Career Linkages Works!

Students say the most important reason they attend college is to get a better job. Southeast is a leader when it comes to preparing you for a career.

At Southeast, we work with you beginning your freshman year to help prepare for your academic and career paths. Southeast takes career preparation to the next level by requiring all students to complete a four-step career development process that will ensure you graduate with the knowledge and skills to help land your dream job.

You first complete a career assessment and an action plan, then prepare a resume and cover letter. Later in your program, our team of career advisors, including a full-time campus internship coordinator and a career specialist located in St. Louis, works with you to identify internships and career opportunities. Before you know it, you will be graduating and earning your first paycheck.

It Was Another Very Good Year!

Despite a sluggish economy, students at Southeast Missouri State University thrived—in the classroom, on the field, in 30 foreign countries, and in three new residence halls added to accommodate growing enrollment. Among our many accomplishments, our honors program was singled out by InsideCollege.com for its personalized approach to learning at a large school.

In fall 2011, freshman enrollment surpassed 1,800 for the fourth consecutive year, and overall enrollment exceeded 11,000. In addition, the average ACT score has risen for the fifth consecutive year.

InsideCollege.com experts single out our honors program as an effective way to make a large school seem smaller with a more personal approach to learning.

Accreditation by the Network of International Business Schools recognizes Southeast Missouri State University for internationalization of its business program. Only four institutions in the U.S. made this worldwide list.

In addition to a new 292-bed residence hall and dining area in 2009, the University is opening another 250-bed residence hall in fall 2013 to accommodate continued growth in enrollment.

Twelve residence halls and nine dining places make living on campus convenient. Students can find something to eat from 7 a.m. to midnight!

It was another very good year for academic excellence.

The Retirement Community for Senior Citizens was named one of the 10 Best in the Midwest, according to the National Senior Citizens Housing Council. The Residence Life Leadership Scholarship program was named one of the 10 Best in the Midwest by InsideCollege.com.

Southeast Missouri State University is one of the Top 50 Best Graduating Classes by U.S. News & World Report. The University is also included in the annual rankings of Best Online Master’s Programs by GetEducated.com.

Before you know it, you will be graduating and earning your first paycheck.

Governor’s: $11,470 (Missouri) / $16,795 (Out of State), provides incidental and general fees for 30 hours, community- grade credit plan.

Regents’: $5,814 (Missouri) / $11,400 (Out of State), provides incidental and general fees for 30 hours.

President’s: $4,000

University: $2,000

Eligibility: Academic scholarships are awarded at the time of admission to freshmen who meet the test score and grade point average requirements indicated in the chart. No separate application is required.

Renewal: Academic scholarships are renewable each year up to a maximum of four consecutive academic years, providing the student is enrolled full-time (fall and spring) and completes 30 Southeast credit hours per academic year with a 3.3 cumulative GPA in courses taken at Southeast.

Midwest Achievement Award (MAA) Out of State

Value: $1,723 (approximate)

The scholarship value is the difference between out-of-state incidental fees and 130 percent of in-state incidental fees. MAA may be combined with ONE of the following (concurrent scholarships, a 4,000 President’s Scholarship, a 1,000 University Scholarship, or an SBESD Residence Life Leadership Scholarship).

Eligibility: The Midwest Achievement Award is awarded to students in the Midwest Student Exchange Program (MSEP) states including Illinois, Indiana, Kansas, Michigan, Minnesota, Nebraska, North Dakota and Wisconsin and to students in the neighboring states of Arkansas, Kentucky and Tennessee. No separate application is required.

Renewal: MAA may be renewed each year up to a maximum of four consecutive academic years, providing the student is enrolled full-time (fall and spring) and completes 24 Southeast credit hours per academic year with a 3.5 cumulative GPA in courses taken at Southeast.

Additional Scholarships Missouri/Out of State

Residence Life Leadership Scholarship

Value: $3,000 in combined residence fees. This award may be combined with ONE of the following scholarships: 4,000 President’s Scholarship, a 1,000 University Scholarship, or the Midwest Achievement Award.

Eligibility: This scholarship is awarded to beginning freshmen who meet the following criteria: 1. Must reside in a University residence hall AND 2. 19 composite ACT or 910 SAT (CR+M) AND 3. 30 cumulative high school GPA AND 4. Complete the optional scholarship questions as part of the online application for admission to demonstrate a record of student involvement. Applicants involved in multiple school or community activities for at least three years of high school will be considered for this award. The Residence Life Leadership Scholarship is automatically awarded to students who provide documentation of one of the following recognitions: Rank in class, state, national; Missouri Renaissance program participant, Missouri AHS school graduate, Eagle Scout or the Girl Scout Gold Award.

Renewal: The Residence Life Leadership Scholarship is renewable each year up to a maximum of four consecutive academic years, providing the student is living in the Southeast residence halls, is enrolled full-time (fall and spring) and completes 26 Southeast credit hours per academic year with a 2.5 cumulative GPA in courses taken at Southeast.

Commercial Photography

Commercial photography is a great way to use your creativity in both traditional and technological ways. Careers in photography combine your technology skills with your artistic abilities. Photographers take pictures of people, places or things. Their photos will be used in advertising and marketing materials. Commercial photographers need to have a good understanding of how to use computers and software to manipulate images. You can work as a freelance photographer or as an employee of a company. You can find photography opportunities in advertising, publishing, film, and television. Some of the most successful photographers are those who own their own businesses and have their own clients. The United States Department of Labor reports that employment of photographers is expected to increase by one percent through the 2020-2021 decade, much faster than the average for all occupations.

Sustainable Energy Systems Management

With no new programs in sustainable energy systems management, Southeast is in the dark on the future of the green movement to conserve the health of our planet and conserve natural resources. As the world faces climate change, environmental pollution, ozone depletion and economic instability, graduates are taking a leadership role in creating and maintaining a sustainable, green and energy-efficient society.

The sustainable energy systems management option for technology management majors prepares students for work in energy systems and management, engineering, environmental science, and public policy. Students take courses in sustainability, environmental science, economics, and policy. The program focuses on energy systems, with an emphasis on renewable energy sources, such as solar, wind, and hydroelectric. Students learn about the technical and economic aspects of energy systems, as well as the legal and policy implications. This program is ideal for students who are interested in working in the energy sector or in related industries.

Forensic Chemistry

Forensic chemistry is the study of the chemical and physical properties of materials. This field is crucial in solving crimes and understanding the composition of substances found at crime scenes. Forensic chemists work in a variety of settings, including laboratories, crime scenes, and in courtrooms. They use a variety of techniques to analyze evidence, such as gas chromatography, mass spectrometry, and spectroscopy.

Historic Preservation

The University’s Center for Regional History and Cultural Heritage documents and preserves aspects of local and regional history, architectural trends, archeology and fine art. The collections include over 5,000 historic objects and documents, such as photographs, letters, diaries, and other memorabilia. The center also has a large collection of historic sites and buildings, which are used for research and educational purposes. Students have the opportunity to work with the center’s collection and to conduct research on local history.

Environmental Science

The University of Southeast Missouri State University offers a variety of environmental science courses and degree programs. Students can choose from a variety of specializations, including environmental biology, environmental chemistry, environmental geology, and environmental policy. Students can also pursue a minor in environmental science.

New and Unique Majors ...

The Douglas C. Greene Center for Innovation and Entrepreneurship is one of the most entrepreneurship-focused centers in the Midwest, combining traditional learning and new technology with an emphasis on innovation and creativity. The center provides students with opportunities to develop their entrepreneurial skills and to pursue their interests in a wide range of fields. The center hosts a variety of events and programs, such as workshops, seminars, and competitions, to help students develop their skills and networks.

Digital Arts

Digital arts is the art of creating and manipulating digital images. Digital arts is a highly competitive field that requires a strong foundation in both art and technology. Students who major in digital arts learn how to use digital tools and software to create and manipulate images, such as those used in advertising, film, video, and animation. They also learn how to use digital tools to create and manipulate sounds, music, and other multimedia elements.

Entrepreneurship

Entrepreneurship is a way of thinking that enables individuals to create a better world through new ventures. Our programs provide you with the knowledge and skills to become an entrepreneur and to develop your own business. You will learn how to identify opportunities, conduct market research, and develop business plans. You will also learn how to manage your business and to delegate tasks to others.

Choices for Living…

Living on campus can be one of the most exciting aspects of the college experience. Eating on campus, studying late with friends at the library, cheering the Redhawks on to victory, playing intramural sports and taking in the array of student social activities can truly make the college experience memorable and exhilarating. Everything you need—from computer labs to the library, from places to eat to the student recreation centers—is convenient and close.

All first-year students are assigned a double room with a roommate. This begins the process of meeting people and making new friends. All floors have a resident assistant who can answer questions and direct you to any academic resources you need.

One of the highlights of college is finding people who share your particular interests and talents. Southeast offers a variety of residence halls with “themed and learning communities” that cater to a variety of preferences, including:

► Business
► Education
► Health and Human Services
► Honors
► Math and Science
► Transfer (45 or more credit hours)
► Visual and Performing Arts

In fall 2011, more than 3,000 housing contracts exceeded capacity in our residence halls requiring officials to defer enrollment. Three residence halls were added since 2002. Another new 250-bed residence hall is scheduled to open fall 2013 and discussions about a Greek Village are underway.

Choices for Dining…

Kent Library Café
A quiet place to study and enjoy Seattle’s Best Coffee, espresso drinks and a variety of sandwiches and gourmet snacks.

Olive’s – Merick Hall
Variety of options, including made to order sandwiches, salads, flatbread pizza and more.

Redhawks Market
University Center
Features Papa John's, Acentos Latino, the Smasher’s Grill, Chick-fil-A, Chef Yan and others.

River Campus Café
University Center
Features made to order sandwiches, flatbread soups and prepackaged meals.

Rowdy’s – Towers Complex
Features universal favorites such as hamburgers, sandwiches and pizza and also a convenience store open until midnight.

Scully Café
University Center
A full retail Starbucks store.

Towers Café
Towers Complex
Traditional, all-you-can-eat café including salad, pizza, a pasta bar, desserts, a cereal bar and more.

Choose from the array of dining and retail areas on campus. Whatever your preference, there is a place for you!

Enjoy a quick sandwich, a latte or a meal at one of nine dining and retail areas on campus. Whatever your preference, there is a place for you!

No matter which hall you choose, each has a unique character and personality that makes living on campus a memorable experience.

Although all rooms are furnished, you can add your own personality with pictures, posters, futons, etc. All rooms have access to cable television and 24-hour Internet.
Picture yourself on a gorgeous, warm fall day walking across one of the most beautiful campuses in the country—a campus alive with people talking or studying, taking a break on the terraces, hurrying to practice or making plans for the weekend. Southeast Missouri State University is a comfortable, friendly campus. Students say it is a place where there are more exciting things to do than there are hours in the day.

Of course, classroom preparation and participation are your top priorities, but involvement in student activities also provides great opportunities for learning and developing friendships. Whatever you do after class makes your college experience more meaningful and interesting.

Outside the classroom, you’ll find that student activities and interests at Southeast are as diverse as our academic programs. Whether you are rehearsing for a play, writing an article for the campus newspaper, joining a pickup game of basketball at the Student Recreation Center or taking in a concert at the Show Me Center, you will find an abundance of activities to fit your unique talents and interests.

After-class activities include student organizations of every kind: fraternities and sororities, honors and academic clubs, intramural and athletic teams, study abroad opportunities, musical ensembles and more.

If staying fit and exercising are important to you, there is an outlet for those activities at the two student recreation centers on campus. Whether you prefer exercising alone or with others, you will find a routine for fitness that is right for you. The Student Recreation Center features basketball, volleyball and racquetball courts as well as a group room fitting, a cardiovascular area, an indoor track, a climbing wall and a fitness room with weight equipment. The Student Recreation Center South contains a fitness room with cardiovascular equipment such as cycles, treadmills, ellipticals, steppers and a cardio theater.

The outdoor sports complex features two softball diamonds with outfield areas large enough to accommodate full-size soccer and flag football fields and an additional full-size field with three covered pavilions. Another softball field and nine lighted tennis courts are located across from this sports complex. We have everything you need to stay fit on the Southeast campus!

Sports enthusiasts feel at home at Southeast. Even if you are not a competitive player, you can enjoy intramural and club sports. More than 20 active sport clubs and intramural teams, and more than 40 intramural sport events take place on campus each academic year. Last year, 5,500 students participated in intramural and club sports.

For those who enjoy aquatic and water sports, the new Student Aquatic Center is a perfect addition to campus. The aquatic center features three bodies of water: a lap pool with six 25-yard lanes, a relaxing hot tub and a leisure pool that features a bouldering wall, a zip line and a water basketball and volleyball area. All of this is complemented with palm trees and a rockscape, creating a relaxing, tropical environment.

**FIND YOUR PASSION. LEARN FROM THE BEST.**

Get started today at Southeast Missouri State University. Visit www.semo.edu for more information.
Art – Five interconnected art studios for drawing, painting, printmaking, fibers and design make learning interactive and fun. Students have access to a variety of technology, including presses for printmaking, digital photography projection and software such as Adobe Creative Suite. Digital artists create at workstations equipped with scanners and Wacom tablets. Your creations can be featured in the 1,275-square-foot student/faculty art gallery. Studios for sculpture, art education and ceramics are located on the main campus as well.

Dance – Exceptional practice and performance venues are accessible to you as a dance student. A cutting-edge studio, equipped with the finest of sound systems, has a “sprung” floor to save wear and strain on dancers’ bodies. The dance studio is flexible enough for rehearsals and informal performances. A magnificent view of the Mississippi River and Bill Emerson Memorial Bridge adds ambiance to the facility, inspiring dancers to develop their talent to become first-rate choreographers and performers. A second studio is located on the main campus.

Music – With exceptional performance facilities and instruction, Southeast continues to reach new levels of excellence in music. Students and faculty perform regularly in the Robert F. and Gertrude L. Shack Music Recital Hall, which was once the historic seminary chapel. The hall has nearly perfect acoustics and retains the original stained glass windows. Large ensembles perform in the elegant Donald C. Bedell Performance Hall. Students from all majors can participate in the Southeast Symphony Orchestra, Wind Symphony, University Choir, the Golden Eagles Marching Band and many other ensembles. The electronic music lab houses software for composing, editing and recording music. These are just some of the performance opportunities at Southeast.

Theatre – Get involved in all aspects of the production process, from acting to behind-the-scenes work in facilities like those in New York and Chicago. Your performance will captivate audiences in the 12,000-square-foot, 950-seat, Donald C. Bedell Performance Hall or the Wendy Kurka Rust Flexible Theatre, designed for intimate, experimental or “off-Broadway” type productions.
