

Southwest Missouri State University

Department of: Environmental Science Program

Course Number: EV475

Course Title: Readings in Environmental Science

New: Spring 2000

I. Catalog Description and Credit Hours of Course:

Consideration in depth of subject matter ordinarily unavailable in the departmental curriculum through reading and discussion of assigned material. Students are limited to a total of 6 credit hours of readings during their program. (2)

II. Prerequisites:

EV201; consent of the instructor and permission of the program director.

III. Purposes or Objectives of Course:

To provide individual students with the opportunity to study topics pertinent to their individual educational goals when the need for such a topic is not great enough to support a normal course within the program.

IV. Expectations of Students:

To carry out assigned readings and other assignments satisfactorily, and to meet on a regular basis with the instructor to discuss course subject matter.

V. Course Content

To be established by the instructor.

VI. Textbook and Other Material:

Dictated by the course topic.

VII. Basis for Student Evaluation:

To be determined by the individual instructor. The grading policies will be specified at the beginning of the course.

VIII. Instructors:

Instructors will be drawn from the Environmental Science program faculty.

IX. Programs Served by the Course

B.S. in Environmental Science
