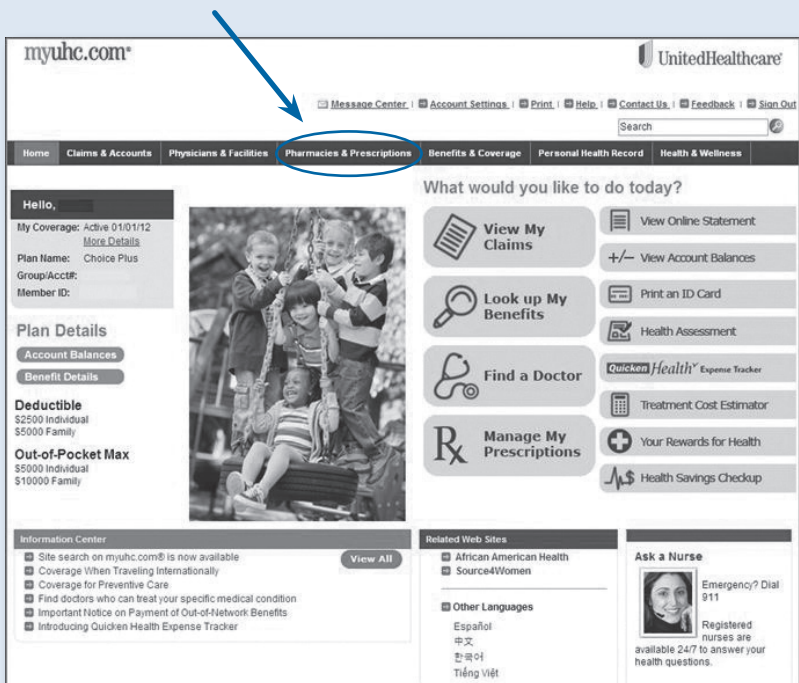

Your Prescription Drug List

Helping you get the most out of your pharmacy benefit.

This Prescription Drug List (PDL) outlines the most commonly prescribed medications for certain conditions and organizes them into cost levels, also known as tiers.

Go to myuhc.com® for complete and up-to-date drug information

Since the PDL may change, we encourage you to visit our website, myuhc.com. This website is the best source for up-to-date information about the medications your pharmacy benefit covers, possible lower-cost options, and cost comparisons.

The screenshot shows the myuhc.com website interface. At the top left is the myuhc.com logo, and at the top right is the UnitedHealthcare logo. Below the logos is a navigation bar with several menu items: Home, Claims & Accounts, Physicians & Facilities, **Pharmacies & Prescriptions** (highlighted with a blue oval and a blue arrow pointing to it), Benefits & Coverage, Personal Health Record, and Health & Wellness. Below the navigation bar is a search bar. The main content area is titled "What would you like to do today?" and features several interactive buttons: View My Claims, View Online Statement, View Account Balances, Look up My Benefits, Print an ID Card, Health Assessment, Find a Doctor, Quicken Health Expense Tracker, Manage My Prescriptions, Treatment Cost Estimator, Your Rewards for Health, and Health Savings Checkup. On the left side, there is a "Hello, [Name]" section with "My Coverage: Active 01/01/12" and "More Details" link. Below that is "Plan Details" with "Account Balances" and "Benefit Details" buttons. Under "Deductible", it lists "\$2500 Individual" and "\$5000 Family". Under "Out-of-Pocket Max", it lists "\$5000 Individual" and "\$10000 Family". There is also a "Related Web Sites" section with links for African American Health, Source4Women, and Other Languages (Español, 中文, 한국어, Tiếng Việt). At the bottom right, there is an "Ask a Nurse" section with a photo of a nurse and text stating "Emergency? Dial 911" and "Registered nurses are available 24/7 to answer your health questions."

Welcome

to your 2013 Prescription Drug List

At UnitedHealthcare, we want to help you better understand your medication options. Your pharmacy benefit offers flexibility and choice in determining the right medication for you. To help you get the most out of your pharmacy benefit, we've included some of the most commonly asked questions about the Prescription Drug List.

What is a Prescription Drug List (PDL)?

This document is a list of commonly prescribed medications placed into cost levels, also known as tiers. It includes both brand and generic prescription medications approved by the U.S. Food and Drug Administration (FDA). The PDL is reviewed periodically and may change.

Please note: Where differences are noted between this PDL and your benefit plan documents, the benefit plan documents will rule. It is not a complete list of medications, and not all medications listed may be covered under your plan. Please look at your benefit plan documents provided by your employer or health plan to see what medications are covered under your plan. You may also log on to myuhc.com or call the toll-free member phone number on the back of your health plan ID card for more information.

How do I use my Prescription Drug List?

When choosing a medication, you and your doctor should consult the PDL. It is organized by common medical conditions. Then, within each medical condition section, medications are listed by cost level, known as tiers.

If your medication is not listed in this document, please log on to myuhc.com or call the toll-free member phone number on the back of your health plan ID card.

What are tiers?

Tiers are the different cost levels you pay for a medication. Each tier is assigned a cost, which is determined by your employer or health plan. This is how much you will pay when you fill a prescription. Tier 1 medications are your lowest-cost options. If your medication is placed in Tier 2 or 3, look to see if there is a Tier 1 option available. Discuss these options with your doctor.

Check your benefit plan documents to find out your specific pharmacy plan costs.

| | | |
|---|---|--|
|  Tier 1 Your lowest-cost medications |  Tier 2 Your midrange-cost medications |  Tier 3 Your highest-cost medications |
|---|---|--|

Please note: Some plans may have two or four tiers, while others may not have any. If you have a high deductible plan, the tier cost levels will apply once you hit your deductible. Refer to your enrollment and plan materials on myuhc.com, or call the toll-free number of the back of your health plan ID card for more information about your benefit plan.

When does the Prescription Drug List change?

- Medications may move to a lower tier at any time.
- Medications may move to a higher tier when its generic becomes available.
- Medications may move to a higher tier or be excluded from coverage on January 1 or July 1.

When a medication changes tiers, you may have to pay a different amount for that medication.

Why are there letters (SL, N, etc.) next to certain medications in the PDL, and what do they mean?

Some medications are noted with letters next to them. The symbols refer to our pharmacy benefit programs and are provided to help you check which medications may have a program. Your benefit plan determines how these medications may be covered for you.

Symbols

| | |
|--|---|
| 1/2T May be eligible for Half Tablet Program | RS May be eligible for the Refill and Save Program |
| DSN Designated Specialty Network | SDP Select Designated Pharmacy |
| E May be excluded from coverage | SL Supply Limit |
| MC Multiple Copay | ST Step Therapy |
| N Notification or Prior Authorization required* | |

*Depending on your benefit you may have notification or prior authorization requirements for select medications.

To learn more about a pharmacy program or to find out if it applies to you, please visit myuhc.com or call the toll-free member phone number on the back of your health plan ID card.

Why are some medications excluded from coverage?

Medications may be excluded from coverage under your pharmacy benefit when it works the same or similar as another prescription medication or an over-the-counter (OTC) medication. There may be other medication options available.

Should I talk to my doctor about over-the-counter (OTC) medications?

An over-the-counter (OTC) medication may be the right treatment for some conditions. Talk to your doctor about available OTC options. These medications are not covered under your pharmacy benefit, but they may cost less than your out-of-pocket expense for prescription medications.

What is the difference between brand-name and generic medications?

Generic medications contain the same active ingredients (what makes the medication work) as brand-name medications, but they often cost less. Once the patent of a brand-name medication ends, the FDA can approve a generic version with the same active ingredients. These types of medications are known as generic medications. Sometimes, the same company that makes a brand-name medication also makes the generic version.

What if my doctor writes a brand-name prescription?

The next time your doctor gives you a prescription for a brand-name medication, ask if a generic equivalent or lower-cost option is available and if it might be right for you. Generic medications are usually your lowest-cost option, but not always. Check myuhc.com to make sure.

Are you taking a specialty medication?

Specialty medications treat rare and complex conditions and are typically higher cost medications. Please note, not all specialty medications are listed in the PDL.

If you are taking a specialty medication that is on Tier 2 or Tier 3, call the toll-free number on the back of your health plan ID card to talk to a representative about finding lower-cost options.

OptumRx is the specialty pharmacy that can provide most of your specialty medications along with helpful programs and services. Call OptumRx Specialty Pharmacy at 1-888-702-8423 and have your prescriptions delivered right to your home or office.

How do I get updated information about my pharmacy benefit?

Since the PDL may change, we encourage you to visit myuhc.com or call the toll-free member phone number on the back of your health plan ID card for more current information.

Log on to myuhc.com for the following pharmacy information and tools:

- Pharmacy benefit and coverage information
- Possible lower-cost medication options
- A list of medications based on a specific medical condition
- Medication interactions and side effects
- Participating retail pharmacies by zip code
- Your prescription history

And, if mail service is included in your pharmacy benefit, you can also:

- Refill prescriptions
- Check the status of your order
- Set-up e-mail reminders for refills
- Manage your account

What if I still have questions?

Please call the toll-free member phone number on the back of your health plan ID card. Representatives are available 24 hours a day (except Thanksgiving and Christmas).

Where else can I go for information?

- myuhc.com for the most up-to-date information about your specific benefit plan and medication information.
- HealthCareLane.com has short videos to help you learn more about UnitedHealthcare benefits and health insurance information.
- UHCTV.com is a fun and easy way to learn about health terms and other health-related topics.

In certain documents, the Prescription Drug List (PDL) was referred to as the "Preferred Drug List (PDL)." This change in terms does not affect your benefit coverage.

Medications are categorized by common therapeutic conditions in this PDL for ease of reference only. These categories do not determine coverage for the medication for your condition. Your benefit plan determines coverage for these medications.

Anti-Infectives Antibiotics (Oral, inhaled and ear antibiotics are listed)

Tier 1

| | | |
|--------------------------------------|--------------------------------|---|
| Amoxicillin | Clindamycin HCl | Nitrofurantoin Macrocrystal |
| Amoxicillin/Potassium Clavulanate | Dicloxacillin Sodium | Nitrofurantoin Suspension |
| Ampicillin | Doxycycline Monohydrate | Nitrofurantoin/Nitrofurantoin Macrocrystal |
| Azithromycin | Erythromycin | Ofloxacin Otic |
| Cefadroxil | Erythromycin Base | Penicillin V Potassium |
| Cefprozil | Enteric-Coated Tablet | Sulfamethoxazole/ Trimethoprim |
| Cefuroxime | Levofloxacin | Tetracycline |
